Patent No. 5,687,761	:	
Issue Date: 11/18/1997	:	
Application No.: 08/727,057	:	DECISION
Filing or 371(c) Date: 10/08/1996	:	ON PETITION
Title of Invention: SEWER BACKUP	:	
INDICATOR APPARATUS	:	

This is a decision on the petition under 37 CFR § 1.378(b), to reinstate the above-identified patent, filed March 28, 2011.

The petition is **DISMISSED**.

Any further petition to revive the above-identified application must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Petition under 37 CFR 1.378(e)." This is **not** final agency action within the meaning of 5 U.S.C. § 704.

Background

The patent issued November 18, 1997. Patentee could have paid the seven and one-half (7½) year maintenance fee between November 18, 2004 and May 18, 2005, without a surcharge, or within the six (6) month grace period between May 19, 2005 and November 18, 2005. Patentee failed to do so; accordingly, the patent became expired on November 19, 2005. Patentee also could have paid the eleven and one half (11½) year maintenance fee between November 18, 2008 and May 18, 2009, without a surcharge, or within the six (6) month grace period between May 19, 2009 and November 18, 2009.

The present petition

Patentee/petitioner files the present petition and maintenance fees for the seven and one-half (7½) year maintenance fee and eleven and one half (11½) year maintenance fee; however, no surcharge has been filed. Petitioner provides that the payment of the maintenance fees was unavoidably delayed due to Petitioner's financial hardship from a medical condition that left him disabled and unable to work full time. In support of the petition, Petitioner files copies of letters

from the Social Security Administration dated April 7, 2006 and June 2, 2006 respectively. The April 7, 2006 letter concerns Petitioner's Plan for Achieving Self Support (PASS), and requests more information to decide if Petitioner had been following his plan and whether SSA could extend the plan. Of note is that the letter states that petitioner's current plan has been in effect since July, 2005.

The June 2, 2006 letter notes that Social Security has sent petitioner extra money in order to finance his PASS, and required proof that petitioner had been following his plan's milestones and proof of Petitioner's PASS purchases. Of note is that this letter stated that Petitioner's PASS was approved in September, 2005, but that funds approved were for Petitioner's employment goal of Plumbing Consultant/Instructor only. "No PASS Funds were approved for Petitioner's patent or plumbing invention."

Applicable Law, Rules and MPEP

37 CFR 1.378(b) provides that a patent may be reinstated at any time following expiration of the patent for failure to timely pay a maintenance fee. A petition to accept late payment of a maintenance fee, where the delay was unavoidable, must include:

- (A) the required maintenance fee set forth in 37 CFR 1.20(e)-(g);
- (B) the surcharge set forth in 37 CFR 1.20(i)(1); and
- (C) a showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent.

Opinion

As to (A), Patentee files the instant petition and avers that a check in the amount of \$3,295.00 was filed with the petition. However, A review of Office finance records show that the Office has not received payment of the seven and one-half (7½) year maintenance fee or the eleven and one half (11½) year maintenance fee.

As to (B), Petitioner is advised that *before the merits of the petition may be considered*, the appropriate surcharge is required. The required surcharge after expiration of the patent where the late payment is asserted to have been unavoidable is currently \$700.00.

Petitioner must submit the appropriate maintenance fee and surcharge before a petition under 37 CFR 1.378(b) may be considered on its merits.

As to (C), the following information regarding the unavoidable standard is provided:

The unavoidable and unintentional standards

A. Unavoidable

37 CFR 1.378(b) requires a showing that the delay in paying the maintenance fee was unavoidable despite reasonable care being taken to ensure that the maintenance fee would be

timely paid. The required showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly. Furthermore, an adequate showing requires a statement by all persons with direct knowledge of the cause of the delay, setting forth the facts as they know them. Copies of all documentary evidence referred to in a statement should be furnished as exhibits to the statement. (Emphasis supplied).

As language in 35 U.S.C. § 41(c)(1) is identical to that in 35 U.S.C. § 133 (i.e., “unavoidable” delay), a late maintenance fee for the unavoidable delay standard is considered under the same standard for reviving an abandoned application under 35 U.S.C. § 133. *See Ray v. Lehman*, 55 F.3d 606, 608-09, 34 USPQ2d 1786, 1787 (Fed. Cir. 1995) (quoting *In re Patent No. 4,409,763*, 7 USPQ2d 1798, 1800 (Comm’r Pat. 1988), *aff’d sub nom. Rydeen v. Quigg*, 748 F. Supp. 900, 16 USPQ2d 1876 (D.D.C. 1990), *aff’d*, 937 F.2d 623 (Fed. Cir. 1991) (table), *cert. denied*, 502 U.S. 1075 (1992)). *See* MPEP § 711.03(c) for a general discussion of the “unavoidable” delay standard.

Because 35 U.S.C. § 41(c) requires the payment of fees at specified intervals to maintain a patent in force, rather than some response to a specific action by the Office under 35 U.S.C. § 133, a reasonably prudent person in the exercise of due care and diligence would have taken steps to ensure the timely payment of such maintenance fees. *Ray*, 55 F.3d at 609, 34 USPQ2d at 1788.

That is, an adequate showing that the delay in payment of the maintenance fee at issue was “unavoidable” within the meaning of 35 U.S.C. § 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken to ensure the timely payment of the maintenance fees for this patent. *Id.* Thus, where the record fails to disclose that the patentee took reasonable steps, or discloses that the patentee took no steps, to ensure timely payment of the maintenance fee, 35 U.S.C. 41(c) and 37 CFR 1.378(b)(3) preclude acceptance of the delayed payment of the maintenance fee under 37 CFR 1.378(b).

35 U.S.C. § 41(c)(1) does not require an affirmative finding that the delay was unavoidable, but only an explanation as to why petitioner has failed to carry the burden to establish that the delay was unavoidable. *Cf. Commissariat A. L’Energie Atomique v. Watson*, 274 F. 2d 594, 597, 124 USPQ 126, 128 (D.C. Cir. 1960) (35 U.S.C. § 133 does not require the Director to affirmatively find that the delay was unavoidable, but only to explain why applicant’s petition was unavailing). Petitioner is reminded that it is the patentee’s burden under the statutes and regulations to make a showing to the satisfaction of the Commissioner that the delay in payment of a maintenance fee is unavoidable. *See, Rydeen v. Quigg*, 748 F. Supp. 900, 16 USPQ2d 1876 (D.D.C. 1990), *aff’d* 937 F.2d 623 (Fed. Cir. 1991) (table), *cert. denied*, 502 U.S. 1075 (1992); *Ray v. Lehman*, *supra*.

In view of the requirement to enumerate the steps taken to ensure timely payment of the maintenance fee, the patentee’s lack of knowledge of the need to pay the maintenance fee and the failure to receive the Maintenance Fee Reminder do not constitute unavoidable delay. *See Patent No. 4,409,763*, *supra*. *See also* Final Rule entitled “*Final Rules for Patent Maintenance Fees*,” published in the *Federal Register* at 49 Fed. Reg. 34716, 34722-23 (August 31, 1984), and republished in the *Official Gazette* at 1046 Off. Gaz. Pat. Office 28, 34 (September 25, 1984). Under the statutes and rules, the Office has no duty to notify patentees of the requirement to pay maintenance fees or to notify patentees when the maintenance fees are due. It is solely the responsibility of the patentee to assure that the maintenance fee is timely

paid to prevent expiration of the patent. The lack of knowledge of the requirement to pay a maintenance fee and the failure to receive the Maintenance Fee Reminder will not shift the burden of monitoring the time for paying a maintenance fee from the patentee to the Office. Thus, evidence that despite reasonable care on behalf of the patentee and/or the patentee's agents, and reasonable steps to ensure timely payment, the maintenance fee was unavoidably not paid, could be submitted in support of an argument that the delay in payment was unavoidable.

Moreover, the Patent and Trademark Office must rely on the actions or inactions of duly authorized and voluntarily chosen representatives of the applicant, and applicant is bound by the consequences of those actions or inactions. Link v. Wabash, 370 U.S. 626, 633-34 (1962); Huston v. Ladner, 973 F.2d 1564, 1567, 23 USPQ2d 1910, 1913 (Fed. Cir. 1992); see also Haines v. Quigg, 673 F. Supp. 314, 317, 5 USPQ2d 1130, 1132 (D.N. Ind. 1987). Specifically, petitioner's delay caused by the actions or inactions of his voluntarily chosen representative does not constitute unavoidable delay within the meaning of 35 USC 133 or 37 CFR 1.137(a). Haines v. Quigg, 673 F. Supp. 314, 5 USPQ2d 1130 (D. Ind. 1987); Smith v. Diamond, 209 USPQ 1091 (D.D.C. 1981); Potter v. Dann, 201 USPQ 574 (D.D.C. 1978); Ex parte Murray, 1891 Dec. Comm'r Pat. 130, 131 (Comm'r Pat. 1891). In re Mattullath, 38 App. D.C. 497, 514-15 (1912)(quoting Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (1887)); see also Winkler v. Ladd, 221 F. Supp. 550, 552, 138 USPQ 666, 167-68 (D.D.C. 1963), aff'd, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913).

As noted above, a delay resulting from the lack of knowledge or improper application of the patent statute, rules of practice or the MPE does not constitute "unavoidable" delay.

Also, as noted above, under the statutes and rules, the Office has no duty to notify patentees of the requirement to pay maintenance fees or to notify patentees when the maintenance fees are due. It is solely the responsibility of the patentee to assure that the maintenance fee is timely paid to prevent expiration of the patent. The lack of knowledge of the requirement to pay a maintenance fee will not shift the burden of monitoring the time for paying a maintenance fee from the patentee to the Office.

Further to this, the MPEP provides:

Delay resulting from the lack of knowledge or improper application of the patent statute, rules of practice or the MPEP, however, does not constitute "unavoidable" delay. See Haines, 673 F. Supp. at 317, 5 USPQ2d at 1132; Vincent v. Mossinghoff, 230 USPQ 621, 624 (D.D.C. 1985); Smith v. Diamond, 209 USPQ 1091 (D.D.C. 1981); Potter v. Dann, 201 USPQ 574 (D.D.C. 1978); Ex parte Murray, 1891 Dec. Comm'r Pat. 130, 131 (1891). For example, as 37 CFR 1.116 and 1.135(b) are manifest that proceedings concerning an amendment after final rejection will not operate to avoid abandonment of the application in the absence of a timely and proper appeal, a delay is not "unavoidable" when the applicant simply permits the maximum extendable statutory period for reply to a final Office action to expire while awaiting a notice of allowance or other action. Likewise, as a "reasonably prudent person" would file papers or fees in compliance with 37 CFR 1.8 or 1.10 to ensure their timely filing in the USPTO, as well as preserve adequate evidence of such filing, a delay caused by an applicant's failure to file papers or fees in compliance with 37 CFR 1.8 and 1.10 does not constitute "unavoidable" delay. See Krahn, 15 USPQ2d at 1825. Finally, a delay caused by an

applicant's lack of knowledge or improper application of the patent statute, rules of practice or the MPEP is not rendered "unavoidable" due to: (A) the applicant's reliance upon oral advice from USPTO employees; or (B) the USPTO's failure to advise the applicant of any deficiency in sufficient time to permit the applicant to take corrective action. See *In re Sivertz*, 227 USPQ 255, 256 (Comm'r Pat. 1985). (Emphasis supplied).

Unavoidable Delay Based Upon Financial Difficulty

A showing of "unavoidable" delay based upon financial difficulty must establish that the responsible party (i.e., an individual or the company) lacked the financial resources to pay the issue fee for the above-identified application in a timely manner. To establish that the responsible party did not have the financial resources to pay the maintenance fee during the relevant period, petitioner should provide a month by month accounting of the responsible party's income, profits, credits, and assets, as well as monthly obligations, expenses and bills (such as rent, mortgage, insurance, medical costs, utilities, etc.). Petitioner should also explain how much disposable income or profits the responsible party had on a monthly basis, which could have been used to pay the issue fee in a timely manner. Petitioner must provide the Office with copies of any documents that could confirm the responsible party's financial difficulty during the entire period from November 19, 2005, until the date of the filing of a grantable petition.

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

Moreover, an adequate showing that the delay in payment of the maintenance fee at issue was "unavoidable" within the meaning of 35 U.S.C. § 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken to ensure the timely payment of the maintenance fees for this patent. *Id.* Thus, where the record fails to disclose that the patentee took reasonable steps, or discloses that the patentee took no steps, to ensure timely payment of the maintenance fee, 35 U.S.C. 41(c) and 37 CFR 1.378(b)(3) preclude acceptance of the delayed payment of the maintenance fee under 37 CFR 1.378(b).

The rule requires a showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely. The applicable law, rules and MPEP require a showing as to the steps taken to ensure that the maintenance fee would be timely paid.

In a petition to reinstate an expired patent based upon illness, Patentee must demonstrate that his illness was debilitating to the point that it prevented the patentee from conducting his most important business from the time that the maintenance fee was due until the filing of the petition. The standard requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. The Rule requires that the patentee account for the entire delay, from the time that payment of the maintenance fee was due, to the time of filing a grantable petition.

Regarding submission of medical information, Patentee is also advised to redact (remove) from any copies of medical records or other documents any and all information **relating to social security numbers and other personal information**, i.e. telephone numbers, addresses etc., that would compromise Petitioners privacy.

I. Petitioner may file a request for reconsideration.

After a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner. Therefore, it is extremely important that petitioner supply **any** and **all** relevant information and documentation with his request for reconsideration. The Director's decision will be based solely on the administrative record in existence. Petitioner should remember that it is not enough that the delay was unavoidable; petitioner must prove that the delay was unavoidable. A petition will not be granted if petitioner provides insufficient evidence to 'show' that the delay was unavoidable. Therefore, if a request for reconsideration is filed, it must establish that the entire delay in the submission of the maintenance fee was unavoidable.

Decision on Petition

This is a decision on the petition under 37 CFR 1.378(b), filed October 14, 2010, to reinstate the above-identified patent.

The petition is **DISMISSED**.

Facts

The patent issued June 15, 1999.

Petitioner hired Computer Patent Annuities Global, Ltd. ("CPA") to track maintenance fee due dates for the instant patent.

Catharine Crea, the Associate Dean for Research Administration for Petitioner, states, "CPA and [Petitioner] have worked together to manage the docketing of a total of 5 patents." Crea Declaration, ¶ 20.

Crea describes a "business routine between [Petitioner] and CPA for docketing and ensuring payment of maintenance fees is described below." *Id.* at ¶10. Crea states, "Such system has not substantially changed since [Petitioner] and CPA began working together, because it had proven to be greatly successful and reliable." *Ibid.*

The business routine between Petitioner and CPA consisted of the followings steps:

1. CPA would send a letter notifying Petitioner when a maintenance fee became payable,
2. The letter would be forwarded to the proper person to handle the matter,
3. Petitioner would internally approve payment of the fee,

4. Petitioner would notify CPA that it is authorized to pay the fee,
5. CPA would pay the fee, and
6. CPA would send [Petitioner] an invoice for the fee.

The 3.5 year maintenance fee for the instant patent was due from June 15, 2002, to Monday, December 16, 2002, or with a surcharge from December 17, 2002, to Monday, June 16, 2003.

On July 1, 2002, CPA sent a renewal notice to Petitioner. The notice asked if Petitioner wished for CPA to pay the 3.5 year maintenance fee for the instant patent.

Stella Manne, the Director of Petitioner's Technology Department, sent CPA instructions to pay the fee on July 10, 2002.

CPA timely paid the 3.5 year maintenance fee on August 29, 2002.

Petitioner laid off Manne on October 27, 2005. Manne's responsibilities, including the management of intellectual property matters, were assigned to Crea, Manne's supervisor. From 2006 to 2007, Crea managed 26 patents and patent applications on behalf of Petitioner.

Alison Goveia handled the distribution of all mail and packages received in the Office of Research Administration at Petitioner during all the time periods at issue. After Manne was laid off, Goveia was instructed to forward all mail addressed to Manne to Susan Dudick, Crea's administrative assistant.

Goveia has acknowledged she was aware of the need to forward Manne's mail to Crea. Goveia states, "I knew that all mail addressed to Dr. Manne was to be redirected to Associate Dean Catherine Crea." Govia Declaration, ¶ 5.

Crea and Dudick reviewed mail Crea's mail, and mail forwarded to Crea, daily and "Crea would decide the appropriate response for each piece of mail." *Id.* at ¶ 28.

The 7.5 year maintenance fee for the instant patent was due from June 15, 2006 to December 15, 2006, or with a surcharge from December 16, 2006, to June 15, 2007.

CPA sent a reminder to Petitioner on June 30, 2006. The reminder indicated the 7.5 year maintenance fee was due for the instant patent and asked if Petitioner wished for CPA to pay the fee.

CPA did not receive a response to the June 30, 2006 reminder.

CPA sent a second reminder to Petitioner on September 1, 2006.

CPA did not receive a response to the September 1, 2006 reminder.

CPA sent a third reminder to Petitioner on December 29, 2006.

CPA did not receive a response to the December 29, 2006 reminder.

CPA sent a fourth reminder to Petitioner on May 1, 2007.

CPA did not receive a response to the May 1, 2007 reminder.

Neither CPA nor Petitioner paid the 7.5 year maintenance fee and the patent expired June 16, 2007.

Crea states she never received any notice from CPA, or any other party, that the 7.5 year maintenance fee was due for the instant patent.

On December 17, 2009, Crea learned, via an e-mail from Waldemar Comas, general counsel for Petitioner, that the patent had expired.

For unclear reasons, Crea "believed that locating the physical, law firm patent prosecution file would be helpful in resolving both the immediate problem ... as well as preventing future non-payment maintenance fees for the instant patent." Crea Declaration at ¶ 37.

Prosecution of the application was handled by the law firm of Skadden, Arps, Slate, Meagher & Flom, L.L.P. ("Skadden"). Crea contacted Skadden on December 30, 2009, and was informed the file had been transferred to Stefan Kirchanski of Graham & James, L.L.P. ("Graham") during 1998.

Crea sent an e-mail to Comas on December 31, 2009, asking him for help in finding Kirchanski.

On February 12, 2010, Crea sent an e-mail to Comas reminding him of the request she had made in the e-mail sent December 31, 2009.

On March 18, 2010, Crea sent an e-mail to Comas reminding him of the prior two e-mails and stating she was still waiting to receive the requested information.

The record fails to indicate Comas ever made any attempt to locate Kirchanski.

On or about May 5, 2010, Crea contacted Skadden in an attempt to obtain additional information concerning Kirchanski. However, she was unable to obtain additional information.

On or about May 6, 2010, Crea contacted the licensee in an attempt to locate information pertaining to Kirchanski. The licensee provided Crea with contact information for Kirchanski.

On an unidentified date, Crea learned the law firm of Graham & James had dissolved during July 2000.

On or about May 7, 2010, Crea contacted Kirchanski to locate the file. Crea does not discuss the substance of the conversation with Kirchanski.

Crea states, on May 12, 2010, after her unsuccessful attempts to locate the physical file and obtain additional information, she contacted the law firm of Nada Jain, P.C. to investigate the matter and to take steps to reinstate the patent.

The instant petition was filed October 14, 2010.

Law

A grantable petition under 37 CFR 1.378(b) must be accompanied by a showing to the satisfaction of the Director that the entire delay in paying the required maintenance fee from the due date for the fee until the filing of a grantable petition pursuant to this paragraph was unavoidable.

In order for a party to show unavoidable delay, the party must show "reasonable care was taken to ensure that the maintenance fee would be promptly paid."¹ The level of "reasonable care" required to be shown is the same as the level of "care or diligence ... generally used and observed by prudent and careful men in relation to their most important business."² When determining if a period of delay has been shown to have been unavoidable, the Office will take "all the facts and circumstances into account" and will decide each petition "on a case-by-case basis."³

35 U.S.C. 41(c)(1) states, with emphasis added, "The Director may accept the payment of any maintenance fee . . . after the six month grace period if the delay is *shown to the satisfaction of the Director* to have been unavoidable." Therefore, petitioner has the burden of proof. The decision will be based solely on the written, administrative record in existence. A petition will not be granted if petitioner provides insufficient evidence to "show" that the delay was unavoidable.

The Office and Congress have recognized the unavoidable standard can be very difficult to meet. During 1992, Congress considered the difficulty involved in reinstating a patent under the unavoidable. Congressional representatives described the unavoidable standard as inflexible, extremely hard to meet, too stringent and harsh.⁴ Congress did NOT take steps to make the

S16613, 16614 (September 30, 1992) (Rep. DeConcini) (emphasis added). "The unavoidable standard has proved to be too stringent in many cases." 138 CONG. REC. H1115 (October 3, 1992) (Rep. Hughes) (emphasis added). "The unavoidable standard is 'too stringent'. Some patent owners have lost their patent rights due to circumstances that do not warrant this harsh result, but that could not be considered 'unavoidable' under current law." 138 CONG. REC. E1688 (June 4, 1992) (extension of remarks of Rep. McCollum) (emphasis added).

unavoidable standard more flexible, easier too meet, less stringent, or less harsh. Instead, Congress determined that it would allow patent owners the ability to reinstate a patent under an "unintentional" standard as long as the petition was filed within 24 months of the expiration of the patent. Congress chose to continue requiring proof of unavoidable delay for petitions filed after the 24 month time period.

Discussion

The Failure to Timely Pay the 7.5 Maintenance Fee

Crea describes a simple routine to be followed for the five patents docketed by CPA. In essence:

1. CPA would send Petitioner a reminder notice,
2. Petitioner would receive the notice,
3. The notice would be forwarded to Crea, and
4. Crea would send CPA instructions to pay the fee.

Petitioner states CPA sent four reminders *and* states Crea never received any of the reminders. Assuming Crea never received the reminders, the following would appear to be true for each reminder:

1. The United States Postal Service, or other mail carrier used by CPA, never delivered the reminder to Petitioner, or
2. The mail was received, but was not successfully forwarded to Crea.

Petitioner asserts the process in place to ensure mail would be properly forwarded to Crea was reliable. Crea's asserts the routine at issue has successfully and reliably been followed for maintenance fees due for all the other patents handled by CPA.

Petitioner's arguments might well be persuasive *if* only one reminder had not been received by Crea. However, in view of the *extremely minimal* probability of *all four* reminders being lost by the mail carrier, the record is insufficient to establish the Petitioner's process for handling mail was reliable.

Any request for reconsideration must demonstrate the system in place for handling mail from CPA was reliable despite the loss of all four reminders mailed by CPA informing Petitioner the 7.5 year maintenance fee was due.

Crea asserts the routine at issue has remained substantially unchanged since Petitioner first hired CPA and states the routine has been successfully and reliably followed for the other four patents. However, Crea does not identify the other patents. Crea also does not include a discussion of relevant facts concerning the other patents. Any request for reconsideration should identify the other four patents, and for each patent, supply a copy of all correspondence sent to Petitioner from CPA, a copy of all correspondence received from CPA, and a copy of all correspondence sent to CPA.

Delay in Filing a Petition to Reinstate the Patent

A grantable petition under 37 CFR 1.378(b) must demonstrate the entire delay in the submission of the maintenance fee was unavoidable. In other words, the instant petition cannot be granted absent evidence demonstrating the period of delay from December 17, 2009, the date Crea learned the patent had expired, until October 12, 2010, the date the instant petition was mailed to the Office, was unavoidable.

Petitioner has failed to prove the delay resulting from Crea's attempts to locate the physical file was unavoidable.

Crea states she believed the physical, prosecution file might be helpful in resolving the immediate problem. However, Crea fails to identify the basis for such a belief or demonstrate the belief was reasonable. Crea also states she believed possession of the file would help prevent the future non-payment of fees for the instant case. However, Crea fails to provide the basis for such a belief or demonstrate the belief was reasonable.

Petitioner has not demonstrated the over four months of delay spent attempting to locate Kirchanski was unavoidable delay.

From December 31, 2009, to May 5, 2010, the only attempt Crea made to locate Kirchanski was to send three e-mails requesting Comas' assistance in locating Kirchanski. The record fails to establish Comas ever took any steps to locate Kirchanski.

The record fails to prove a person using the level of care and diligence normally used by reasonable and prudent individuals when handling their most important business would not have taken more than four months to locate Kirchanski. For example, the record fails to prove a reasonable person would not have attempted to use the internet to locate Kirchanski, *and* fails to prove Crea or Comas would not have been able to locate Kirchanski in minimal time, perhaps in seconds, using Google or another internet search engine.

Petitioner has not demonstrated Petitioner's delay in contacting the law firm of Nada Jain was unavoidable delay.

Petitioner has failed to demonstrate a reasonable and prudent person, treating the patent the same as the person would treat the person's most important business, would have waited five months to contact the law firm. The instant petition could have been prepared and filed on an earlier date absent Petitioner's delay in contacting the law firm.

The record fails to prove the entire 6-month period of delay from the date Petitioner contacted current counsel until the date the petition was filed was unavoidable.

The petition discusses steps taken by current counsel, but does not identify the amount of time or dates associated with the tasks. For example, counsel does not discuss the time spent requesting information from Petitioner or the amount of time Petitioner spent responding to such a request. Any request for reconsideration should *fully* discuss the six-month period of delay.

Conclusion

In view of the prior discussion, the showing of record is not sufficient to establish the entire delay in the submission of the maintenance fee was unavoidable.

The petition is signed by Attorney Nada Jain. There is no indication in the record that Attorney Jain was ever given a power of attorney or authorization of agent for the instant case. If Attorney Jain wishes to receive future correspondence regarding this patent, the appropriate power of attorney or authorization of agent must be submitted. Although the decision is being mailed to Attorney Jain at the address set forth in the petition, all future correspondence will be directed to the address currently of record unless appropriate instructions are received to the contrary.

Petitioner's Current Options

Petitioner may file a request for reconsideration.

Any request for reconsideration must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are NOT permitted. Any petition for reconsideration of this decision must be accompanied by a non-refundable petition fee of \$400 as set forth in 37 CFR 1.17. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.378(b)." This is **not** final agency action within the meaning of 5 U.S.C. § 704.

After a decision on the petition for reconsideration is issued, no further reconsideration or review of the matter will be undertaken by the Director. Therefore, it is extremely important that petitioner supply **any** and **all** relevant information and documentation with his request for reconsideration. The Commissioner's decision will be based solely on the administrative record in existence. Petitioner should remember that it is not enough that the delay was unavoidable; petitioner must prove that the delay was unavoidable. A petition will not be granted if petitioner provides insufficient evidence to "show" that the delay was unavoidable. Therefore, if a request for reconsideration is filed, it must establish that the entire delay in the submission of the maintenance fee was unavoidable.

Petitioner may request a refund of the maintenance fee and surcharge,
which accompanied the petition.

Since the petition is dismissed, petitioner may request a refund of the maintenance fee and surcharge instead of filing a request for reconsideration. Petitioner is reminded that if a request for reconsideration is later filed along with the \$400 fee, the \$400 will not be refunded. A request for a refund should be sent to: Mail Stop 16, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450. A copy of this decision should accompany any request for refund.

Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. In the event that such an inquiry has not been made, petitioner must make such an inquiry. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that the delay in paying the maintenance fee under 37 CFR 1.378(c) was intentional, petitioner must notify the Office.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at (571) 272-4618.

Application No. 08/730,252

Attorney Docket No. **M-1421-6C-US**

:
:
:
: DECISION DISMISSING PETITION
: UNDER 37 CFR 1.78(a)(3)
:

This is a decision on the petition under 37 CFR 1.78(a)(3), filed May 20, 2010, to accept an unintentionally delayed claim under 35 U.S.C. § 120 for the benefit of priority to prior-filed nonprovisional Application No. 07/669,818, filed March 15, 1991.

The petition is **DISMISSED**.

A petition for acceptance of a claim for late priority under 37 CFR 1.78(a)(3) is only applicable to those applications filed on or after November 29, 2000 and after the expiration of the period specified in 37 CFR 1.78(a)(2)(ii). In addition, the petition under 37 CFR 1.78(a)(3) must be accompanied by:

- (1) the reference required by 35 U.S.C. § 120 and 37 CFR 1.78(a)(2)(i) of the prior-filed application, unless previously submitted;
- (2) the surcharge set forth in § 1.17(t); and
- (3) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2)(ii) and the date the claim was filed was unintentional. The Director may require additional information where there is a question whether the delay was unintentional.

The amendment as drafted is unacceptable and, therefore, is not considered a proper reference under 37 CFR 1.78(a)(2)(i). In this regard, the amendment **does not comply with 37 CFR 1.121**, 1.52, or 1.4(c). The series code is missing and the amendment is not presented on a separate sheet. Note that 37 CFR 1.121 states that amendments are made by filing a paper, in compliance with § 1.52, directing that specified amendments be made.

The phrase "...which is a continuation of Ser. No. 669,818, Mar. 15, 1991..." is not a proper claim for priority.

Before the petition can be granted, petitioner must submit a substitute amendment in compliance with the aforementioned rules, along with a renewed petition under 37 CFR 1.78(a)(3).¹

It is also noted that the statement of unintentional delay is improper. 37 CFR 1.178(a)(3) requires a statement that "the entire delay between the date the claim was due under 37 CFR 1.78(a)(2)(ii) and the date the claim was filed was unintentional." Since the statement appearing in the petition varies from the language required by 37 CFR 1.137(b)(3), the petition can not be granted at this time.

In re Patent No. 5,809,174	:	
Issue Date: September 15, 1998	:	DECISION ON PETITION
Application No. 08/730,252	:	UNDER 37 CFR 1.78(a)(3)
Filed: October 15, 1996	:	
Attorney Docket No. M-1421-6C-US	:	

This is a decision on the renewed petition under 37 CFR 1.78(a)(3), filed January 31, 2011, to accept an unintentionally delayed claim under 35 U.S.C. 120 for the benefit of a prior-filed nonprovisional application.

The petition is **DISMISSED as inappropriate.**

The present renewed petition seeks to correct the failure to make a reference under 35 U.S.C. 120 to a prior copending nonprovisional application pursuant to 37 CFR 1.78. The Office notes that Application No. 08/730,252 was filed October 15, 1996, and issued as a patent on September 15, 1998. The Office further notes that for applications filed before November 29, 2000, it is the version of 37 CFR 1.78, which was in effect as of November 29, 2000, that applies.

As Application No. 08/730,252 was a utility application filed under 35 U.S.C. 111(a) prior to November 29, 2000, a petition under 37 CFR 1.78(a)(3) and the surcharge set forth in 37 CFR 1.17(t) is not required to amend the patent to make reference to a prior copending nonprovisional application. MPEP 1481.03. Rather, a Certificate of Correction is an appropriate remedy for correcting a reference to a prior copending nonprovisional application in a patent. Id.; see In re Schuurs, 218 USPQ 443 (Comm'r Pat. 1983); see also In re Lambrech, 202 USPQ 620 (Comm'r Pat. 1976), citing In re Van Esdonk, 187 USPQ 671 (Comm'r Pat. 1975). For this reason, the decision mailed December 28, 2010, dismissing the petition filed on May 20, 2010, is hereby **vacated**. As a petition under 37 CFR 1.78(a)(3) is not required, the \$1410.00 fee paid on May 20, 2010, will be refunded in due course.

The Office acknowledges the amendment submitted on renewed petition amending the first sentence of the specification following the title to contain a reference to each prior-filed application, identifying them by application number (consisting of the series code and serial number) and indicating the relationships of the applications.

As this application was filed prior to November 29, 2000, petitioners must submit a completed Certificate of Correction form and a \$100.00 certificate of correction fee to amend the patent to include the reference to the prior filed nonprovisional application. A petition under 37 CFR 1.78(a)(3) is not required in this instance. Therefore, no further action by the Office of Petitions is necessary.

Any questions concerning this matter may be directed to the undersigned at (571) 272-3211.

ON PETITION

This is a decision on the petition under 37 CFR 1.378(c), filed February 9, 2012, to accept the delayed payment of a maintenance fee for the above-identified patent.

The petition is **GRANTED**.

This patent expired on November 10, 2011 for failure to pay the eleven and one-half year maintenance fee. Since this petition was submitted within twenty-four months after the six-month grace period provided in 37 CFR 1.362(e), the petition was timely filed under the provisions of 37 CFR 1.378(c).

The maintenance fee is hereby accepted and the above-identified patent is reinstated as of the mail date of this decision.

It is not apparent whether the statement of unintentional delay was signed by a person who would have been in a position of knowing that the delay in filing a timely response was unintentional. Nevertheless, in accordance with 37 CFR 10.18, the statement is accepted as constituting a certification of unintentional delay. However, in the event that petitioner has no knowledge that the delay in paying the maintenance fee was in fact unintentional, petitioner must make such an inquiry to ascertain that, in fact, the delay was unintentional. If petitioner discovers that the delay in paying the maintenance fee was intentional, petitioner must so notify the Office.

Further, it is noted that in the instant petition Mr. Daisak gives a registration number that is not associated with his name. Petitioner should note that all documents submitted before the United States Patent and Trademark Office by a registered patent agent must contain his/her registration number. However, the accompanying document does include the signature and proper registration number for Daniel Daisak. Therefore, the petition is accepted as being properly signed.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-7751.

Application Number: 08/734,383 : ON PETITION

This is a decision in response to the petition under 37 CFR 1.378(b),¹ filed on December 27, 2010, to accept the delayed payment of the maintenance fee for the above-identified patent.

The petition is dismissed.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this 2-month time limit can be granted under 37 CFR 1.136(a) or (b). Any such petition for reconsideration must be accompanied by the petition fee of \$400.00 as set forth in 37 CFR 1.17(f). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further

¹ A grantable petition to accept a delayed maintenance fee payment under 37 CFR 1.378(b) must include

- (1) the required maintenance fee set forth in § 1.20(e) through (g);
- (2) the surcharge set forth in § 1.20(I)(1); and
- (3) a showing that the delay was unavoidable since reasonable care was

taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

reconsideration or review of the matter will be undertaken by the Director.

The patent issued on May 4, 1999. The first maintenance fee was timely paid. The second maintenance fee could have been paid during the period from May 4, 2006 through November 6, 2006, or, with a surcharge, during the period from November 7, 2006 through May 4, 2007. Accordingly, this patent expired at midnight on May 4, 2007, for failure to timely remit the maintenance fee.

Petitioner states that he relied upon his registered patent practitioner, W.D. Swayze, Jr. (hereinafter "Swayze"), to notify him of the due dates for the maintenance fees, but that Swayze failed to notify petitioner that the maintenance fee was due, and therefore the patent became expired for failure to timely pay the maintenance fee.

Petitioner further states that he received no notification from the USPTO that the patent had become expired.

A petition to accept the delayed maintenance fee under 35 U.S.C. § 41(c) and 37 CFR 1.378(b) must be accompanied by (1) an adequate, verified showing that the delay was unavoidable, since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent, (2) payment of the appropriate maintenance fee, unless previously submitted, and (3) payment of the surcharge set forth in 37 CFR 1.20(i)(1). This petition lacks requirement (1).

The Director may accept late payment of the maintenance fee if the delay is shown to the satisfaction of the Director to have been "unavoidable".²

The showing of record is inadequate to establish unavoidable delay within the meaning of 37 CFR 1.378(b)(3).

A late maintenance fee is considered under the same standard as that for reviving an abandoned application under 35 U.S.C. § 133 because 35 U.S.C. § 41(c)(1) uses identical language (i.e. "unavoidable delay").³ Decisions reviving abandoned applications

² 35 U.S.C. § 41(c)(1).

³ Ray v. Lehman, 55 F.3d 606, 608-09, 34 USPQ2d 1786, 1787 (Fed. Cir. 1995) (quoting In re Patent No. 4,409,763, 7 USPQ2d 1798, 1800 (Comm'r Pat. 1989)).

have adopted the reasonably prudent person standard in determining if the delay was unavoidable.⁴ In this regard:

The word 'unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present.⁵

As 35 U.S.C. § 41(c) requires the payment of fees at specified intervals to maintain a patent in force, rather than some response to a specific action by the Office under 35 U.S.C. § 133, a reasonably prudent person in the exercise of due care and diligence would have taken steps to ensure the timely payment of such maintenance fees.⁶ That is, an adequate showing that the delay was "unavoidable" within the meaning of 35 U.S.C. § 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken to ensure the timely payment of the maintenance fees for this patent.⁷

While petitioner alleged chose to rely upon his registered patent practitioner (Swayze), such reliance per se does not provide petitioner with a showing of unavoidable delay within the meaning

⁴ Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (Comm'r Pat. 1887) (the term "unavoidable" "is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used by prudent and careful men in relation to their most important business").

Supp. 550, 552, 138 USPQ 666, 167-68 (D.D.C. 1963), aff'd, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913). In addition, decisions on revival are made on a "case-by-case basis, taking all the facts and circumstances into account." Smith v. Mossinghoff, 671 F.2d 533, 538, 213 USPQ 977, 982 (D.C. Cir. 1982). Finally, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

of 37 CFR 1.378(b) and 35 U.S.C. § 41(c).⁸ Rather, such reliance merely shifts the focus of the inquiry from petition to whether the attorney or agent acted reasonably and prudently.⁹ As such, assuming that the attorney or agent had been so engaged, then it is incumbent upon petitioner to demonstrate, via a documented showing, that the attorney or agent had docketed this patent for the second maintenance fee payment in a reliable tracking system.¹⁰ If petitioner cannot establish that the attorney or agent had been so engaged, then petitioner will have to demonstrate what steps were established by petitioner to monitor and pay the maintenance fee.

Therefore, any showing of unavoidable delay must include a statement from petitioner's patent attorney, as well as any other attorney(s) of record during the period that payment of the maintenance fee was delayed, as to why action was not taken to timely submit the required maintenance fee while the patent was under that agent's control. Petitioner should send a letter (accompanied by a copy of this decision) to Swayze by registered or certified mail, return receipt requested, indicating to the agent that the USPTO is requesting his assistance in determining the circumstances surrounding the expiration of this patent, and is specifically requesting Swayze to provide a statement as to: (1) whether, and when, he first became aware that the first maintenance fee for this patent was due, and (2) why the maintenance fee was not timely submitted. Such statements should be accompanied by copies of any documents relevant to payment of the maintenance fee. In the event that Swayze fails to provide a statement within a person (e.g. within one (1) month) specified in such letter, petitioner should submit a copy of such letter and the return receipt indicating its delivery to the patent attorney or agent with any petition for reconsideration under 37 CFR 1.378(e).

The above paragraph notwithstanding, petitioner is reminded that the failure of communication between an applicant and counsel is not unavoidable delay.¹¹ Specifically, delay resulting from a lack of proper communication between a patent holder and a registered representative as to who bore the responsibility for payment of a maintenance fee does not constitute unavoidable delay within the meaning of 35 U.S.C. § 41(c) and 37 CFR

1.378(b).¹² Moreover, the Office is not the proper forum for resolving a dispute as to the effectiveness of communications between parties regarding the responsibility for paying a maintenance fee.¹³

A delay resulting from a lack of knowledge or improper application of the patent statute, rules of practice, or the MPEP does not constitute an "unavoidable" delay.¹⁴ As the showing of record does not rise to the level of unavoidable delay, the petition will be dismissed.

Further, petitioner's contention that he did not receive any notification from the USPTO that the maintenance fee was due is not well taken. A patentee's lack of knowledge of the need to pay the maintenance fee and the failure to receive the Maintenance Fee Reminder do not constitute unavoidable delay.¹⁵ Under the statute and regulations, the Office has no duty to notify patentees of the requirement to pay maintenance fees or to notify patentees when the maintenance fees are due. The Office mailing of Maintenance Fee Reminders is carried out strictly as a courtesy. Accordingly, it is solely the responsibility of the patentee to assure that the maintenance fee is timely paid to prevent expiration of the patent. The lack of knowledge of the requirement to pay a maintenance fee and/or the failure to receive the Maintenance Fee Reminder will not shift the burden of monitoring the time for paying a maintenance fee from the patentee to the Office.¹⁶

Petitioner should note that if this petition is not renewed, or if renewed and not granted, then the maintenance fee and post-expiration surcharge are refundable. The \$400.00 petition fee for seeking reconsideration is not refundable. Any request for refund should be in writing to the address noted below.

Issue Date: August 18, 1998

Attorney Docket: 1525A

This is a decision on the petition under 37 CFR 1.378(c), filed December 13, 2010 to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this two-month time limit can be granted under 37 CFR 1.136(a) or (b). This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

Any petition for reconsideration of this decision must be accompanied by the petition fee of \$400 as set forth in 37 CFR 1.17(f). The petition for reconsideration must include the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A petition to accept the unintentionally delayed payment of a maintenance fee under 35 U.S.C. 41(c) and 37 CFR 1.378(c) must be accompanied by: (1) a statement that the delay was unintentional; (2) payment of the appropriate maintenance fee, unless previously submitted; (2) payment of the surcharge set forth in 37 CFR 1.20(i)(2). This petition lacks item (2) above.

A review of the record shows the NOTICE OF NON-ACCEPTANCE OF PATENT MAINTENANCE FEE mailed on September 9, 2010 informed patentee that the \$2,120.00 fees were being refunded as the fees were untimely. Further, a call made on February 23, 2011 requesting the submission of the \$2,055.00 maintenance fee has failed to result in the submission of the maintenance fee.

The Office is in receipt of \$1640.00, the unintentional fee.

ON PETITION

This is a decision on the renewed petition under 37 CFR 1.378(c), filed April 13, 2011 to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this two-month time limit can be granted under 37 CFR 1.136(a) or (b). This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

The statement of delay is not acceptable. In this regard, petitioner's attention is directed to 37 CFR 1.33(b), which states.

(b) Amendments and other papers. Amendments and other papers, except for written assertions pursuant to § 1.27(c)(2)(ii) of this part, filed in the application must be signed by:

- (1) A registered patent attorney or patent agent of record appointed in compliance with § 1.32(b);
- (2) A registered patent attorney or patent agent not of record who acts in a representative capacity under the provisions of § 1.34;
- (3) An assignee as provided for under § 3.71(b) of this chapter; this includes the submission of a statement under 37 CFR 3.73(b). or
- (4) All of the applicants (§ 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with § 3.71 of this chapter.

The merits of the petition have **not** been reviewed because Mary Dester Martin has signed the petition. A review of the record shows that Ms. Martin is not a proper party pursuant to 37 CFR 1.33.

It is further noted as indicated in the petition decision of March 24, 2011, any renewed petition must include the \$400.00 petition fee.

Application Number: 08/742,552 : LETTER
Filing Date: 10/28/1996 :
For: FOOTGEAR SUSPENSION DEVICE :

This is a letter in response to the communication received on August 22, 2011, concerning payment of the maintenance fee in this patent.

The patent expired on August 3, 2011, for failure to timely pay the 11.5 year maintenance fee.

Patentee asks, in pertinent part, "is there any way I can still pay the fees for this patent?"

It is recommended that patentee promptly file a petition under 37 CFR 1.378(c), requesting that the unintentionally delayed payment of a maintenance fee be accepted. A petition to accept the delayed payment of a maintenance fee under 35 U.S.C. 41(c) and 37 CFR 1.378(c) must be filed within **twenty four months from the end of the six month grace period (e.g., the expiration date of the patent)** and be accompanied by (1) a verified statement that the delay was unintentional, (2) payment of the appropriate maintenance fee, unless previously submitted, (3) payment of the \$1,640.00 surcharge set forth in 37 CFR 1.20(i)(2).

If a petition under 37 CFR 1.378(c) is filed, the total due as of the mailing date of this letter is **\$4,005.00** (the 11.5 year maintenance fee (small entity amount) of \$2,365.00 plus the surcharge of \$1,640.00).¹

The address in the petition is different than the correspondence address. A courtesy copy of this decision will be mailed to the

In re Patent No. 5,695,492 :
Alan Brown :
Issue Date: March 25, 2003 : ON PETITION
Application No. 08/748,056 :
Filed: November 13, 1996 :
Title: LAMELLAR ILLUMINATION :
APPARATUS FOR EYE SURGERY :

This is in response to the PETITION TO ACCEPT UNAVOIDABLY DELAYED PAYMENT OF MAINTENANCE FEE IN AN EXPIRED PATENT (37 CFR 1.378(b)) filed January 19, 2010. Theresa Metz appears to have filed this petition on behalf of sole inventor Brown. For the reasons stated herein, the petition is DISMISSED without consideration on the merits.

Any request for reconsideration must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 C.F.R. §1.136(a) are not permitted. See 1.181(f).

37 CFR 1.33(b) provides that:

Amendments and other papers, except for written assertions pursuant to § 1.27(c)(2)(ii) of this part, filed in the application must be signed by:

- (1) A patent practitioner of record appointed in compliance with § 1.32(b);
- (2) A patent practitioner not of record who acts in a representative capacity under the provisions of § 1.34;
- (3) An assignee as provided for under § 3.71(b) of this chapter; or

(4) All of the applicants (§ 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with § 3.71 of this chapter.

Likewise, with respect to petitions filed under §1.378 to accept delayed payment of maintenance fees, rule 1.378(d) specifically provides that:

Any petition under this section must be signed by an attorney or agent registered to practice before the Patent and Trademark Office, or by the patentee, the assignee, or other party in interest.

The instant petition is signed by Theresa Metz. There is no indication in the petition or in Office records that Ms. Metz is either a registered patent practitioner, a joint inventor or an assignee of the above-identified patent. Accordingly, it is concluded that the petition is not acceptable as it is not signed by a proper party. A petition signed by sole inventor Alan Brown or another proper party is required for consideration of this petition.

It is appropriate to advise petitioner that a showing of docketing error may meet the burden of establishing that the delay was "unavoidable," provided it is shown that:

- (A) the error was the cause of the delay at issue;
- (B) there was in place a business routine for performing the clerical function that could reasonably be relied upon to avoid errors in its performance; and
- (C) the employee was sufficiently trained and experienced with regard to the function and routine for its performance that reliance upon such employee represented the exercise of due care.

A showing of unavoidable delay will require:

- (1) evidence concerning the procedures in place that should have avoided the error resulting in the delay;
- (2) evidence concerning the training and experience of the persons responsible for the error; and
- (3) copies of any applicable docketing records to show that the error was in fact the cause of the delay. See MPEP § 711.03(c), subsection II.C.2).

As the attorneys of record are not in active status, this decision is being mailed to the sole inventor, with a courtesy copy being sent to the address set forth on the petition. Patentee should promptly file a revocation of power of attorney and change of address to ensure that future correspondence is received.

Application No. 08/748,056 :

Title: LAMELLAR ILLUMINATION :
APPARATUS FOR EYE SURGERY :

This is in response to the "Petition to accept unavoidably delayed payment of maintenance fee - January 19, 2010" filed November 4, 2010. This also responds to the "request to withdraw petition and request for refund of fees" filed February 11, 2011.

The petition is **DISMISSED AS MOOT.**

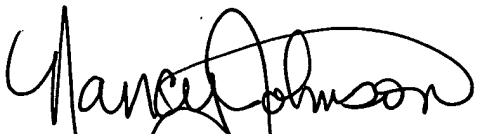

The request for refund is **GRANTED.**

By decision mailed October 15, 2010, the initial petition under 37 CFR 1.378(b) filed January 19, 2010 was dismissed without consideration on the merits. The petition was not signed by a proper party.

Prior to a decision being issued on this renewed petition, patentee filed electronically a petition under 37 CFR 1.378(c). This petition was granted by decision of record dated February 11, 2011. The 11 ½ year maintenance fee was thereby accepted and the patent reinstated as of February 11, 2011.

In view thereof, consideration of this petition is unnecessary. As such, the surcharge and maintenance fee (\$2,755) paid January 15, 2010 in association with this petition is being refunded under separate cover. (The surcharge and maintenance fees were paid with the electronically filed petition on February 11, 2011).

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-3219.

In re Patent No. 5,800,239
Issue Date: September 1, 1998
Application No. 08/752,002
Filed: November 15, 1996
Title of Invention: **BUILDING BLOCK TOY SET**

ON PETITION

This is a decision on the petition filed June 21, 2010, under 37 CFR 1.378(b), to accept the delayed payment of the maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this 2-month time limit can be granted under 37 CFR 1.136(a) or (b). Any such petition for reconsideration must be accompanied by the petition fee of \$400.00 as set forth in 37 CFR 1.17(h). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner.

The patent issued on September 1, 1998. The second maintenance fee due could have been paid during the period from September 1, 2005 to March 1, 2006 or, with a surcharge during the period from March 2, 2006 to September 1, 2006. Accordingly, this patent expired on September 1, 2006, for failure to timely remit the second maintenance fee.

A petition to accept the delayed maintenance fee under 35 U.S.C. § 41(c) and 37 CFR 1.378(b) must be accompanied by (1) an adequate, verified showing that the delay was unavoidable, since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent, (2) payment of the appropriate maintenance fee, unless previously submitted, and (3) payment of the surcharge set forth in 37 CFR 1.20(l)(1).

This petition lacks item (1) above.

Petitioner, asserts that the delay was unavoidable because he did not receive notice of maintenance fees due and thus did not know of the requirement to pay a maintenance fee.

The Commissioner may accept late payment of the maintenance fee if the delay is shown to the satisfaction of the Commissioner to have been "unavoidable".¹ A late maintenance fee is considered under the same standard as that for reviving an abandoned application under 35 U.S.C. § 133 because 35 U.S.C. § 41(c)(1) uses identical language (i.e. "unavoidable delay").² Decisions reviving abandoned applications have adopted the reasonably prudent person standard in determining if the delay was unavoidable.³ In this regard:

The word 'unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present.⁴

As 35 U.S.C. § 41(c) requires the payment of fees at specified intervals to maintain a patent in force, rather than some response to a specific action by the Office under 35 U.S.C. § 133, a reasonably prudent person in the exercise of due care and diligence would have taken steps to ensure the timely payment of such maintenance fees.⁵ That is, an adequate showing that the delay was "unavoidable" within the meaning of 35 U.S.C. § 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken to ensure the timely payment of the maintenance fees for this patent.⁶

The showing of record therefore has been considered, but petitioner's lack of knowledge

¹35 U.S.C. § 41(c)(1).

Finally, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

⁶Id.

of the need to pay a maintenance fee does not rise to the level of unavoidable delay.⁷

Under the statutes and regulations, the lack of knowledge of the requirement to pay the maintenance is not unavoidable. The requirement to pay maintenance fees is printed on the face of the patent and even in the absence of being told or even reminded of the need to pay the maintenance fees to maintain the patent in full force and effect, if the patent owner had read the patent, he would have known of the maintenance fee requirements. Furthermore, under the statutes and regulations, the U.S. Patent and Trademark Office (USPTO) has no duty to notify patentee of the requirement to pay maintenance fees or to notify patentee when the maintenance fee is due. It is solely the responsibility of the patentee to assure that the maintenance fee is paid timely to prevent expiration of the patent. The failure to receive a reminder notice and the lack of knowledge of the requirement to pay the maintenance fee will not shift the burden of monitoring the time for payment a maintenance fee from the patentee to the USPTO.

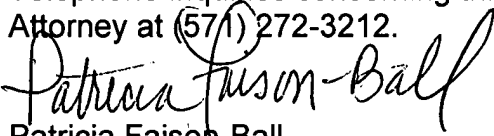

Finally, the address in the petition is different than the correspondence address of record in the file. A courtesy copy of this decision will be mailed to petitioner. All future correspondence, however, will be mailed solely to the correspondence address of record. If the change of correspondence address is to be filed by an assignee, the assignee must establish its right to take action in accordance with 37 CFR 3.73. If petitioner desires to receive future correspondence regarding any Maintenance Fee Reminder which may be mailed concerning this patent, a Fee Address should be submitted to Maintenance Fee Division.

The petition is **dismissed**.

Petitioner requests that documents filed electronically on July 28, 2011, be expunged from the record.

The petition is deficient because the petition was filed after issuance of the above identified application. The petition was filed July 28, 2011 and the application issued as a patent on October 27, 1998. Petitions to expunge filed under 37 CFR 1.59 cannot be granted in a patented file.

Issue Date: October 27, 1998 :
Application No. 08/755,599 : DECISION ON PETITION
Filed: November 25, 1996 :
Inventor: Earl A. Ramsey et al. :

This is a decision on the Petition Under 37 CFR 1.182 to Expunge Documents, filed August 25, 2011, which is being treated as a petition under 37 CFR 1.182 to invalidate an assignment previously recorded against the above-identified application.

The petition is **dismissed**. This is not a final agency action.

Petitioner indicates an assignment recorded on July 28, 2011 contains confidential business information and requests this assignment record be expunged from the file. The petition indicates that a correct assignment was recorded on August 24, 2011.

Petitioner states the assignment document to be expunged contains confidential business information but does not explain what this information is and where it is located in the document.

In situations where a recorded assignment contains personal identification information, trade secrets or other confidential information, and applicants wish to expunge the document the corrective procedure includes the filing of a corrective assignment which is a copy of the previous assignment with the confidential information redacted. Instead, petitioner recorded a "correct assignment" which, upon review, is a totally different document from the one to be expunged. This is not an acceptable corrective assignment.

As set forth in MPEP 323, an error in a recorded assignment is not corrected by invalidating the previous document, but by simply submitting a "corrective document". The "corrective document" must include 1) a copy of the original assignment document with the corrections made therein. The corrections must be initialed and dated by the party conveying the interest; and 2) a new Recordation Form Cover Sheet (form PTO-1595). The new recordation form cover sheet must identify the submission as a "corrective document" submission and indicate the reel and frame number where the incorrectly recorded assignment document appears. The person

signing the new recordation form cover sheet must state that the information provided on the new cover sheet is true and correct and that any copy submitted is a true copy of the original document. The original cover sheet should be submitted with the corrective document. The corrective document will be recorded and given a new reel and frame number and recording date. The recording fee set forth in 37 CFR 1.21(h) is required for each patent application and patent against which the corrective document is being recorded. See MPEP § 302.06. Petitioner should note that the "assignment documents" and "corrective documents" are not limited to assignments, but include any documents affecting title to a patent or application. See MPEP § 313.

Telephone inquiries concerning this communication should be directed to Carl Friedman at (571)272-6842.

Application No. 08/755,599	:	DECISION ON PETITION
Filed: November 25, 1996	:	
Inventor: Earl A. Ramsey et al.	:	

This is a decision on the Response to Decision on Petition, filed October 6, 2011 which is being treated as a renewed petition under 37 CFR 1.182 to invalidate an assignment previously recorded against the above-identified application.

The petition is **dismissed**.

Petitioner indicates an assignment recorded on July 28, 2011 contains confidential business information and requests this assignment record be expunged from the file. The petition states that a correct assignment was recorded on August 24, 2011.

The initial petition filed August 25, 2011 was dismissed in a decision mailed September 28, 2011. That decision indicated that the corrective assignment document filed by petitioner on August 24, 2011 was not a proper corrective assignment as it was not a copy of the assignment to be expunged with the confidential business information redacted. The corrective assignment filed on August 24, 2011 was a completely different document.

The instant renewed petition includes a copy of what appears to be a proper corrective assignment. However, Office records show that petitioner has not yet filed this corrective assignment with the Office. The undersigned is not authorized to file the corrective assignment included with the renewed petition for petitioner. Without a proper corrective assignment filed, the petition cannot be granted.

Telephone inquiries concerning this communication should be directed to Carl Friedman at (571)272-6842.

ON PETITION

This is a decision in response to a petition filed July 19, 2011, under 37 CFR 1.378(c), to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED** as being moot.

A review of the record indicates that this patent issued on July 27, 1999. The maintenance fee window opened on July 27, 2010, the surcharge grace period for the 11 ½ year maintenance fee window opened on January 28, 2011 and would expire on July 27, 2011 at midnight. However, the 11 ½ year maintenance fee of \$2,055 and surcharge of \$65 were timely submitted on July 15, 2011.

Therefore, this patent is not in fact expired.

While the petition is dismissed as being moot, petitioners attention is directed to 37 CFR 1.378(d), which states that any petition under this section must be signed by an attorney or agent registered to practice before the U.S. Patent and Trademark Office, or by the patentee(s), the assignee, or other party of interest as established by 37 CFR 3.73(b)¹. Petitioner has not established that the person who signed the petition form, Patrick Molla, is authorized to sign on behalf of the patentee(s), assignee, or other party of interest.

¹37 CFR 3.73(b) provides that: (1) when an assignee seeks to take action in a matter before the Office, the assignee must establish its ownership of the property to the satisfaction of the Commissioner; (2) ownership is established by submitting to the Office, in the Office file related to the matter in which action is sought to be taken, documentary evidence of a chain of title from the original owner to the assignee (e.g., copy of an executed assignment submitted for recording) or by specifying (e.g., reel and frame number) where such evidence is recorded in the Office; (3) the submission establishing ownership must be signed by a party authorized to act on behalf of the assignee; and (4) documents submitted to establish ownership may be required to be recorded as a condition to permitting the assignee to take action in a matter pending before the Office.

In view of the above, 11 ½ year maintenance fee of \$2,055 and surcharge of \$65 will be properly applied to the patent. The overpayment of \$1,575 will be refunded to petitioner in due course.

Inquiries concerning this decision may be directed to the undersigned at (571) 272-6059.

OFFICE OF PETITIONS

In re Patent No. 5,839,152 :
Issue Date: November 24, 1998 :
Application No. 08/759,330 : DECISION ON PETITION
Filed: December 2, 1996 :
Title: Apparatus for Cleaning :
Trowel Blades :

This is a decision on the paper filed August 16, 2010, which is being treated as a renewed petition under 37 C.F.R. §1.378(b), due to the fact that petitioner paid the required \$400 fee for seeking reconsideration.

The petition is DISMISSED as untimely filed.

Procedural History:

- The above-identified patent issued on November 24, 1998.
- The second maintenance fee could have been timely paid during the period from November 24, 2005 through May 24, 2006, or with a late payment surcharge during the period from May 25, 2006 through November 24, 2006.
- No maintenance fee having been received, the patent expired on November 25, 2006.
- The twenty-four month period for filing a petition to accept the unintentionally delayed payment of the maintenance fee expired on November 24, 2008.
- Patentee filed a petition to accept the unavoidably delayed payment of the maintenance fee on December 7, 2009.

- The petition was dismissed in a decision mailed on May 17, 2010. The decision set a two (2) month period to file a request for reconsideration, accompanied by the required \$400 fee.
- Patentee filed the instant request for reconsideration on August 16, 2010, and submitted the fee for a one month extension of time.

Decision:

The May 17, 2010 decision set a two (2) month period in which to request reconsideration. This two month period was not extendable. Accordingly, the instant petition is dismissed as untimely filed.

Since this patent will not be reinstated, the \$1940 submitted by petitioner for the maintenance fee and surcharge, the \$400 fee for requesting reconsideration, and the \$65 for the one month extension of time are being refunded under separate cover.

Telephone inquiries concerning this communication should be directed to Petitions Attorney Cliff Congo at 571-272-3207.

: DECISION ON PETITION
:
:

This is a decision on the petition filed on 22 August, 2011, and properly treated as a petition under 37 C.F.R. §1.378(b)¹ requesting acceptance of payment of a maintenance fee for the above-referenced patent as having been delayed due to unavoidable delay.

The petition pursuant to 37 C.F.R. §1.378(b) is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 C.F.R. §1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision.

No extension of this 2-month time limit can be granted under 37 C.F.R. §1.136(a) or (b).

A petition for reconsideration **must** be accompanied by the petition fee of \$400.00 as set forth in 37 C.F.R. §1.17(f).

The petition for reconsideration **shall** include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, the Director will undertake no further reconsideration or review of the matter.

This is **not** a final agency action within the meaning of 5 U.S.C. §704.

¹ A grantable petition to accept a delayed maintenance fee payment under 37 C.F.R. §1.378(b) must include

(1) the required maintenance fee set forth in §1.20(e) through (g);

(2) the surcharge set forth in §1.20(l)(1); and

(3) a showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

Patent No.6,101,198
Application No. 08/760,103

A petition to accept the delayed payment of a maintenance fee under 35 USC §41(c) and 37 C.F.R. §1.378(b) must be accompanied by:

- (1) an adequate showing that the delay was unavoidable, since reasonable care was taken to ensure that the maintenance fee would be paid timely;*
- (2) payment of the appropriate maintenance fee, unless previously submitted; and*
- (3) payment of the surcharge set forth in 37 C.F.R. §1.20(i)(1).*

The instant petition fails to satisfy requirement (1), listed/described above.

BACKGROUND

Patent No. 6,101,198 (the '198 patent) issued on 8 August, 2000. The second maintenance fee could have been paid during the period from 8 August, 2007, through midnight 8 February, 2008, or, with a surcharge, during the period from 9 February, 2008, through midnight 8 August, 2000. Accordingly, the patent expired after midnight 8 August, 2008, for failure to pay timely the first maintenance fee.

The instant petition (with fee) pursuant to 37 C.F.R. §1.378(b) was filed on 22 August, 2011.

STATUTE AND REGULATION

The grant of authority at 35 U.S.C. §41(c)(1) provides that:

The Director may accept the payment of any maintenance fee required by subsection (b) of this section...after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unavoidable.

The regulations 37 C.F.R. §1.378(b)(3) thus set forth that any petition to accept delayed payment of a maintenance fee must include:

A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date, and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly. (Emphasis supplied.)

Out of an abundance of caution, Petitioners always are reminded that those registered to practice and all others who make representations before the Office **must** inquire into the underlying facts

Patent No.6,101,198
Application No. 08/760,103

of representations made to the Office and support averments with the appropriate documentation—since all owe to the Office the continuing duty of candor and duty to disclose.²

OPINION

The Director may accept late payment of the maintenance fee under 35 U.S.C. §41(c) and 37 C.F.R. §1.378(b) if the delay is shown to the satisfaction of the Director to have been “unavoidable.”³

A late maintenance fee is considered under the same standard as that for reviving an abandoned application under 35 U.S.C. §133 because 35 U.S.C. §41(c)(1) uses the identical language, i.e., “unavoidable” delay.⁴ Decisions reviving abandoned applications have adopted the reasonably prudent person standard in determining if the delay was unavoidable.⁵ In addition, decisions on revival are made on a “case-by-case basis, taking all the facts and circumstances into account.”⁶ Finally, a petition to revive an application or reinstate a patent as abandoned or expired due to unavoidable delay cannot be granted where a Petitioner has failed to meet his or her burden of establishing the cause of the unavoidable delay.⁷

Petitioner’s Contentions as to Unavoidable Delay

Petitioner Robert Schuler (Reg. No. 53,567) sought relief on behalf of patentees/assignees pursuant to the regulations at 37 C.F.R. §1.378, averring unavoidable delay.

Patent No. 6,101,198 (the ‘198 patent) issued on 8 August, 2000. The second maintenance fee could have been paid during the period from 8 August, 2007, through midnight 8 February, 2008, or, with a surcharge, during the period from 9 February, 2008, through midnight 8 August, 2000. Accordingly, the patent expired after midnight 8 August, 2008, for failure to pay timely the first maintenance fee.

The sum and substance of the petition is set forth in the statement of Leah Maher, averred to the Vice President and General Counsel of Force 10 Networks Inc., the averred assignee, and contends:

- The expired status of the patent was determined during a due diligence examination by an acquiring company in July 2011;
- In February 2008, the assets of Carrier Access Corporation (CAC), an earlier and/or original assignee, were merged into Turin Networks Inc. (Turin); thereafter in March 2009 the assets of Force 10 Networks were merged into Turin, and in April 2009 Turin changed its name to Force 10 Networks Inc. (Force 10);
- The previous agent Holland and Hart failed to pay the second maintenance fee;
- Turin and therefore Force 10 were unaware of the expired status of the patent and the responsibility for payment of such fees was turned over to Dennemeyer Co., which apparently failed to discover the condition.

Petitioner submitted no other showing.

There is no showing of record as to the docketing/calendaring of maintenance fees for the instant matter—or in whom such responsibility for docketing lay, and or who performed the administrative task of docketing the maintenance fee schedule in this matter, and whether they did so erroneously. Thus, there is no showing of a failure that was systemic—such as that which occurs when a computer or computer program fails. Possibly the error was of another form: plain human error, which is a delay that is not unavoidable but unintentional—however such a consideration is not before the Office.

In any case, such facts as have been recited do not suggest diligence—at least a level of diligence as required herein—on the part of those who were supposed to attend to this matter.

The provisions of 35 U.S.C. §41(c)(1) do not require an affirmative finding that the delay was avoidable, but only an explanation as to why the Petitioner has failed to carry his or her burden to establish that the delay was unavoidable.⁸ The provisions of 35 U.S.C. §133 do not require the Commissioner to affirmatively find that the delay was avoidable, but only to explain why the applicant's petition was unavailing.

Petitioner is reminded that it is the patentee's/assignee's burden under the statutes and regulations to make a showing to the satisfaction of the Director that the delay in payment of a maintenance fee is unavoidable.⁹

This the Petitioner and/ or patentee has/have not done.

At bottom, the question is one of diligence.¹⁰

Because 35 U.S.C. § 41(b) requires the payment of fees at specified intervals to maintain a patent in force, rather than some response to a specific action by the Office under 35 USC § 133, a reasonably prudent person in the exercise of due care and diligence would have taken steps to ensure the timely payment of such maintenance fees.¹¹ That is, an adequate showing that the delay in payment of the maintenance fee at issue was “unavoidable” within the meaning of 35 U.S.C. § 41(c) and 37 C.F.R. §1.378(b)(3) requires a showing of the steps taken by the responsible party to ensure the timely payment of the third/last maintenance fee for this patent.¹² There are three periods to be considered during the evaluation of a petition under 37 C.F.R. §1.378(b):

- (1) The delay in reply that originally resulted in expiration;
- (2) The delay in filing an initial petition pursuant to §1.378(b) to reinstate the patent; and
- (3) The delay in filing a grantable petition pursuant to §1.378(b) to reinstate the patent.¹³

At the outset and as of this writing, the showing is not persuasive with regards to the nature of the delay in reply that originally resulted in expiration or as to the filing of the initial petition (Items 1 and 2), which are the periods pertinent at this time.

Petitioner must provide documentary foundations in support of a showing of unavoidable delay.

Thus, at this writing the statements presented in/with the petition fail to satisfy the showing required to establish unavoidable delay within the meaning of 37 C.F.R. §1.378(b).

A showing of diligence in matters before the Office is essential to support a finding of unavoidable delay herein.¹⁴ There is no “sliding scale” based upon the priority given to this maintaining this patent in force, or more diligently seeking reinstatement, *vis-a-vis* other matters by Petitioner. The issue is solely whether the maintenance, or reinstatement, of the patent at issue was actually conducted with the care or diligence that is generally used and observed by prudent and careful persons in relation to their most important business.

At this writing the record fails to adequately evidence the exercise of due care and diligence observed by prudent and careful persons, in relation to their most important business, which is necessary to establish unavoidable delay.¹⁵

¹³ See *Changes to Patent Practice and Procedure; Final Rule Notice*, 62 Fed. Reg. 53131 at 53158 (October 10, 1997).

¹⁴ See *Futures Technology, Ltd. v. Quigg*, 684 F. Supp. 430, 431, 7 USPQ2d 1588 (E.D. Va. 1988)(applicant’s diligent inquiry into the status of the application is required to show unavoidable delay); *Douglas v. Manbeck*, 21 USPQ2d 1697, 1699-1700 (E.D. Pa. 1991), *aff’d*, 975 F.2d 869, 24 USPQ2d 1318 (Fed. Cir. 1992) (even representation by counsel does not relieve the applicant from his obligation to exercise diligence before the USPTO; applicant’s lack of diligence extending two and one half years overcame and superseded any omissions by his counsel).

¹⁵ *Pratt, supra.*

The record at this writing does not provide a clear showing that reasonable steps were taken to ensure timely payment of the maintenance fee. In fact, the record indicates that no steps were taken by Patentee(s) and/or Assignee to ensure timely payment of the maintenance fee.

The provisions of 37 C.F.R. §1.378(b) preclude acceptance of the delayed payment of the maintenance fee due to unavoidable delay. The regulations at 37 C.F.R. §1.378(b)(3) state that any petition to accept delayed payment of a maintenance fee must include:

A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date, and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

In any future filing, this showing should include, but is not limited to, docket records, tickler reports, and file jacket entries for this application, and documents regarding the alleged cause of the delay and copies of any documents referred to in Petitioner's statement as to the cause of the unavoidable delay are required. All the causes which contributed to the failure to timely pay the maintenance fee must be presented and supported with appropriate evidence.¹⁶ (In general, a Petitioner should identify the party(ies) responsible for making the payment: A showing must be made (with supporting documents) outlining the efforts made to ensure timely payment of the maintenance fee--including scheduling and calendaring information, appointment of an individual with the authority and responsibility to pay the fee, and detailing of the causes for a failure in that process.)

Thus, as of this writing, the Office is unable to grant the relief sought.

In summary, the showing of record has been considered, but does not rise to the level of unavoidable delay. Rather, the showing of record is of possible a lack of diligence. (See: http://www.uspto.gov/web/offices/pac/mpep/documents/2500_2590.htm#sect2590)

CONCLUSION

For the reasons stated above, the delay in this case cannot be regarded as unavoidable within the meaning of 35 U.S.C. §41(c)(1) and 37 C.F.R. §1.378(b).

Accordingly, the petition under 37 C.F.R. §1.378(b) is **dismissed**.

¹⁶ The showing must also enumerate the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly. Statements from all persons who contributed to the delay are also required.

Application No. 08/766,651	:	ON PETITION
Filed: December 16, 1996	:	
Attorney Docket No. FR1-0011US	:	

This is a decision on the petition under 37 CFR 1.378(c), filed October 31, 2011, to accept the delayed payment of a maintenance fee for the above-identified patent.

The petition is **GRANTED**.

This patent expired on August 19, 2010 for failure to pay the eleven and one-half year maintenance fee. Since this petition was submitted within twenty-four months after the six-month grace period provided in 37 CFR 1.362(e), the petition was timely filed under the provisions of 37 CFR 1.378(c).

The maintenance fee is hereby accepted and the above-identified patent is reinstated as of the mail date of this decision.

It is not apparent whether the statement of unintentional delay was signed by a person who would have been in a position of knowing that the delay in filing a timely response was unintentional. Nevertheless, in accordance with 37 CFR 10.18, the statement is accepted as constituting a certification of unintentional delay. However, in the event that petitioner has no knowledge that the delay in paying the maintenance fee was in fact unintentional, petitioner must make such an inquiry to ascertain that, in fact, the delay was unintentional. If petitioner discovers that the delay in paying the maintenance fee was intentional, petitioner must so notify the Office. Further, it is not apparent whether the person signing the instant petition was ever given a power of attorney or authorization of agent to prosecute this patent. In accordance with 37 CFR 1.34(a), the signature appearing on the petition shall constitute a representation to the United States Patent and Trademark Office that he/she is authorized to represent the particular party in whose behalf he/she acts. While, a courtesy copy of this decision is being mailed to the address given on the petition, the Office will mail all future correspondence solely to the address of record.

OFFICE OF PETITIONS

In re Application of :
David C. Dryer et al. :
Application No. 08/767,928 : **DECISION ON PETITION**
Filed: December 17, 1996 :
Attorney Docket No. AUS919960312US1 :

This is a decision on the petition under the unintentional provisions of 37 CFR 1.137(b), filed July 27, 2011, to revive the above-identified application.

The petition is **GRANTED**.

This application became abandoned for failure to timely pay the issue and/or publication fees on or before October 10, 2008, as required by the Notice of Allowance and Fee(s) Due, mailed July 10, 2008. Accordingly, the date of abandonment of this application is October 11, 2008. A Notice of Abandonment was mailed on November 3, 2008.

The petition satisfies the requirements of 37 CFR 1.137(b) in that petitioner has supplied (1) the reply in the form of payment of the issue fee of \$1,510 and the publication fee of \$300, (2) the petition fee of \$1,620, and (3) a proper statement of unintentional delay. Accordingly, the issue and publication fees are accepted as being unintentionally delayed.

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final Rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that it is not correct that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional, petitioner must notify the Office.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at (571) 272-4618.

This application is being referred to the Office of Data Management for further processing into a patent.

In re Application of :
Derrick et al. :
Application No. 08/770,921 :
Patent No. 5,868,929 : DECISION ON PETITION
Filed: December 20, 1996 : UNDER 37 C.F.R. § 1.378(C)
Issue Date: February 9, 1999 :
Title: SCREEN ASSEMBLY FOR :
VIBRATING SCREENING MACHINE :

This is a decision on the petition filed pursuant to 37 C.F.R. § 1.378(c) on May 13, 2011, to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

This petition pursuant to 37 C.F.R. § 1.378(c) is **GRANTED**.

The patent issued on February 9, 1999. The grace period for paying the 7½-year maintenance fee provided in 37 C.F.R. § 1.362(e) expired at midnight on February 9, 2011, with no payment received. Accordingly, the patent expired on February 9, 2011 at midnight.

A grantable petition pursuant to 37 C.F.R. § 1.378(c) must be accompanied by:

- (1) The maintenance fee as set forth in 37 C.F.R. §§ 1.362(e) and 1.20;
- (2) The surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee, as set forth in 37 C.F.R. § 1.20;
- (3) A statement that the delay was unintentional from a proper party in interest, and;
- (4) The petition must be filed within 24 months of the

date of expiration.

With this petition, Petitioner submitted a statement that the delay in payment of the maintenance fee was unintentional. Both the surcharge associated with a petition to accept late payment of a maintenance fee as unintentional and the 7½-year maintenance fee have been charged to Deposit Account No. 50-2413, as authorized in the letter which was submitted concurrently with this petition. This petition was timely filed within twenty-four months after the expiration of the six-month grace period.

Petitioner has met each of the requirements of Rule 1.378(c).

Accordingly, the maintenance fee in this case is hereby accepted and the above-identified patent is hereby reinstated as of the mail date of this decision.

Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3225.¹ Inquiries pertaining to the submission of maintenance fees should be directed to the Maintenance Fee branch at 571-272-6500.

Issue Date: January 5, 1999 :
Application No. 08/773,677 : ON PETITION
Filed: December 24, 1996 :
Attorney Docket No. 66263 :

This is a decision on the petition under 37 CFR 1.378(c), filed February 11, 2011, to accept the delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

This patent expired on January 6, 2011, for failure to pay the 11 ½ year maintenance fee.

A grantable petition to accept the unintentionally delayed payment of a maintenance fee under 35 U.S.C. 41(c) and 37 CFR 1.378(c) must be accompanied by: (1) a statement that the delay was unintentional; (2) payment of the appropriate maintenance fee, unless previously submitted; (3) payment of the surcharge set forth in 37 CFR 1.20(i)(2). This petition lacks item (1) above.

With regards to item (1), the statement of unintentional delay cannot be accepted since it is not considered as being submitted by a proper party pursuant to 37 CFR 1.378(d). 37 CFR 1.378(d) states that any petition under this section must be signed by an attorney or agent registered to practice before the U.S. Patent and Trademark Office, or by the patentee(s), the assignee, or other party of interest as established by 37 CFR 3.73(b)¹. Petitioner has not established that the person who signed the petition form, Daniel A. Bockhorn, is authorized to sign on behalf of the patentee(s), assignee, or other party of interest.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this two-month time limit can be granted under 37 CFR 1.136(a) or (b). This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

¹ 37 CFR 3.73(b) provides that: (1) when an assignee seeks to take action in a matter before the Office, the assignee must establish its ownership of the property to the satisfaction of the Commissioner; (2) ownership is established by submitting to the Office, in the Office file related to the matter in which action is sought to be taken, documentary evidence of a chain of title from the original owner to the assignee (e.g., copy of an executed assignment submitted for recording) or by specifying (e.g., reel and frame number) where such evidence is recorded in the Office; (3) the submission establishing ownership must be signed by a party authorized to act on behalf of the assignee; and (4) documents submitted to establish ownership may be required to be recorded as a condition to permitting the assignee to take action in a matter pending before the Office.

Any petition for reconsideration of this decision must be accompanied by the petition fee of \$400 as set forth in 37 CFR 1.17(f). The petition for reconsideration must include the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

If petitioner does not wish to pursue reinstatement of this expired patent, petitioner may request a refund of the \$3,695 fees of submitted with the petition. The request should be made in writing and addressed to: Mail Stop 16, Director of the U.S. Patent and Trademark Office, P. O. Box 1450, Alexandria, VA 22313-1450. A copy of this decision should accompany petitioner's request.

ON PETITION

This is a decision in response to a renewed petition filed May 12, 2011, under 37 CFR 1.378(c), to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

The petition is **GRANTED**.

This patent expired on January 6, 2011, for failure to pay the 11 ½ year maintenance fee including the late surcharge fee. The renewed petition filed herein satisfies the requirement of 37 CFR 1.378(d). Since the petition was submitted within twenty-four months after the six-month grace period provided in 37 CFR 1.362(e), the petition was timely filed under the provisions of 37 CFR 1.378(c).

Accordingly, the maintenance fee is hereby accepted and the above-identified patent is reinstated as of the mail date of this decision.

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that the delay in paying the maintenance fee under 37 CFR 1.378(c) was intentional, petitioner must notify the Office.

A courtesy copy of this decision is being mailed to the address given on the petition; however, the Office will mail all future correspondence solely to the address of record.

Petitioner should note that the reconsideration fee of \$400 will be charged to the deposit account as authorized.

Telephone inquiries concerning this decision should be directed to undersigned at (571) 272-6059.

In re Patent No. 6,026,532	:	
Issue Date: February 22, 2000	:	
Application No. 08/777,032	:	CORRECTED
Filed: December 30, 1996	:	DECISION ON PETITION
Title: Toothbrush Assembly	:	
	:	

This is a corrected decision on the petition under 37 C.F.R. §1.378(b), filed June 30, 2010.

The petition under 37 C.F.R. § 1.378(b) is GRANTED.

Background

The above-identified patent issued on February 20, 2000. Accordingly, the first maintenance fee could have been timely paid during the period from February 20, 2003 through August 20, 2003, or with a late payment surcharge during the period from August 21, 2003 through February 20, 2004. No maintenance fee having been received, the patent expired on February 21, 2004.

Relevant Statutes and Regulations

35 U.S.C. § 41(c)(1) states that:

The Commissioner may accept the delayed payment of any maintenance fee required ... after the six month grace period if the delay is shown to the satisfaction of the Commissioner to have been unavoidable.

37 C.F.R. § 1.378(b) provides that:

Any petition to accept an unavoidably delayed payment of a maintenance fee must include:

- (1) The required maintenance fee set forth in §1.20(e) through (g);
- (2) The surcharge set forth in §1.20(i)(1); and
- (3) A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

§ 1.378(b)(3) is at issue in this case. Acceptance of a late maintenance fee under the unavoidable delay standard is considered under the same standard for reviving an abandoned application under 35 U.S.C. § 133. This is a very stringent standard. Decisions on reviving abandoned applications on the basis of "unavoidable" delay have adopted the reasonably prudent person standard in determining if the delay was unavoidable:

The word 'unavoidable' ... is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. In addition, decisions are made on a "case-by-case basis, taking all the facts and circumstances into account." Smith, 671 F.2d at 538, 213 U.S.P.Q. at 982. Nonetheless, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines, 673 F. Supp. at 316-17, 5 U.S.P.Q.2d at 1131-32 (N.D. Ind. 1987).

Moreover, delay resulting from the lack of knowledge or improper application of the patent statutes, rules of practice or the Manual of Patent Examining Procedure, however, does not constitute "unavoidable" delay.

35 U.S.C. § 41(c)(1) does not require an affirmative finding that the delay was avoidable, but only an explanation as to why the petitioner has failed to carry his or her burden to establish

that the delay was unavoidable. Cf. Commissariat A. L'Energie Atomique v. Watson, 274 F.2d 594, 597, 124 USPQ 126, 128 (D.C. Cir. 1960) (35 U.S.C. § 133 does not require the Commissioner to affirmatively find that the delay was avoidable, but only to explain why the applicant's petition was unavailing). Petitioner is reminded that it is the patentee's burden under the statutes and regulations to make a showing to the satisfaction of the Commissioner that the delay in payment of a maintenance fee is unavoidable. See Rydeen v. Quigg, 748 F. Supp. 900, 16 USPQ2d 1876 (D.D.C. 1990), aff'd 937 F.2d 623 (Fed. Cir. 1991), cert. denied, 502 U.S. 1075 (1992); Ray v. Lehman, 55 F. 3d 606, 608 - 609, 34 USPQ2d 1786, 1787 (Fed. Cir. 1995).

Analysis and Conclusion:

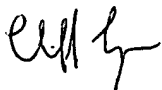

On petition, patentee asserts financial hardship as the grounds of unavoidable delay. In support thereof, petitioner has itemized his income and expenses for the years 2003 - 2009. In addition, petitioner has included copies of his federal and state tax returns for the years 2003 - 2009. Accordingly, based on the evidence presented, it is concluded that patentee has satisfied his burden of establishing that the entire period of delay was unavoidable.

The maintenance fee in this case is accepted and the above identified patent is hereby reinstated as of the mail date of this decision.

Receipt of the \$490 maintenance fee, filed January 22, 2010, and the \$1,240 maintenance fee, filed June 30, 2010, is acknowledged.

The file is being forwarded to Files Repository.

Application No. 08/777,617	:	ON PETITION
Filed: December 31, 1996	:	
Attorney Docket No. 149-02	:	

This is a decision on the petition under 37 CFR 1.378(c), filed April 21, 2011, to accept the delayed payment of a maintenance fee for the above-identified patent.

This patent expired at midnight April 13, 2011, for failure to pay the 11½ year maintenance fee. Since this petition was submitted within twenty-four months after the six-month grace period provided in 37 CFR 1.362(e), the petition was timely filed under the provisions of 37 CFR 1.378(c).

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within **TWO (2) MONTHS** from the mail date of this decision. No extension of this two-month time limit can be granted under 37 CFR 1.136(a) or (b). This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

Any petition for reconsideration of this decision must be accompanied by the petition fee of \$400 as set forth in 37 CFR 1.17(f). The petition for reconsideration must include the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

A petition to accept the unintentionally delayed payment of a maintenance fee under 35 U.S.C. 41(c) and 37 CFR 1.378(c) must be accompanied by: (1) a statement that the delay was unintentional; (2) payment of the appropriate maintenance fee, unless previously submitted; (3) payment of the surcharge set forth in 37 CFR 1.20(i)(2). This petition lacks item (1) above.

As to items (1), the statement of delay is not acceptable. In this regard, petitioner's attention is directed to 37 CFR 1.33(b), which states.

(b) Amendments and other papers. Amendments and other papers, except for written assertions pursuant to § 1.27(c)(2)(ii) of this part, filed in the application must be signed by:

(1) A registered patent attorney or patent agent of record appointed in compliance with § 1.32(b);

(2) A registered patent attorney or patent agent not of record who acts in a representative capacity under the provisions of § 1.34;

(3) An assignee as provided for under § 3.71(b) of this chapter; or

(4) All of the applicants (§ 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with § 3.71 of this chapter.

An unsigned amendment (**or other paper**) or one not properly signed by a person having authority to prosecute the application is not entered. This applies, for instance, where the amendment (or other paper) is signed by only one of two applicants and the one signing has not been given a power of attorney by the other applicant. Therefore, since the petition is not signed the entire delay statement is not acceptable.

In sum, petitioner must submit a petition signed by all the inventors, unless petitioner herein is the assignee of the entire right, title and interest in the instant patent application, then compliance with 37 CFR 3.73(b) must be satisfied.

The file does not indicate a change of address has been submitted, although the address given on the petition differs from the address of record. If appropriate, a change of address should be filed in accordance with MPEP 601.03. A courtesy copy of this decision is being mailed to the address given on the petition; however, the Office will mail all future correspondence solely to the address of record.

OFFICE OF PETITIONS

In re Patent No. 5,955,063
Issue Date: September 21, 1999 :
Application No. 08/778,694 : DECISION ON PETITION
Filed: January 3, 1997 :
Patentee: Brody, et al. :

This is a decision on the petition to accept the unavoidably delayed payment of the maintenance fee under 37 CFR 1.378(b), filed August 15, 2011.

The petition under 37 CFR 1.378(b) is **DISMISSED**.

The above-identified patent issued September 21, 1999. Accordingly, the second maintenance fee could have been paid during the period from September 21, 2006 through March 21, 2007 without surcharge, or with a late payment surcharge of \$65 during the period from March 22, 2007 through September 21, 2007. No maintenance fee having been received, the patent expired on September 22, 2007.

Evidence Presented on Petition:

Petitioner Carmine Zaccaria states that the delay in paying the 7.5 year maintenance fee was unavoidable due to the death of the co-inventor, Donald Brody, in 2007. According to petitioner, Brody was the party responsible for tracking and paying the maintenance fees. Petitioner states that he did not have frequent contact with Brody, but that he had full confidence Brody was processing all maintenance fees in a timely manner, based upon Brody's handling of correspondence during the prosecution of the application, and his payment of the 3.5 year maintenance fee.

Relevant Statutes, Rules and Regulations:

35 U.S.C. § 41(c)(1) states that:

The Director may accept the payment of any maintenance fee required by subsection (b) of this section which is made within twenty-four months after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unintentional, or at any time after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unavoidable. The Director may require the payment of a surcharge as a condition of accepting payment of any maintenance fee after the six-month grace period. If the Director accepts payment of a maintenance fee after the six-month grace period, the patent shall be considered as not having expired at the end of the grace period.

37 C.F.R. § 1.378(b) provides that:

Any petition to accept an unavoidably delayed payment of a maintenance fee must include:

- (1) The required maintenance fee set forth in §1.20(e) through (g);
- (2) The surcharge set forth in §1.20(i)(1); and
- (3) A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

Opinion:

§ 1.378(b)(3) is at issue in this case. Acceptance of a late maintenance fee under the unavoidable delay standard is considered under the same standard for reviving an abandoned application under 35 U.S.C. § 133. This is a very stringent standard. Decisions on reviving abandoned applications on the basis of "unavoidable" delay have adopted the reasonably prudent person standard in determining if the delay was unavoidable:

The word unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present. In re Mattullath, 38 App. D.C. 497, 514-15 (1912) (quoting Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (1887)); see also Winkler v. Ladd, 221 F. Supp. 550, 552, 138 USPQ 666, 667-68 (D.D.C. 1963), aff'd, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913).

In addition, decisions on revival are made on a "case-by-case basis, taking all the facts and circumstances into account." Smith v. Mossinghoff, 671 F.2d 533, 538, 213 USPQ 977, 982 (D.C. Cir. 1982). Finally, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

Moreover, delay resulting from the lack of knowledge or improper application of the patent statutes, rules of practice or the Manual of Patent Examining Procedure, however, does not constitute "unavoidable" delay. See id.; Vincent v. Mossinghoff, 230 USPQ 621, 624 (D.D.C. 1985); Smith v. Diamond, 209 USPQ 1091 (D.D.C. 1981); Potter v. Dann, 201 USPQ 574 (D.D.C. 1978); Ex parte Murray, 1891 Dec. Comm'r Pat. 130, 131 (1891).

First, it is noted that petitioner has not stated the date of Brody's death. Nor has petitioner provided any evidence of Brody's death (e.g. a copy of a death certificate, newspaper article, etc.).

Secondly, petitioner has not stated the date and manner in which petitioner became aware of the expiration of the patent.

Conclusion:

Any request for reconsideration of this decision must be filed within **TWO MONTHS** of the mailing date of this decision. Any such petition for reconsideration must be accompanied by the \$400

petition fee set forth in § 1.17(f). After decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner. Accordingly, on request for reconsideration, it is extremely important that petitioner supply any and all relevant information and documentation in order to meet his burden of showing unavoidable delay. This includes statements by all persons with direct knowledge of the cause of the delay, setting forth the facts as they know them. Private information that petitioner does not wish to have made of public record should be redacted.

If on request for reconsideration, the delayed payment of the maintenance fee is not accepted, then the maintenance fee and the surcharge set forth in § 1.20(i) are subject to refund following the decision on the petition for reconsideration, or after the expiration of the time for filing such a petition for reconsideration, if none is filed. The \$400 fee for reconsideration set forth in § 1.17(f) is not subject to refund. (Petitioner may request a refund of the maintenance fee and surcharge by writing to the Mail Stop 16, Director of the USPTO, P.O. Box 1450, Alexandria VA 22313-1450). A copy of the last decision rendered should accompany the request for refund).

Receipt of the \$1240 for the second maintenance fee, \$2055 for the third maintenance fee, and \$700 for the unavoidable surcharge is acknowledged.

Issue Date: September 21, 1999 :
Application No. 08/778,694 : DECISION ON PETITION
Filed: January 3, 1997 :
Patentee: Brody, et al. :

This is a decision on the petition to accept the unavoidably delayed payment of the maintenance fee under 37 CFR 1.378(b), filed January 27, 2012.

The petition is **DENIED**. This decision is a final agency action within the meaning of 5 U.S.C. § 704 for purposes of seeking judicial review. See MPEP 1002.02.

The above-identified patent issued September 21, 1999. Accordingly, the second maintenance fee could have been paid during the period from September 21, 2006 through March 21, 2007 without surcharge, or with a late payment surcharge of \$65 during the period from March 22, 2007 through September 21, 2007. No maintenance fee having been received, the patent expired on September 22, 2007.

Petitioner and co-inventor Carmine Zaccaria filed a petition to accept the unavoidably delayed payment of the maintenance fee on August 11, 2011. However, the petition was dismissed in a decision mailed on September 9, 2011. Petitioner filed a request for reconsideration on October 27, 2011. The Office mailed a request for information on December 27, 2011.

Evidence Presented on Petition and Renewed Petition:

Petitioner states that the delay in paying the 7.5 year maintenance fee was unavoidable due to the death of the co-inventor, Donald Brody. According to petitioner, Brody was the party responsible for tracking and paying the maintenance fees. To the best of petitioner's knowledge, Brody's system "was to track maintenance fees for this patent by relying upon correspondence received from the USPTO regarding maintenance fees due." Petitioner states that he did not have frequent contact with Brody, but that he had full confidence Brody was processing all maintenance fees in a timely manner, based upon Brody's handling of correspondence during the prosecution of the application, and his payment of the 3.5 year maintenance fee. However, Brody, who suffered from Parkinson's disease, did not pay the 7.5 year maintenance fee, and died on December 11, 2007. Petitioner learned of the expiration of the patent on July 27, 2011, when he met with his newly engaged patent attorney, Mr. Novick. Lastly, petitioner states that to the best of his knowledge, no one else living has any other details of the circumstances surrounding the failure to timely pay the 7.5 year maintenance fee.

Relevant Statutes, Rules and Regulations:

35 U.S.C. § 41(c)(1) states that:

The Director may accept the payment of any maintenance fee required by subsection (b) of this section which is made within twenty-four months after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unintentional, or at any time after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unavoidable. The Director may require the payment of a surcharge as a condition of accepting payment of any maintenance fee after the six-month grace period. If the Director accepts payment of a maintenance fee after the six-month grace period, the patent shall be considered as not having expired at the end of the grace period.

37 C.F.R. § 1.378(b) provides that:

Any petition to accept an unavoidably delayed payment of a maintenance fee must include:

- (1) The required maintenance fee set forth in §1.20(e) through (g);

(2) The surcharge set forth in §1.20(i)(1); and

(3) A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

Opinion:

§ 1.378(b)(3) is at issue in this case. Acceptance of a late maintenance fee under the unavoidable delay standard is considered under the same standard for reviving an abandoned application under 35 U.S.C. § 133. This is a very stringent standard. Decisions on reviving abandoned applications on the basis of "unavoidable" delay have adopted the reasonably prudent person standard in determining if the delay was unavoidable:

The word 'unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present. In re Mattullath, 38 App. D.C. 497, 514-15 (1912)(quoting Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (1887)); see also Winkler v. Ladd, 221 F. Supp. 550, 552, 138 USPQ 666, 667-68 (D.D.C. 1963), aff'd, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913).

In addition, decisions on revival are made on a "case-by-case basis, taking all the facts and circumstances into account." Smith v. Mossinghoff, 671 F.2d 533, 538, 213 USPQ 977, 982 (D.C. Cir. 1982). Finally, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

Moreover, delay resulting from the lack of knowledge or improper application of the patent statutes, rules of practice or the Manual of Patent Examining Procedure, however, does not constitute "unavoidable" delay. See id.; Vincent v. Mossinghoff, 230 USPQ 621, 624 (D.D.C. 1985); Smith v. Diamond, 209 USPQ 1091 (D.D.C. 1981); Potter v. Dann, 201 USPQ 574 (D.D.C. 1978); Ex parte Murray, 1891 Dec. Comm'r Pat. 130, 131 (1891).

The late payment of the maintenance fee has not been shown to be unavoidable. Petitioner has not been able to demonstrate that the responsible party, Mr. Brody, had a system in place to track and pay the maintenance fee. In determining whether a delay in paying a maintenance fee was unavoidable, one looks to whether the party responsible for payment of the maintenance fee exercised the due care of a reasonably prudent person. Ray, 55 F.3d at 608-609, 34 USPQ2d at 1787. A showing to accept the unavoidably delayed payment of the maintenance fee would need to show that there was a system in place to timely pay the maintenance fee, but through some unexpected fault of that system, the maintenance fee was not timely paid. Here, the showing of record is that Brody did not have a system in place to track and pay the maintenance fee, but rather relied upon the USPTO to mail a maintenance fee reminder.¹

Conclusion:

The prior decision which refused to accept under 37 C.F.R. § 1.378(b) the delayed payment of a maintenance fee for the above-identified patent has been reconsidered. For the above stated reasons, however, the delay in this case cannot be regarded as unavoidable within the meaning of 35 U.S.C. § 41(c)(1) and 37 C.F.R. § 1.378(b). As stated in 37 C.F.R. § 1.378(e), no further reconsideration or review of this matter will be undertaken.

Since this patent will not be reinstated, the \$3995 submitted for the 7.5 year maintenance fee, 11.5 year maintenance fee, and petition surcharge is being refunded under separate cover. The \$400 fee for requesting reconsideration is not refundable.

¹ Under the laws and regulations, the Office has no obligation to mail a maintenance fee reminder. Notice to patentees of the maintenance fee schedule is given on the front inside cover of the letters Patent.

Application No. 08/783,276 :
Patent No. 5,819,687 : DECISION ON PETITION
Filed: January 15, 1997 : PURSUANT TO 37 C.F.R.
Issue Date: October 13, 1998 : § 1.378(B)
Title: WILDLIFE FEEDING DEVICE :

This is a decision on the petition filed on November 24, 2010, pursuant to 37 C.F.R. § 1.378(b) to revive the above-identified application.

This petition pursuant to 37 C.F.R. § 1.378(b) is **DISMISSED**.

Background

The patent issued on October 13, 1998. The grace period for paying the 11½-year maintenance fee provided in 37 C.F.R. § 1.362(e) expired at midnight on October 13, 2010, with no payment received. Accordingly, the patent expired on October 13, 2010 at midnight.

Any petition to accept an unavoidably delayed payment of a maintenance fee filed under 37 C.F.R. § 1.378(b) must include:

- (1) the required maintenance fee set forth in 37 C.F.R. § 1.20 (e) through (g);
- (2) the surcharge set forth in 37 C.F.R. § 1.20(i)(1), and;
- (3) a showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware

of, the expiration of the patent - the showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

With this petition, Petitioner has submitted the surcharge associated with a petition to accept the late payment of a maintenance fee as unavoidable, along with both the 11½-year maintenance fee and a statement of facts.

Petitioner has met the first and second requirements of Rule 1.378(b). The third requirement of Rule 1.378(b) will be discussed below.

The standard

35 U.S.C. § 41(c)(1) states, *in pertinent part*:

The Director may accept the payment of any maintenance fee... after the six-month grace period if the delay¹ is shown to the satisfaction of the Director to have been unavoidable.

37 C.F.R. § 1.378(b)(3) is at issue in this case. Acceptance of a late maintenance fee under the unavoidable delay standard is considered under the same standard for reviving an abandoned application under 37 C.F.R. § 1.137(a). This is a very stringent standard. Decisions on reviving abandoned applications on the basis of "unavoidable" delay have adopted the reasonably prudent person standard in determining if the delay was unavoidable:

The word 'unavoidable' ... is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business.²

In addition, decisions are made on a "case-by-case basis, taking all the facts and circumstances into account." Nonetheless, a petition cannot be granted where a petitioner has failed to meet

1 This delay includes the entire period between the due date for the fee and the filing of a grantable petition pursuant to 37 C.F.R. § 1.378(b).

2 *In re Mattullath*, 38 App. D.C. 497, 514-15 (1912) (quoting *Ex parte Pratt*, 1887 Dec. Comm'r Pat. 31, 32-33 (1887)); see also *Winkler v. Ladd*, 221 F. Supp. 550, 552, 138 U.S.P.Q. 666, 167-68 (D.D.C. 1963), *aff'd*, 143 U.S.P.Q. 172 (D.C. Cir. 1963); *Ex parte Henrich*, 1913 Dec. Comm'r Pat. 139, 141 (1913).

his or her burden of establishing that the delay was "unavoidable."³

The burden of showing the cause of the delay is on the person seeking to revive the application.⁴

Application of the standard to the current facts and circumstances

Petitioner's explanation of the delay has been considered, and it has been determined that it fails to meet the standard for acceptance of a late payment of the maintenance fee and surcharge.

The period for paying the 11½-year maintenance fee without the surcharge extended from October 13, 2009 to April 13, 2010 and for paying with the surcharge from April 14, 2010 to October 13, 2010. Thus, the delay in paying the 11½-year maintenance fee extended from October 13, 2010 at midnight to the filing of this petition on November 24, 2010.

With this petition, Petitioner has asserted that he was laid off from his "previous job," "had to go out of the country in order to get a job," and "just now returned."

The statement of facts strongly suggests, but does not explicitly state, that Petitioner lacked the funds necessary to submit the required maintenance fees or the surcharge associated with the filing of this petition due to the fact that he was unemployed. Petitioner must notify the Office if this is not a correct interpretation of the statement contained in this petition.

First, the record does not contain a showing that Petitioner had **steps** in place to ensure the timely submission of the maintenance fees. An adequate showing that the delay in payment of the maintenance fees at issue was "unavoidable" within the meaning of 35 U.S.C. 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken to ensure the timely payment of the maintenance fees for this patent. Where the record fails to disclose that the patentee took reasonable steps to ensure timely payment of the maintenance fees, 35 U.S.C. § 41(c) and 37

³ Haines v. Quigg, 673 F. Supp. at 316-17, 5 U.S.P.Q.2d at 1131-32.

⁴ Id.

C.F.R. § 1.378(b)(3) preclude acceptance of the delayed payment of the maintenance fee under 37 CFR § 1.378(b).

Second, the record does not reveal the date and the manner in which Patentee became aware of the expiration of the patent.

Third, regarding the implied assertion of financial hardship, Petitioner should note that a showing of "unavoidable" delay based upon financial hardship is very stringent; in order for a petitioner to demonstrate that he lacked the financial resources to pay the fee(s) associated with the patent, substantial documentation must be provided. Such a showing must be supported by a complete and thorough showing of her financial condition during the entire period between October 13, 2010 and November 24, 2010, including income, expenses, tax return statements, bank records, assets, credit and obligations, which made the delay in payment of the maintenance fees as well as the fee associated with the filing of this petition unavoidable. Petitioner should provide copies of all documents or records pertaining to each of these so as to confirm the financial difficulty.

Petitioner must also establish when her financial situation improved such that she had the financial resources to pay the fee(s) associated with the patent, as it is not clear how her return to the country is relevant to the failure to submit the maintenance fee.

Petitioner is cautioned to avoid submitting confidential information that may contribute to identity theft. Specifically, Petitioner should consider redacting social security, bank account, or credit card numbers from any documents submitted to the USPTO. This type of personal data is never required by the USPTO to support a petition or an application. Petitioner is advised that any information submitted may be disclosed, as a routine use, to the public after either publication of the application, unless a non-publication request is made in the application, or issuance of a patent. Further, a record may be disclosed, subject to the limitations of 37 C.F.R. § 1.14, as a routine use, to the public if the record was filed in an application which became abandoned or in which the proceedings were terminated and which application is referenced by either a published application, an application open to public inspection, or an issued patent.

Conclusion

Any request for reconsideration of this decision must be filed within **TWO MONTHS** of the mailing date of this decision. Any such petition for reconsideration must be accompanied by the \$400 petition fee set forth in 37 C.F.R. § 1.17(h). After decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner. Accordingly, on request for reconsideration, it is extremely important that Petitioner supply any and all relevant information and documentation in order to meet his burden of showing unavoidable delay. This includes statements by all persons with direct knowledge of the cause of the delay, setting forth the facts as they know them. Petitioner must provide documentation and address the deficiencies noted above. If on request for reconsideration, the delayed payment of the maintenance fees is not accepted, then the maintenance fees are subject to refund following the decision on the petition for reconsideration, or after the expiration of the time for filing such a petition for reconsideration, if none is filed.

The reply should include a cover letter entitled "Renewed Petition pursuant to 37 C.F.R. § 1.378(e)". This is not a final agency action within the meaning of 5 U.S.C § 704.

Any response to this decision should indicate in a prominent manner that the attorney handling this matter is Paul Shanowski, and may be submitted by mail,⁵ hand-delivery,⁶ or facsimile.⁷ Registered users of EFS-Web may alternatively submit a response to this decision via EFS-Web.⁸

The file does not indicate a change of address has been submitted, although the address given on the petition differs from the address of record. If appropriate, a change of fee address (form PTO/SB/47) and a request for customer number (form PTO/SB/125) should be filed in accordance with Manual of Patent Examining Procedure, section 2540. Alternate Venue

Petitioner may also wish to consider filing a petition under the unintentional standard, 37 CFR § 1.378(c).⁹ Petitioner should be made aware that the standard associated with a petition filed under this section is far less stringent than the standard associated with a delay asserted to be "unavoidable". As the requirements of 37 C.F.R. § 1.378(b) are more exacting than the corresponding requirements of 37 C.F.R. § 1.378(c), a petition under the former is significantly less likely to be grantable as filed than is a petition under the later. A blank form which can be used in filing a petition under 37 C.F.R. § 1.378(c) may be found at: <http://www.uspto.gov/web/forms/sb0066.pdf>.

Petitioner will note that a third option is to concurrently file both a renewed petition pursuant to Rule 1.378(b) and a petition pursuant to Rule 1.378(c). If the former petition is granted, the fee that is associated with the filing of the latter petition will be refunded to Petitioner.

⁹ A grantable petition pursuant to 37 CFR § 1.378(c) must be accompanied by:
(1) The maintenance fee as set forth in 37 CFR §§ 1.362(e) and 1.20 (already submitted);
(2) The surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee, as set forth in 37 CFR § 1.20 (the already submitted \$700 would be applied towards this \$1640 fee);
(3) A statement that the delay was unintentional from a proper party in interest, and;
(4) The petition must be filed within 24 months of the date of expiration.

Issue Date: October 13, 1998	:	§ 1.378(C)
Title: WILDLIFE FEEDING DEVICE	:	

This is a decision on the petition filed pursuant to 37 C.F.R. § 1.378(c) on January 12, 2011, to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

A grantable petition pursuant to 37 C.F.R. § 1.378(c) must be accompanied by:

- (1) The maintenance fee as set forth in 37 C.F.R. §§ 1.362(e) and 1.20;
- (2) The surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee, as set forth in 37 C.F.R. § 1.20;
- (3) A statement that the delay was unintentional from a proper party in interest, and;
- (4) The petition must be filed within 24 months of the date of expiration.

The patent issued on October 13, 1998. The grace period for paying the 11½-year maintenance fee provided in 37 C.F.R. § 1.362(e) expired at midnight on October 13, 2010, with no payment received. Accordingly, the patent expired on October 13, 2010 at midnight.

On November 24, 2010, Petitioner submitted a petition pursuant to 37 C.F.R. § 1.378(b), along with \$2,755 (the 11½ year maintenance fee is \$2055, and the surcharge that is associated with the filing of a petition pursuant to 37 C.F.R. § 1.378(b) is \$700). The petition pursuant to 37 C.F.R. § 1.378(b) was dismissed via the mailing of a decision on December 20, 2010.

With this petition pursuant to 37 C.F.R. § 1.378(c), the total amount that is required is \$3695 (the 11½ year maintenance fee is \$2055, and the surcharge that is associated with the filing of a petition pursuant to 37 C.F.R. § 1.378(c) is \$1640).

Petitioner has not submitted additional funds with this petition pursuant to 37 C.F.R. § 1.378(c). It follows that this petition must be **DISMISSED** for failure to submit the surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee in full.

Any request for reconsideration of this decision **must** be filed within **TWO MONTHS** of the mailing date of this decision. No assurance can be made that any remedy will be forthcoming. Extensions of time under 37 C.F.R. § 1.136(a) are **NOT** permitted.

Any such petition for reconsideration must be accompanied by the \$400 petition fee set forth in 37 C.F.R. § 1.17(h). After decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner. If on request for reconsideration, the delayed payment of the maintenance fee is not accepted, then the maintenance fee is subject to refund following the decision on the petition for reconsideration, or after the expiration of the time for filing such a petition for reconsideration, if none is filed.

The reply should include a cover letter entitled "Renewed Petition pursuant to 37 C.F.R. § 1.378(e)". This is not a final agency action within the meaning of 5 U.S.C § 704. On renewed petition, Petitioner should submit \$1340 (\$3695 that is currently owed less the \$2755 previously submitted plus \$400 for the renewed petition).

Application No. 08/783,276 : REQUEST FOR MORE INFORMATION
Patent No. 5,819,687 :
Filed: January 15, 1997 :
Issue Date: October 13, 1998 :
Title: WILDLIFE FEEDING DEVICE :

This is a request for more information, mailed in response to a renewed petition filed pursuant to 37 C.F.R. § 1.378(c) on March 10, 2011, to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

The concurrently submitted Change of Correspondence Address has been entered and made of record.

A grantable petition pursuant to 37 C.F.R. § 1.378(c) must be accompanied by:

- (1) The maintenance fee as set forth in 37 C.F.R. §§ 1.362(e) and 1.20;
- (2) The surcharge for accepting a maintenance fee after expiration of a patent for non-timely payment of a maintenance fee, as set forth in 37 C.F.R. § 1.20;
- (3) A statement that the delay was unintentional from a proper party in interest, and;
- (4) The petition must be filed within 24 months of the date of expiration.

The patent issued on October 13, 1998. The grace period for paying the 11½-year maintenance fee provided in 37 C.F.R.

§ 1.362(e) expired at midnight on October 13, 2010, with no payment received. Accordingly, the patent expired on October 13, 2010 at midnight.

On November 24, 2010, Petitioner submitted a petition pursuant to 37 C.F.R. § 1.378(b), along with \$2,755 (the 1½ year maintenance fee is \$2055, and the surcharge that is associated with the filing of a petition pursuant to 37 C.F.R. § 1.378(b) is \$700). The petition pursuant to 37 C.F.R. § 1.378(b) was dismissed via the mailing of a decision on December 20, 2010.

A petition pursuant to 37 C.F.R. § 1.378(c) was filed on January 12, 2011, and was dismissed via the mailing of a decision on January 31, 2011 which indicated that the required funds had not been submitted to the Office in full.

With this renewed petition, Petitioner has included \$1340.

To date, Petitioner has submitted the \$2055 maintenance fee, the \$1640 surcharge that is associated with the submission of this petition, and the \$400 petition fee associated with the submission of this renewed petition.

However, it is noted that this renewed petition has not been executed. 37 C.F.R. § 10.18(a) sets forth, *in toto*:

For all documents filed in the Office in patent, trademark, and other non-patent matters, except for correspondence that is required to be signed by the applicant or party, each piece of correspondence filed by a practitioner in the Patent and Trademark Office must bear a signature, personally signed by such practitioner, in compliance with § 1.4(d)(1) of this chapter.

Consequently, this renewed petition cannot be entered, pursuant to Rule 10.18(a), reproduced above.¹

In an effort to secure a signed copy of this petition, the undersigned attempted to reach Petitioner by telephone on April 3, 2011. Two calls were placed to the telephone numbers which appear on the change of address request that was submitted concurrently with this renewed petition. There was no answer when the first number was attempted, and there was no option to leave a message or a voicemail. The second phone number appears to be an incorrect number.

¹ See also 37 C.F.R. § 1.4 and MPEP § 502.02.

Any response must be filed within **ONE MONTH** of the mailing date of this decision, and entitled "Supplement to the Renewed Petition pursuant to 37 C.F.R. § 1.378(e)."

Petitioner should submit a signed copy of the renewed petition.

The supplement should indicate in a prominent manner that the attorney handling this matter is Paul Shanowski, and may be submitted by mail², hand-delivery³, or facsimile⁴. Registered users of EFS-Web may alternatively submit a response to this decision via EFS-Web.⁵

The general phone number for the Office of Petitions which should be used for status requests is (571) 272-3282. Telephone inquiries regarding this decision should be directed to the undersigned at (571) 272-3225. Attorney Docket No. **3196US2/NAT** :

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28. On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. **See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).**

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989)**. Therefore, nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby **ACCEPTED**.

This application is no longer entitled to small entity status. Accordingly, all future fees paid in this application must be paid at the large entity rate.

Application No.08/791,057 : DECISION ON REQUEST FOR REFUND
Filed: January 13, 1997 :
Attorney Docket No. 96-1781 :

This is a decision on the communication entitled "RESPONSE TO NOTICE OF NON-ACCEPTANCE OF DEFICIENCY SUBMISSION UNDER 37 C.F.R. §1.28 AND REQUEST FOR REFUND UNDER 37 C.F.R. §1.26" filed May 19, 2011.

The request is **GRANTED**.

Applicant files the above request and states that "... With respect to the filing by MIT of the Deficiency Payment, it is submitted that such action was itself in error. At the time of payment of the 12th year maintenance fee, the '470 patent was licensed to a company meeting the requirements of 37 C.F.R. §1.27(2) (i.e., the licensee company was a "small business concern"). MIT itself is a "university or other institution of higher education", and so small entity status was and continues to be appropriate pursuant to 37 C.F.R. §1.27(a)(3).

... Since the Deficiency Payment was both not accepted and indeed not necessary considering that small entity status has never been lost in the subject patent, the charge of \$2,055.00 to Deposit Account No. 192553 on January 12, 2011 was in excess of what was required. MIT is therefore entitled to a refund under 37 C.F.R. §1.26(a)."

The request for refund of the deficiency payment is granted. Small entity status will remain based on a review of the file record as a whole.

As authorized, the \$2,055.00 deficiency payment paid on January 10, 2011, is being credited to petitioner's deposit account as authorized.

ON PETITION

In re Patent No. 5,779,290 :
Issued: July 14, 1998 :
Application No. 08/791,254 :
Filed: January 30, 1997 :
Title: Pet Hygiene Management Apparatus :
And Method :

This is a decision on the petition under 37 CFR 1.378(c), filed September 10, 2010, to accept the delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this two-month time limit can be granted under 37 CFR 1.136(a) or (b). This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

Any petition for reconsideration of this decision must be accompanied by the petition fee of \$400 as set forth in 37 CFR 1.17(f). The petition for reconsideration must include the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner.

A petition to accept the unintentionally delayed payment of a maintenance fee under 35 U.S.C. § 41(c) and 37 CFR 1.378(c) must be accompanied by: (1) a statement that the delay was unintentional; (2) payment of the appropriate maintenance fee, unless previously submitted; (3) payment of the surcharge set forth in 37 CFR 1.20(i)(2). This petition lacks item (2) listed above.

With regards to items (2), petitioner has submitted \$1,990.00 towards the required eleven and a half year maintenance fee of \$2,055.00, thus creating a \$65.00 shortage. Therefore, as stated above a \$400.00 petition fee is also required for any petition for reconsideration, bring the total to \$465.00.

If this petition is not renewed or if renewed and not granted, then petitioner may request a refund of the maintenance and surcharge fees paid. The fee for requesting reconsideration is not refundable.

Further, it is not apparent whether the statement of unintentional delay was signed by a person who would have been in a position of knowing that the delay in filing a timely response was unintentional. Nevertheless, in accordance with 37 CFR 10.18, the statement is accepted as constituting a certification of unintentional delay. However, in

the event that petitioner has no knowledge that the delay in paying the maintenance fee was in fact unintentional, petitioner must make such an inquiry to ascertain that, in fact the delay was unintentional. If petitioner discovers that the delay in paying the maintenance fee was intentional, petitioner must so notify the Office.

Also, it is not apparent whether the person signing the instant petition was ever given a power of attorney or authorization of agent to prosecute this patent. In accordance with 37 CFR 1.34(a), the signature appearing on the petition shall constitute a representation to the United States Patent and Trademark Office that he/she is authorized to represent the particular party in whose behalf he/she acts.

A courtesy copy of this decision is being mailed to the address on the petition; however, all future correspondence will be mailed solely to the address of record.

Application No. 08/794,154	:	ON PETITION
Filed: February 3, 1997	:	
Attorney Docket No. GELL-1-1002	:	

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28 filed October 29, 2010.

On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. 1098 Off. Gaz. Pat. Office 502 (January 3, 1989). Therefore, nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby **ACCEPTED**.

This patent is no longer entitled to small entity status. Accordingly, all future fees paid in this patent must be paid at the large entity rate.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-7751.

The patent file is being forwarded to Files Repository.

In re Patent No. 5,891,260 :
Issue Date: April 6, 1999 :
Application No. 08/795,038 : **DECISION ON REQUEST FOR REFUND**
Filed: February 5, 1997 :
Attorney Docket No. BENHAM.002 :

This is a decision on the request filed February 18, 2011, under 37 CFR 1.181(no fee), requesting refund of the maintenance fee paid on the above patent.

The request is **DISMISSED**.

Applicant files the above request for refund of the maintenance fees paid on June 22, 2006 and on September 8, 2010, and states that "On November 6, 2003, a Petition to Accept Unintentionally Delayed Payment of Maintenance Fee in an Expired Patent was filed which indicated the Patentee's claim as small entity status (see attached). The Petition was granted on November 26, 2003. However, during this filing, the Patentee's status was shown as a large entity instead of a small entity. The Patentee has always claimed to be and continues to be a small entity. Therefore, please correct the Patentee's status as a large entity to a small entity and refund the difference in maintenance fees paid."

The request under § 1.181 is based on an allegation that patentee has always been a small entity and that therefore the Office improperly made credit card charges in large entity amounts rather than small entity amounts. Note, the issue fee was paid as a large entity.

The Office has accepted a small entity 3.5 year maintenance fee. Presumably that was based on the November 12, 2003, unintentional petition at page two (2) claiming small entity status.

Section 1.26(b) provides that requests must be submitted within two (2) years from the date of payment. Therefore, the June 22, 2006 payment may not be subject to a current refund. The September 8, 2010 payment may be subject to a current refund. However, Office PALM records do not currently show a small entity status for the patent. The Office will be presumed to have charged the correct amount of the subsequent 7.5 and 11.5 year maintenance fees as were authorized. Also, the refund request does not attach the papers authorizing the amounts paid, so that the Office can determine that incorrect amounts were in fact charged.

Application No. 08/795,038
Patent No. 5,891,260

-2-

Thus, in view of the above, the request for refund is dismissed at this time.

Any questions concerning this matter may be directed to the undersigned at (571) 272-3208.

Application No. 08/795,038 : **DECISION ON REQUEST FOR REFUND**
Filed: February 5, 1997 :
Attorney Docket No. BENHAM.002 :

This is a decision on the renewed Request For Refund filed May 13, 2011.

The request is **GRANTED**.

Applicants filed the above request for refund and states that "Again, the Patentee has taken no action to change its status from a small entity to a large entity since the granting of a small entity status on November 26, 2003. Therefore, please correct the Patentee's status as a large entity to a **small entity** and refund the difference in maintenance fee paid on September 8, 2010, in the amount of \$4,110.00."

In view of the above, status has been changed to that of small entity status. The large entity portion of the third maintenance fee **\$2,055** (\$4,110 -\$2,055) is being credited to petitioner's credit card account as it is the method in which the fee was paid.

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28 filed May 25, 2011.

On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989)**. Therefore, nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby **ACCEPTED**.

This patent is no longer entitled to small entity status. Accordingly, all future fees paid in this patent must be paid at the large entity rate.

Additionally, it is not apparent whether the person signing the instant petition was ever given a power of attorney or authorization of agent to prosecute this patent application. Patent No. 5,898,063	:	
Issue Date: April 27, 1999	:	Decision on Petition
Application No. 08/802,202	:	
Filing Date: February 18, 1997	:	
Attorney Docket No. 74626-00009	:	

This is a decision on the petition under 37 CFR 1.378(c), filed December 17, 2010, to accept the delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

35 U.S.C. 41(b) states,

Unless payment of the applicable maintenance fee is received in the United States Patent and Trademark Office on or before the date the fee is due or within a grace period of 6 months thereafter, the patent will expire as of the end of such grace period.

35 U.S.C. 41(c)(1) requires any petition to accept an unintentionally delayed maintenance fee to be filed "within twenty-four months after the six-month grace period."

37 CFR 1.378(c) requires any petition to accept an unintentionally delayed maintenance fee to "be filed within twenty-four months after the six-month grace period provided in § 1.362(e)."

37 CFR 1.362(e) states the six-month grace period to pay the 7.5 year maintenance fee ends on the day of the 8th anniversary of the issuance of the patent.

The last day of the six-month grace period to pay the 7.5 year maintenance fee in this case was April 27, 2007. The petition was not filed within twenty-four months of April 27, 2007. Therefore, the petition is untimely.

Since the petition is dismissed, petitioner may request a refund of the maintenance fee and surcharge. Any request for a refund should be sent to: Mail Stop 16, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450. A copy of this decision should accompany any request for refund.

Telephone inquiries regarding this communication should be directed to Petitions Attorney Steven Brantley at (571) 272-3203.

OFFICE OF PETITIONS

In re Application of :
Carlsson, et al. :
Application No. 08/806,763 : DECISION
Filed/Deposited: 18 March, 1997 :
Attorney Docket No. P60846US0 :

This is a decision on the request considered as a petition filed on 2 June, 1998, nominally to obtain a corrected filing receipt with a filing date of 18 March, 1997, rather than the presently accorded date of 24 March, 1997, and properly considered pursuant to the regulations at 37 C.F.R. ' 1.53.

The Office regrets the delay in this matter, however, the request was received by the attorneys in the Office of Petitions only at this writing.

For the reasons set forth below, the request considered as a petition pursuant to 37 C.F.R. ' 1.53 is **GRANTED**.

BACKGROUND

The instant application was deposited on a date that was alternatively set forth as 24 March, 1997, and 18 March, 1997, with the Office of Licensing and Review for security review.

The record does not evidence the mailing of a filing receipt, and it appears that the first indication of the 24 March, 1997, filing date accorded by the Office to the application was in the non-final Office action of 28 May, 1998.

On 2 June, 1998, Petitioner filed a Request for "Corrected Filing Receipt," considered now as a petition for relief pursuant to the regulations at 37 C.F.R. ' 1.53. With his petition, Petitioner included therewith what are averred to be true copies of:

- his Classified Material Receipt (originally dated by Petitioner on submission as “March 18, 1997”) and date-stamped by as “Received MAR 18 1997 Licensing & Review,” and further annotated at the bottom of the page: “The above identified material was personally received by me this 18 day of March, 1997” and with the number “18” handwritten and the paper signed “Dante Smith”;
- a date-stamped receipt card (*see*: MPEP §503) with the attorney docket number P60846US0 set forth—notably there are two copies of the card:

—one date-stamped “Received MAR 18 1997 GROUP 2200” and “Received MAR 18 1997 Licensing & Review”; and

—the other bearing a bar code sticker “08/806,763 — 3/24/97” and date-stamps of “Received MAR 18 1997 Licensing & Review” (very lightly stamped) and “Received JUN 24 1998 Licensing & Review.”

The receipt card specifies contents generally, *inter alia*, as:

X 11 pp. Specification & 9 Claims
X Combined Declaration, Power of attorney
X Preliminary Amendment
X Claim to Priority and Certified Copy

X Drawings 2 Sheets

The Classified Material Receipt is somewhat more specific and clarifies a question raised, discussed and resolved below:

Application papers of Conny CARLSSON and Björn JÄGERSTRÖM comprising eleven (11) pages including five (5) page specification, claims 1- 9, Abstract, two (2) pages of drawing depicting Figs. 1-3, and Declaration and Power of Attorney (Emphasis supplied.)

It does not appear that Petitioner thought that a fee was due upon submission of the request or that a fee was submitted with the request.

Thereafter, in a series of events:

- the Examiner mailed a 21 January, 1999, Requirement to Remove Security Markings or Obtain a New Secrecy Order;

- the Armed Services Patent Advisory Board/Department of Defense mailed a 19 February, 1999, request that Secrecy Order No. 2 issue; and
- the Office mailed a 25 February, 1999, Secrecy Order pursuant to 35 U.S.C. §§181 – 188.

Further, on 1 May, 2006, the United States Army Legal Services Agency mailed a recommendation that the Secrecy Order be rescinded; and on 4 May, 2006, the Office rescinded the 25 February, 1999, Secrecy Order pursuant to 35 U.S.C. §§181 – 188.

ANALYSIS

As indicated above, on deposit of the papers a Classified Material Receipt was date-stamped “Received MAR 18 1997 Licensing & Review” and signed for by an individual identified as “Dante Smith.”

The Classified Material Receipt is helpful in that it indicates that Petitioner’s submission of comprising eleven (11) pages including five (5) page specification, claims 1- 9, Abstract, two (2) pages of drawing depicting Figs. 1-3, and Declaration and Power of Attorney (Emphasis supplied.)

The Classified Material Receipt is more specific in the indication of Petitioner’s computation of pages submitted than is the receipt card referenced above.

Thus, when the pages of application papers are counted as they appear in the record, one finds that Office has divided them such that there are five (5) pages identified as specification, two (2) pages identified as Claims (1-9), one (1) page of abstract, one (1) page of oath/declaration, and two (2) sheets of drawing FIGS. 1-3—all for a total of eleven (11) pages.

(One might more particularly or appropriately set forth the accounting of the pages of “specification” at: five (5) pages identified as description and two (2) pages identified as Claims (1-9) and one (1) page of abstract, or eight (8) pages; plus two (2) sheets of drawings FIGS. 1-3 (and one page of oath/declaration), and a preliminary amendment.)

Because Petitioner’s acknowledgment receipt (including the Classified Material Receipt) adequately itemized the contents of the application as to the elements deposited, it is concluded that the application— comprising eleven (11) pages including five (5) page specification, claims 1- 9, Abstract, two (2) pages of drawing depicting Figs. 1-3, and Declaration and Power of Attorney—was deposited with the Office on 18 March, 1997, and that in the process of transmittal for Licensing & Review and/or other processing the receipt date was misstated by the Office.

Application No. 08/806,763

For clarity within the Office, the itemization is further specified as the application comprising: eleven (11) pages including five (5) page specification, claims 1- 9, Abstract, two (2) pages of drawing depicting Figs. 1-3, and Declaration and Power of Attorney—all deposited with the Office on 18 March, 1997.

Accordingly, the application, including comprising eleven (11) pages including five (5) page specification, claims 1- 9, Abstract, two (2) pages of drawing depicting Figs. 1-3, and Declaration and Power of Attorney—is entitled to a filing date of 18 March, 1997.

Any previous Notice (or paper) mailed was sent in error to the extent that it reflected that the papers—comprising eleven (11) pages including five (5) page specification, claims 1- 9, Abstract, two (2) pages of drawing depicting Figs. 1-3, and Declaration and Power of Attorney—were deposited on a date (and so given a filing date) other than that of 18 March, 1997, and is hereby vacated to the extent that it stated that the application was accorded a filing date other than that of 18 March, 1997.

Out of an abundance of caution, Petitioners always are reminded that those registered to practice and all others who make representations before the Office **must** inquire into the underlying facts of representations made to the Office and support averments with the appropriate documentation—since all owe to the Office the continuing duty to disclose.¹

CONCLUSION

The petition is **granted**; the petition fee waived and does not appear to have been charged—should Petitioner later find that a fee was charged, Petitioner should send a refund request to Office of Finance with a copy of this decision.

This application is released to the Office of Patent Application Processing (OPAP) for further processing with a filing date of 18 March, 1997, for the entire application including five (5) pages to be identified as description and two (2) pages identified as Claims (1-9) and one (1) page of abstract, or eight (8) pages; plus two (2) sheets of drawings FIGS. 1-3 (and one page of oath/declaration), and a preliminary amendment):

- **using five (5) pages to be identified as description and two (2) pages identified as Claims (1-9) and one (1) page of abstract, or eight (8) pages; plus two (2) sheets of drawings FIGS. 1-3 (and one page of oath/declaration), and a preliminary amendment) deposited on 18 March, 1997; and further,**

¹ See supplement of 17 June, 1999. The Patent and Trademark Office is relying on petitioner's duty of candor and good faith and accepting a statement made by Petitioner. See Changes to Patent Practice and Procedure, 62 Fed. Reg. at 53160 and 53178, 1203 Off. Gaz. Pat. Office at 88 and 103 (responses to comments 64 and 109)(applicant obligated under 37 C.F.R. §10.18 to inquire into the underlying facts and circumstances when providing statements to the Patent and Trademark Office).

- with direction to OPAP to correct Office records and provide to Petitioner a corrected filing receipt setting forth a filing date of 18 March, 1997, and reflecting therein that five (5) pages to be identified as description and two (2) pages identified as Claims (1-9) and one (1) page of abstract, or eight (8) pages; plus two (2) sheets of drawings FIGS. 1-3 (and one page of oath/declaration), and a preliminary amendment) were present on filing.

Thereafter, the application will be released to Publications Branch for further processing.

Telephone inquiries regarding this decision may be directed to the undersigned at (571) 272-3214—it is noted, however, that all practice before the Office is in writing (see: 37 C.F.R. '1.2²) and the proper authority for action on any matter in this regard are the statutes (35 U.S.C.), regulations (37 C.F.R.) and the commentary on policy (MPEP). Therefore, no telephone discussion may be controlling or considered authority for Petitioner=s/Caller=s action(s).

OFFICE OF PETITIONS

In re Patent No. 5,924,578 :
Martha McKenzie :
Issue Date: July 20, 1999 : DECISION ON PETITION
Application No. 08/811,772 :
Filed: March 7, 1997 :
Attorney Docket No. MCK-1 :

This is a decision on the PETITION TO ACCEPT UNAVOIDABLY DELAYED
PAYMENT OF MAINTENANCE FEE UNDER 37 C.F.R. § 1.378(b) filed
April 29, 2011.

The petition is dismissed.

The patent issued July 20, 1999. The first maintenance fee was
timely paid without surcharge on July 9, 2003. The grace period
for paying the 7-½ year maintenance fee expired at midnight on
July 20, 2007, with no payment received. (The window to pay the
third maintenance fee closes on July 20, 2011. It is noted that
the instant petition includes an authorization to charge any
required fees, including the 11 ½ year fee).

On April 29, 2011, the instant petition was filed. The petition
included payment of the second maintenance fee (\$1240) and the
late surcharge where the delay is unavoidable (\$700).
Petitioner states that "[d]espite the institution of several
checks in the process, and for an unknown reason which is still
being investigated, the information related to the instant
patent is not in the new electronic docketing system and the
physical file cannot be located."

STATUTES, RULES AND REGULATIONS

35 U.S.C. § 41(c)(1) states that:

The Director may accept the delayed payment of any maintenance fee required ... after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unavoidable.

37 C.F.R. §1.378(b) provides that:

Any petition to accept an unavoidably delayed payment of a maintenance fee must include:

- (1) The required maintenance fee set forth in §1.20(e) through (g);
- (2) The surcharge set forth in §1.20(I)(1); and
- (3) A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

Acceptance of a late maintenance fee under the unavoidable delay standard is considered under the same standard for reviving an abandoned application under 35 U.S.C. 133. Decisions on reviving abandoned applications on the basis of "unavoidable" delay have adopted the reasonably prudent person standard in determining if the delay was unavoidable:

The word 'unavoidable' ... is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business.

Femspec, L.L.C. v. Dudas, No. (quoting In re Mattullath, 38 App. D.C. 497, 514-15 (1912) (quoting Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (1887)); see also Winkler v. Ladd, 221 F. Supp. 550, 552, 138 U.S.P.Q. 666, 167-68 (D.D.C. 1963), aff'd, 143 U.S.P.Q. 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913). However, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

A delay resulting from an error (e.g., a docketing error) on the part of an employee in the performance of a clerical function may provide the basis for a showing of "unavoidable" delay, provided it is shown that:

- (1) the error was the cause of the delay at issue;
- (2) there was in place a business routine for performing the clerical function that could reasonably be relied upon to avoid errors in its performance; and
- (3) the employee was sufficiently trained and experienced with regard to the function and routine for its performance that reliance upon such employee represented the exercise of due care.

See MPEP 711.03(c) (III) (C) (2) (See also In re Egbers, et al., 6 U.S.P.Q.2d 1869 (Commr. Pat. 1988), rev'd on other grounds sub nom, Theodor Groz & Sohne & Ernest Bechert Nadelfabrik KG v. Quigg, 10 U.S.P.Q.2d 1787 (D.D.C. 1988); In re Katrapat, AG, 6 U.S.P.Q.2d 1863 (Commr. Pat. 1988).

An adequate showing should include (when relevant):

- (1) statements by all persons with direct knowledge of the circumstances surrounding the delay, setting forth the facts as they know them;
- (2) a thorough explanation of the docketing and call-up system in use;
- (3) identification of the type of records kept;
- (4) identification of the persons responsible for the maintenance of the system;
- (5) copies of mail ledger, docket sheets, file wrappers and such other records as may exist which would substantiate an error in docketing;
- (6) include an indication as to why the system failed in this instance; and

(7) information regarding the training provided to the personnel responsible for the docketing error, degree of supervision of their work, examples of other work functions carried out, and checks on the described work which were used to assure proper execution of assigned tasks.

OPINION

The patent issued July 20, 1999. The 7-½ year maintenance fee was due January 20, 2003. The grace period for paying the second maintenance fee with late surcharge expired at midnight on July 20, 2003. The instant petition was filed on August 13, 2007.

Petitioner states that the entire delay in payment of the second maintenance fee was unavoidable. Specifically, petitioner indicates that "for an unknown reason which is still being investigated, ... the information related to the instant patent is not in the new electronic docketing system."

The unavoidable delay standard:

requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them, in the exercise of this care, to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all the other conditions of good faith and promptness in its ratification being present.

Under this standard, a prudent and careful man in ensuring the timely payment of the maintenance fee may rely on a worthy and reliable employee to perform a clerical function. Specifically, a delay resulting from an error (e.g., a docketing error) on the part of an employee in the performance of a clerical function may provide the basis for a showing of "unavoidable" delay, provided it is shown that:

- (1) the error was the cause of the delay at issue;

(2) there was in place a business routine for performing the clerical function that could reasonably be relied upon to avoid errors in its performance; and

(3) the employee was sufficiently trained and experienced with regard to the function and routine for its performance that reliance upon such employee represented the exercise of due care.

OPINION

The burden is on petitioner to make an adequate showing of unavoidable delay. Petitioner has not met the burden of establishing that the delay in paying the maintenance fee was unavoidable. The petition alleges docketing error, but does not set forth the specific facts required to meet their burden.

First, petitioner is under a burden to show that the error was the cause of the delay at issue. Petitioner generally indicates that something occurred in the transferring of this file to the new electronic docketing system. However, petitioner is still investigating and does not articulate the exact error relied on to conclude that the delay was unavoidable. Petitioner needs to both identify the specific error and show that it was the cause of the delay in paying the second maintenance fee.

Second, given that the error is not identified, the petition lacks an explanation of the business routine for performing the clerical function that could reasonably be relied upon to avoid errors in its performance.

Likewise, petitioner has not identified the individual who committed the error. As such, petitioner has not shown that the employee was sufficiently trained and experienced with regard to the function and routine for its performance that reliance upon such employee represented the exercise of due care.

If petitioner continues to rely on a showing of docketing error as the basis for concluding that the delay in paying the maintenance fee was unavoidable, any renewed petition should detail the error that led to the failure to timely pay the maintenance fee in this patent, the business routine in place for performing the clerical function that could reasonably be relied upon to avoid errors in its performance, and identify the employee(s) who committed the error and show that the employee(s) was sufficiently trained and experienced with regard

to the function and routine for its performance that reliance upon such employee(s) represented the exercise of due care. As stated above, an adequate showing should include (when relevant):

(1) statements by all persons with direct knowledge of the circumstances surrounding the delay, setting forth the facts as they know them;

(2) a thorough explanation of the docketing and call-up system in use;

(3) identification of the type of records kept;

(4) identification of the persons responsible for the maintenance of the system;

(5) copies of mail ledger, docket sheets, file wrappers and such other records as may exist which would substantiate an error in docketing;

(6) include an indication as to why the system failed in this instance; and

(7) information regarding the training provided to the personnel responsible for the docketing error, degree of supervision of their work, examples of other work functions carried out, and checks on the described work which were used to assure proper execution of assigned tasks.

CONCLUSION

In view thereof, the petition is DISMISSED.

Any request for reconsideration of this decision must be filed within **TWO MONTHS** of the mailing date of this decision. **This period is governed by 37 CFR 1.181(f) and is not extendable.**

Any such petition for reconsideration must be accompanied by the \$400 petition fee set forth in § 1.17(h). After decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director. Accordingly, on request for reconsideration, it is extremely important the petitioner supply any and all relevant information and documentation in order to meet his burden of showing unavoidable delay.

If on request for reconsideration, the delayed payment of the maintenance fee is not accepted, then the maintenance fee and the surcharge set forth in §1.20(i) are subject to refund following the decision on the petition for reconsideration, or after the expiration of the time for filing such a petition for

reconsideration, if none is filed. (Petitioner may request a refund of the maintenance fee and surcharge by writing to the Office of Finance, Refund Section, Commissioner for Patents, Washington DC 20231. A copy of the last decision rendered should accompany the request for refund).

OFFICE OF PETITIONS

In re Patent No. 5,924,578 :
Martha McKenzie :
Issue Date: July 20, 1999 : DECISION ON PETITION
Application No. 08/811,772 :
Filed: March 7, 1997 :
Attorney Docket No. MCK-1 :

This is a decision on the REQUEST FOR RECONSIDERATION OF
DECISION ON PETITION TO ACCEPT UNAVOIDABLY DELAYED PAYMENT OF
MAINTENANCE FEE filed September 21, 2011.

The petition is granted.

The patent issued July 20, 1999. The first maintenance fee was timely paid without surcharge on January 9, 2003. The grace period for paying the 7-½ year maintenance fee expired at midnight on July 20, 2007, with no payment received. (The window to pay the third maintenance fee closes on July 20, 2011. It is noted that the instant petition includes an authorization to charge any required fees, including the 11 ½ year fee).

On April 29, 2011, the initial petition was filed. The petition included payment of the second maintenance fee (\$1240) and the late surcharge where the delay is unavoidable (\$700). By decision mailed August 26, 2011, the petition was dismissed for failure to establish that the delay in payment of the maintenance fee was unavoidable within the meaning of 37 CFR 1.378(b). Petitioner stated that "[d]espite the institution of several checks in the process, and for an unknown reason which is still being investigated, the information related to the instant patent is not in the new electronic docketing system and the physical file cannot be located." This statement was not

supported by evidence of a delay resulting from an error (e.g., a docketing error) on the part of an employee in the performance of a clerical function.

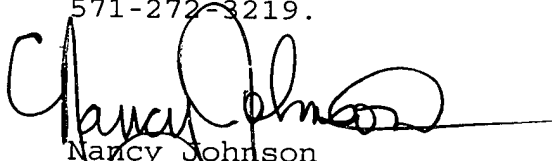

On instant renewed petition, patentee has identified the docketing error that was the cause of the delay in payment of the maintenance fee (i.e., a data entry error in entering the patent issue date), provided a copy of the docket record, named the employee who committed the error and provided her statement, described the system in place for performing the data entry in the transfer of files, including the training undertaking by the employee and her overall experience and the checks in place to ensure that the function was completed correctly.

In light of the showing of record, it is concluded that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be timely paid.

Receipt of the \$400 fee for reconsideration is acknowledged.

Accordingly, the maintenance fee in this case is hereby accepted and the above identified patent is hereby reinstated as of the mail date of this decision. The third maintenance fee is being charged to the Deposit Account, as authorized.

Telephone inquiries should be directed to the undersigned at 571-272-3219.

Attorney Docket No. M-3729-US :

ON PETITION

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28 filed May 10, 2011.

On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. See **DH Technology v. Synergystex International, Inc.** 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989)**. Therefore, nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby **ACCEPTED**.

This patent is no longer entitled to small entity status. Accordingly, all future fees paid in this patent must be paid at the large entity rate.

It is not apparent whether the person signing the instant petition was ever given a power of attorney or authorization of agent regarding this patent. In accordance with 37 CFR 1.34(a), the signature appearing on the petition shall constitute a representation to the United States Patent and Trademark Office that he/she is authorized to represent the particular party in whose behalf he/she acts. While, a courtesy copy of this decision is being mailed to the address given on the petition, the Office will mail all future correspondence solely to the address of record.

: **DECISION ON REQUEST FOR REFUND**
:
:

This is a decision on the Request For Refund filed September 13, 2011.

The request is **DISMISSED**.

A review of Office records indicates that a request under 37 CFR 1.28(c) was submitted on May 24, 2011 to change the status of the above patent application to large entity status and to accept the deficiency payment submitted with the request. On August 31, 2011, applicant submitted an additional fee deficiency payment under 37 CFR 1.28(c). Further, an Authorization To Charge Deposit Account was submitted on October 4, 2011, which states that "It is noted that the above-identified patent was no longer entitled to small entity status at the time the maintenance fees were paid. Therefore, the maintenance fees were erroneously paid as a small entity. Accordingly, the U.S. Patent and Trademark Office is authorized to charge any deficiencies related to the above error to our deposit account no. 23-0975."

In view of the above, the request for refund is dismissed. It appears that the request for refund was submitted in error. If this is an incorrect interpretation by the Office, applicant must let the Office know in writing of such.

Any questions concerning this matter may be directed to the undersigned at (571) 272-3208.

Application No. 08/817,567	:	NOTICE
Filed: April 11, 1997	:	
Attorney Docket No. 237370/C9296	:	

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28 filed August 31, 2011.

On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989).** Therefore, nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby **ACCEPTED**.

This patent is no longer entitled to small entity status. Accordingly, all future fees paid in this patent must be paid at the large entity rate.

Additionally, the Power of Attorney and Change of Correspondence Address submitted with the instant petition is hereby not accepted. Petitioner has failed to submit a proper Statement Under 37 CFR 3.73(b). Petitioner has not provided the assignee percent of interest of ownership on form PTO/SB/96. Therefore the request for Power of Attorney and Change of Correspondence Address cannot be accepted at this time.

Currently, David M. Ovedovitz does not have power of attorney or authorization of agent regarding this patent. Therefore, in accordance with 37 CFR 1.34(a), the signature appearing on the petition shall constitute a representation to the United States Patent and Trademark Office that he is authorized to represent the particular party in whose behalf he acts. While, a courtesy

copy of this decision is being mailed to the address given on the petition, the Office will mail all future correspondence solely to the address of record.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-7751.

Attorney Docket No. 237370/C9296 :

This is a decision on the Request For Refund filed October 12, 2011.

The request is **DISMISSED**.

Applicant files the above request for refund and states that "Applicants respectfully request a 50% refund of the PTO fee, Surcharge for late Payment of Maintenance Fee, of \$130.00 paid on October 7, 2011, i.e. \$65.00, because Applicants have already paid \$65.00 of this PTO fee on August 27, 2003. Accordingly, Applicants only needed to pay the difference of \$65.00."

Applicant should note that the \$130.00 charged on October 7, 2011 was the balance due in regard to the submission under 37 CFR 1.28(c), filed on August 31, 2011. The Notice stated that the deficiency payment owed was \$3,985. A total of (\$2,055 + \$1800 + \$130) = \$3,985. As stated in the submission on August 31, 2011, the fees were calculated as (\$535 4th Year Maintenance Fee, \$65 Sur. Charge, \$1,330 8th Year Maintenance Fee, \$2,055 12th Year Maintenance Fee).

In view of the above, the request for refund is dismissed.

Thierry Boon, et al. :
Application No. 08/819,669 : ON PETITION
Filed: March 17, 1997 :
Attorney Docket No.: LUD-5253.5-D :

This is a decision on the petition filed August 24, 2010, under 37 CFR 1.182 requesting the withdrawal of a previously filed terminal disclaimer. The \$400 petition fee is being charged to counsel's deposit account as authorized.

The petition is granted.

Petitioner indicates that a terminal disclaimer filed in this application for U.S. Patent No. 7,495,074 is moot in view of subsequent action in the prosecution of this application. Accordingly, petitioner requests that the Terminal Disclaimer filed March 26, 2009 be withdrawn.

As the examiner has concurred in his reasons for allowance, the request is favorably considered.

The application is being referred to Technology Center Art Unit 1644 for further processing consistent with this decision.

Telephone inquiries related to this decision may be directed to the undersigned at (571) 272-3204.

Applicable Statutes and Regulation

35 U.S.C. 135 Interferences.

(a) Whenever an application is made for a patent which, in the opinion of the Director, would interfere with any pending application, or with any unexpired patent, an interference may be declared and the Director shall give notice of such declaration to the applicants, or applicant and patentee, as the case may be. The Board of Patent Appeals and Interferences shall determine questions of priority of the inventions and may determine questions of patentability. Any final decision, if adverse to the claim of an applicant, shall constitute the final refusal by the Patent and Trademark Office of the claims involved, and the Director may issue a patent to the applicant who is adjudged the prior inventor. A final judgment adverse to a patentee from which no appeal or other review has been or can be taken or had shall constitute cancellation of the claims involved in the patent, and notice of such cancellation shall be endorsed on copies of the patent distributed after such cancellation by the Patent and Trademark Office. . . .

35 U.S.C. 154. Contents and term of patent (in effect on June 8, 1995)

(b) TERM EXTENSION.-

(1) INTERFERENCE DELAY OR SECRECY ORDERS.-If the issue of an original patent is delayed due to a proceeding under section 135(a) of this title, or because the application for patent is placed under an order pursuant to section 181 of this title, the term of the patent shall be extended for the period of delay, but in no case more than 5 years.

(2) EXTENSION FOR APPELLATE REVIEW.-If the issue of a patent is delayed due to appellate review by the Board of Patent Appeals and Interferences or by a Federal court and the patent is issued pursuant to a decision in the review reversing an adverse determination of patentability, the term of the patent shall be extended for a period of time but in no case more than 5 years. A patent shall not be eligible for extension under this paragraph if it is subject to a terminal disclaimer due to the issue of another patent

claiming subject matter that is not patentably distinct from that under appellate review.

37 CFR 1.701 Extension of patent term due to examination delay under the Uruguay Round Agreements Act (original applications, other than designs, filed on or after June 8, 1995, and before May 29, 2000).

(a) A patent, other than for designs, issued on an application filed on or after June 8, 1995, is entitled to extension of the patent term if the issuance of the patent was delayed due to:

(1) Interference proceedings under 35 U.S.C. 135(a); and/or

(2) The application being placed under a secrecy order under 35 U.S.C. 181; and/or

(3) Appellate review by the Board of Patent Appeals and Interferences or by a Federal court under 35 U.S.C. 141 or 145, if the patent was issued pursuant to a decision in the review reversing an adverse determination of patentability and if the patent is not subject to a terminal disclaimer due to the issuance of another patent claiming subject matter that is not patentably distinct from that under appellate review. If an application is remanded by a panel of the Board of Patent Appeals and Interferences and the remand is the last action by a panel of the Board of Patent Appeals and Interferences prior to the mailing of a notice of allowance under 35 U.S.C. 151 in the application, the remand shall be considered a decision in the review reversing an adverse determination of patentability as that phrase is used in 35 U.S.C. 154(b)(2) as amended by section 532(a) of the Uruguay Round Agreements Act, Public Law 103-465, 108 Stat. 4809, 4983-85 (1994), and a final decision in favor of the applicant under paragraph (c)(3) of this section. A remand by a panel of the Board of Patent Appeals and Interferences shall not be considered a decision in the review reversing an adverse determination of patentability as provided in this paragraph if there is filed a request for continued examination under 35 U.S.C. 132(b) that was not first preceded by the mailing, after such remand, of at least one of an action under 35 U.S.C. 132 or a notice of allowance under 35 U.S.C. 151.

(b) The term of a patent entitled to extension under paragraph (a) of this section shall be extended for the sum of the periods of delay calculated under paragraphs (c)(1), (c)(2), (c)(3) and (d) of this section, to the extent that these periods are not overlapping, up to a maximum of five years. The extension will run from the expiration date of the patent.

(c)(1) The period of delay under paragraph (a)(1) of this section for an application is the sum of the following periods, to the extent that the periods are not overlapping:

(i) With respect to each interference in which the application was involved, the number of days, if any, in the period beginning on the date the interference was declared or redeclared to involve the application in the interference and ending on the date that the interference was terminated with respect to the application; and

(ii) The number of days, if any, in the period beginning on the date prosecution in the application was suspended by the Patent and Trademark Office due to interference proceedings under 35 U.S.C. 135(a) not involving the application and ending on the date of the termination of the suspension.

(2) The period of delay under paragraph (a)(2) of this section for an application is the sum of the following periods, to the extent that the periods are not overlapping:

(i) The number of days, if any, the application was maintained in a sealed condition under 35 U.S.C. 181;

(ii) The number of days, if any, in the period beginning on the date of mailing of an examiner's answer under § 41.39 of this title in the application under secrecy order and ending on the date the secrecy order and any renewal thereof was removed;

(iii) The number of days, if any, in the period beginning on the date applicant was notified that an interference would be declared but for the secrecy order and ending on the date the secrecy order and any renewal thereof was removed; and

(iv) The number of days, if any, in the period beginning on the date of notification under § 5.3(c) and ending on the date of mailing of the notice of allowance under § 1.311.

(3) The period of delay under paragraph (a)(3) of this section is the sum of the number of days, if any, in the period beginning on the date on which an appeal to the Board of Patent Appeals and Interferences was filed under 35 U.S.C. 134 and ending on the date of a final decision in favor of the applicant by the Board of Patent Appeals and Interferences or by a Federal court in an appeal under 35 U.S.C. 141 or a civil action under 35 U.S.C. 145.

(d) The period of delay set forth in paragraph (c)(3) shall be reduced by:

(1) Any time during the period of appellate review that occurred before three years from the filing of the first national application for patent presented for examination; and

(2) Any time during the period of appellate review, as determined by the Director, during which the applicant for patent did not act with due diligence. In determining the due diligence of an applicant, the Director may examine the facts and circumstances of the applicant's actions during the period of appellate review to determine whether the applicant exhibited that degree of timeliness as may reasonably be expected from, and which is ordinarily exercised by, a person during a period of appellate review.

(e) The provisions of this section apply only to original patents, except for design patents, issued on applications filed on or after June 8, 1995, and before May 29, 2000.

Opinion

The patent statute only permits extension of patent term based on very specific criteria. The Office has no authority to grant any extension or adjustment of the term due to administrative delays except as authorized by 35 U.S.C. § 154. 35 U.S.C. § 154 provides for patent term extension for appellate review, interference and secrecy order delays in utility and plant applications filed on or after June 8, 1995, and, as amended by the "American Inventors Protection Act of 1999," enacted November 29, 1999, as part of Public Law 106-113, for other specifically defined administrative delays in utility and plant applications filed on or after May 29, 2000.

The above-identified application was filed on March 17, 1997. Accordingly it is entitled to patent term extension based upon the conditions in 35 U.S.C. § 154(b), in effect on June 8, 1995. The provisions of 35 U.S.C. § 154(b) in effect on May 29, 2000 do not apply, because the amended version of 35 U.S.C. § 154(b) only applies to applications filed on or after

May 29, 2000. Pursuant to 35 U.S.C. § 154(b), in effect on June 8, 1995, an applicant can receive patent term extension only if there was an appellate review, interference or a secrecy order delays as set forth in the statute.

According to 37 CFR 1.701 (c)(1)(ii), an application is entitled to patent term extension for the number of days, in the period beginning on the date prosecution in the application was suspended by the Patent and Trademark Office due to interference proceedings under 35 U.S.C. 135(a) not involving the application and ending on the date of the termination of the suspension.

Petitioner asserts that the application is entitled to patent term extension of 407 days for the first suspension and 259 days for the second suspension. Although prosecution in the application was twice suspended in the above-identified application, the suspensions were due to a potential interference either with or involving one or more other applications. The suspensions were not for the reason that the subject application was involved in an interference, or to await the result of an interference proceeding in another application. As a result, the provisions of 37 CFR 1.701(c)(1)(ii) do not apply because this section applies to suspensions by the "Office due to interference proceedings under 35 U.S.C. 135(a) not involving the application," and in this instance there were no such other interference proceedings. Therefore, Petitioner's argument that he is entitled to an additional 259 days of patent term extension for the period of the second suspensions under 37 CFR 1.701(c)(1)(ii) is not persuasive. The application is entitled to zero (0) days of patent term extension under 37 CFR 1.701(c)(1)(ii).

Petitioner's argument that the application is entitled to additional patent term extension based on successful appeals before the BPAI (791 days based on the first appeal and 383 days based on the second appeal) is not persuasive. A terminal disclaimer was filed on June 1, 2004 in the above identified application to Patent No. 6,025,474. While the application was allowed pursuant to an adverse determination of patentability by the BPAI, the application is subject to a terminal disclaimer due to the issuance of another patent claiming subject matter that is not patentably distinct. Under 37 CFR 1.701 (a)(3), the patent is not entitled to patent term extension because the patent is subject to a "terminal disclaimer due to the issuance of another patent claiming subject matter that is not patentably distinct" The statute § 154(b)(2) states that a "patent shall not be eligible for extension under this paragraph if it is subject to a terminal disclaimer due to the issue of another patent claiming subject matter that is not patentably distinct from that under appellate review" and the patent that issued is subject to a terminal disclaimer.

The Office has no authority to grant an extension of the term due to administrative delays except as authorized by 35 U.S.C. § 154.

The Office's electronic record (Patent Application and Location Monitoring system (PALM)) will be adjusted to show that zero (0) days of patent term extension has been accrued to the above-identified application.

After mailing of this decision, the above-identified application will be forwarded to Office of Publications for further processing.

Petitioner's deposit account has not been charged a petition fee.

(1) A registered patent attorney or patent agent of record appointed in compliance with § 1.32(b);

(2) A registered patent attorney or patent agent not of record who acts in a representative capacity under the provisions of § 1.34;

(3) An assignee as provided for under § 3.71(b) of this chapter; or

(4) All of the applicants (§ 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with § 3.71 of this chapter.

An unsigned amendment (or other paper) or one not properly signed by a person having authority to prosecute the application is not entered. This applies, for instance, where the amendment (or other paper) is signed by only one of two applicants and the one signing has not been given a power of attorney by the other applicant.

Therefore, as the petition is not signed by all the inventors and the record herein fails to disclose that petitioner herein (Elmer Yuen) was ever given a power of attorney to act on behalf of inventor Sorin Davidovici, or that he is an assignee of the entire interest and has complied with the provisions of 37 CFR 3.73(b), the petition is considered to not contain a proper statement of unintentional delay.

The file does not indicate a change of address has been submitted, although the address given on the petition differs from the address of record. If appropriate, a change of address should be filed in accordance with MPEP 601.03. A courtesy copy of this decision is being mailed to the address given on the petition; however, the Office will mail all future correspondence solely to the address of record.

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28 filed July 20, 2010. On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989)**. Therefore, nothing in this Notice is intended to imply that an investigation was done.

DECISION ON PETITION

This is a decision on the petition under 37 CFR 1.378(b), filed May 5, 2011, to accept the unavoidably delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

Procedural History:

- The above-identified patent issued on November 16, 1999.
- The second maintenance fee could have been timely paid during the period from November 17, 2006 through May 16, 2007, or with a late payment surcharge during the period from May 17, 2007 through November 17, 2007.

- No maintenance fee was received, and as such, the patent expired on November 18, 2007.
- The 2 year time period for filing a petition under 37 C.F.R. § 1.378(c) expired on November 18, 2009.

Evidence Presented on Petition:

Petitioner explains that they timely transmitted a check in the amount of \$1,150 for the maintenance fee to the US Patent and Trademark Office on April 11, 2007 via Federal Express. In addition, petitioner has shown that Federal Express tracking number 610102858732 was received at the US Patent and Trademark Office on April 12, 2007. Petitioner states that they became aware of the expiration of the patent at the end of February 2011, "when the status of the patent was checked before sending a reminder to the Patentee for proceeding with the payment of the maintenance fee for the 11.5 year [maintenance fee]...."

Relevant Statutes, Rules and Regulations:

35 U.S.C. § 41(c)(1) states that:

The Director may accept the payment of any maintenance fee required by subsection (b) of this section which is made within twenty-four months after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unintentional, or at any time after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unavoidable. The Director may require the payment of a surcharge as a condition of accepting payment of any maintenance fee after the six-month grace period. If the Director accepts payment of a maintenance fee after the six-month grace period, the patent shall be considered as not having expired at the end of the grace period.

37 C.F.R. § 1.378(b) provides that:

Any petition to accept an unavoidably delayed payment of a maintenance fee must include:

- (1) The required maintenance fee set forth in §1.20(e) through (g);
- (2) The surcharge set forth in §1.20(i)(1); and
- (3) A showing that the delay was unavoidable since

reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

Opinion:

§ 1.378(b)(3) is at issue in this case. Acceptance of a late maintenance fee under the unavoidable delay standard is considered under the same standard for reviving an abandoned application under 35 U.S.C. § 133. This is a very stringent standard. Decisions on reviving abandoned applications on the basis of "unavoidable" delay have adopted the reasonably prudent person standard in determining if the delay was unavoidable:

The word unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, **all other conditions of promptness in its rectification being present.** In re Mattullath, 38 App. D.C. 497, 514-15 (1912) (quoting Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (1887)); see also Winkler v. Ladd, 221 F. Supp. 550, 552, 138 USPQ 666, 667-68 (D.D.C. 1963), *aff'd*, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913) (emphasis added).

In addition, decisions on revival are made on a "case-by-case basis, taking all the facts and circumstances into account." Smith v. Mossinghoff, 671 F.2d 533, 538, 213 USPQ 977, 982 (D.C. Cir. 1982). Finally, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

Assuming *arguendo* that the Federal Express mailing bearing tracking number 610102858732 did contain the \$1,150 maintenance fee check for the instant patent, petitioner has not shown that they acted promptly after the April 11, 2007 maintenance fee transmission was not received or was lost at the USPTO. In particular, the fact that the USPTO never cashed petitioner's \$1,150 maintenance fee check would have prompted a prudent person to make sooner inquiry of the status of the patent and fee payment. Here, the record discloses that petitioner did not check on the status of the instant patent until February of 2011.

Conclusion:

Any request for reconsideration of this decision must be filed within **TWO MONTHS** of the mailing date of this decision. Any such petition for reconsideration must be accompanied by the \$400 petition fee set forth in §1.17(h). After decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner. Accordingly, on request for reconsideration, it is extremely important that petitioner supply **any** and **all** relevant information and documentation in order to meet his burden of showing unavoidable delay.

If on request for reconsideration, the delayed payment of the maintenance fee is not accepted, then the \$1,190 submitted for the maintenance fee and the surcharge set forth in §1.20(i) are subject to refund following the decision on the petition for reconsideration, or after the expiration of the time for filing such a petition for reconsideration, if none is filed. Petitioner may request a refund of the maintenance fee and surcharge by writing to: Mail Stop 16, Director of the USPTO, P.O. Box 1450, Alexandria, VA 22313-1450. A copy of the last decision rendered should accompany the request for refund. The \$400 fee for requesting reconsideration is not subject to refund.

In re Patent No. 5,986,551	:	
Issue Date: November 16, 1999	:	
Application No. 08/829,913	:	DECISION ON PETITION
Filed: March 27, 1997	:	
Attorney Docket No. 820-49	:	
	:	

This is a decision on the renewed petition under 37 CFR 1.378(b), filed September 1, 2011, to accept the unavoidably delayed payment of a maintenance fee for the above-identified patent.

The petition is **GRANTED**.

Procedural History:

- The above-identified patent issued on November 16, 1999.
- The second maintenance fee could have been timely paid during the period from November 17, 2006 through May 16, 2007, or with a late payment surcharge during the period from May 17, 2007 through November 17, 2007.

- No maintenance fee was received, and as such, the patent expired on November 18, 2007.
- The 2 year time period for filing a petition under 37 C.F.R. § 1.378(c) expired on November 18, 2009.

Evidence Presented on Petition:

Petitioner explains that they timely transmitted a check in the amount of \$1,150 for the maintenance fee to the US Patent and Trademark Office on April 11, 2007 via Federal Express. In addition, petitioner has shown that Federal Express tracking number 610102858732 was received at the US Patent and Trademark Office on April 12, 2007. Petitioner states that they became aware of the expiration of the patent at the end of February 2011, "when the status of the patent was checked before sending a reminder to the Patentee for proceeding with the payment of the maintenance fee for the 11.5 year [maintenance fee]...."

Petitioner filed a petition to accept the unavoidably delayed payment of the maintenance fee under 37 CFR 1.378(b) on May 5, 2011. However, the petition was dismissed in a decision mailed on July 5, 2011. The decision explained that petitioner had not shown that they acted promptly after the April 11, 2007 maintenance fee transmission was not received or was lost at the USPTO. In particular, the fact that the USPTO never cashed petitioner's \$1,150 maintenance fee check would have prompted a prudent person to make sooner inquiry of the status of the patent and fee payment. The decision noted that the record disclosed that petitioner did not check on the status of the instant patent until February of 2011

Relevant Statutes, Rules and Regulations:

35 U.S.C. § 41(c)(1) states that:

The Director may accept the payment of any maintenance fee required by subsection (b) of this section which is made within twenty-four months after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unintentional, or at any time after the six-month grace period if the delay is shown to the satisfaction of the Director to have been unavoidable. The Director may require the payment of a surcharge as a condition of accepting payment of any maintenance fee after the six-month grace period. If the Director accepts payment of a maintenance fee after the six-month grace period, the patent shall be considered as not having expired at the end of the

grace period.

37 C.F.R. § 1.378(b) provides that:

Any petition to accept an unavoidably delayed payment of a maintenance fee must include:

- (1) The required maintenance fee set forth in §1.20(e) through (g);
- (2) The surcharge set forth in §1.20(i)(1); and
- (3) A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

Renewed Petition:

With the instant renewed petition, petitioner has explained that the firm's attorneys were never notified that the check was not cashed due to the error of an employee, clerk assistant Melanie Allaire, contrary to the firm's established business practices. Petitioner has stated that Allaire was sufficiently trained and experienced with respect to her job duties.

It is true that a delay resulting from an error (e.g., a docketing error) on the part of an employee in the performance of a clerical function may provide the basis for a showing of "unavoidable" delay, provided it is shown that: (1) the error was the cause of the delay at issue; (2) there was in place a business routine for performing the clerical function that could reasonably be relied upon to avoid errors in its performance; and (3) the employee was sufficiently trained and experienced with regard to the function and routine for its performance that reliance upon such employee represented the due exercise of due care. See MPEP 711.03(c)(III)(C)(2).

In view thereof, it is concluded that petitioner has established that the entire delay in the late payment of the maintenance fee was unavoidable.

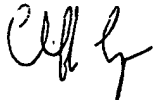

Conclusion:

The \$400 fee for filing the instant request for reconsideration has been charged to Deposit Account No. 13-2725, as authorized.

The instant patent is hereby reinstated as of the mail date of this decision.

Patentees are reminded that the window for paying the 11.5 year maintenance, with the required late surcharge, is currently open. The last day for payment of this maintenance fee and surcharge is November 17, 2011.

Telephone inquiries concerning this decision should be directed to the undersigned at (571)272-3207.

OFFICE OF PETITIONS

In re Patent No. 5,996,808
Issue Date: December 7, 1999 :
Application No. 08/834,540 : DECISION ON PETITION
Filed: March 4, 1997 :
Patentee: Levy, et al. :

This is a decision on the petition under 37 CFR 1.377, filed April 15, 2011, to accept and record a maintenance fee which was filed prior to the expiration of the patent.

The petition under 37 CFR 1.377 is GRANTED.

The above-identified patent issued December 7, 1999. Accordingly, the second maintenance fee could have been paid during the period from December 7, 2006 through June 7, 2007 without surcharge, or with a late payment surcharge during the period from June 8, 2007 through December 7, 2007. The patent expired on December 8, 2007.

Petitioner has submitted a copy of a USPTO date stamped, postcard receipt, showing that a maintenance fee transmittal form and a credit card payment form were received for Patent No. 5,996,808 on May 25, 2007. A USPTO date stamped, postcard receipt serves as prima facie evidence of receipt of all the correspondence itemized thereon. See MPEP 503. In addition, petitioner has submitted copies of his deposit account statements, showing that sufficient funds were present on that date.

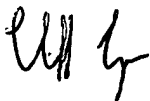

The maintenance fee in this case is accepted and the above identified patent is hereby reinstated as if never expired.

The maintenance fee of \$1,150 has been charged to Deposit Account No. 50-3391, as authorized.

Given the basis for granting this petition, the \$200 petition fee was not charged.

Issued: December 7, 1999	:	
Application No. 08/834,912	:	ON PETITION
Filed: April 7, 1997	:	
Attorney Docket No. FNI-02202/03	:	

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28 filed June 8, 2011.

On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989)**. Therefore, nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby **ACCEPTED**.

This patent is no longer entitled to small entity status. Accordingly, all future fees paid in this patent must be paid at the large entity rate.

Telephone inquiries concerning this decision should be directed to the undersigned at (571) 272-7751.

: REQUEST FOR INFORMATION
:
:
:

This is a request for information in response to the petition under 37 CFR 1.378(b), filed September 26, 2011, to reinstate the above-cited patent.

Petitioner is allowed a non-extendable period for reply of **TWO (2) MONTHS** from the mailing date of this communication to provide a response. The response should be titled, "Response to Request for Information." If no response is provided within the period set forth, a decision will be made solely on the merits as set forth in the petition under 37 CFR 1.378(b) filed September 26, 2011. No additional fees are due.

The patent issued October 6, 1998. The 11.5 year maintenance fee could have been paid from October 6, 2009, through April 6, 2010, or with a surcharge, as authorized by 37 CFR 1.20(h), during the period from April 7, 2010, to October 6, 2010. Petitioner did not do so. Accordingly, the patent expired at midnight on October 6, 2010.

Petitioner is required to address the following points:

- A successful petition under 37 CFR 1.378(b) must affirmatively identify the cause of the delay in paying the maintenance fee and provide a statement from every person with first-hand knowledge of the circumstances surrounding the delay in paying the maintenance fee. Petitioner must provide statements from any person who may have been charged with paying the maintenance fee and statements from any person with first-hand knowledge of the circumstances surrounding the failure to pay the maintenance fees. ***Petitioner is cautioned that failure to receive a maintenance fee reminder is not a cause for unavoidable delay in paying the maintenance fee.***
- 37 CFR 1.378(b)(3) sets forth that a petition submitted under this portion of the Code of Federal Regulations must include a showing which is described as follows:

A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the

maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

Petitioner must, therefore, describe the steps that were in place to ensure that the maintenance fee was timely paid. This showing would include an explanation of who was responsible for paying tracking and paying the maintenance fee and the method this person, or entity, used for tracking the maintenance fee

- Petitioner must describe when petitioner became aware that the patent was expired and the steps petitioner took to reinstate the patent.

It is noted that subject patent has been expired less than two years. The petition under 37 CFR 1.378(c) for unintentional delay is, therefore, available to petitioner in order to reinstate the patent. The petition under 37 CFR 1.378(c) is considerably less burdensome and, given the circumstance set forth in the petition for the delay in paying the maintenance fee, the petition under 37 CFR 1.378(c) is more likely to be considered grantable. Petitioner is cautioned that the petition under 37 CFR 1.378(c) must be filed within two years of the date of expiration of the patent, i.e., by October 6, 2012. After that date, petitioner will be statutorily barred from filing the petition under 37 CFR 1.378(c). The form for the petition under 37 CFR 1.378(c) is enclosed for petitioner's convenience. The petition under 37 CFR 1.378(c) must be accompanied by a surcharge of \$1,640.00. The surcharge of \$700.00 that accompanied the petition under 37 CFR 1.378(b) may be applied towards the satisfaction of the surcharge under 37 CFR 1.378(c). Thus, the petition under 37 CFR 1.378(c) need only be accompanied by \$940.00. The aforementioned is only to educate petitioner as to all petitioner's options and is not meant to direct petitioner in either course.

ON PETITION

This is a decision on the petition under 37 CFR 1.378(c), filed November 7, 2011 and November 11, 2011 to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this two-month time limit can be granted under 37 CFR 1.136(a) or (b). This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

Any petition for reconsideration of this decision must be accompanied by the petition fee of \$400 as set forth in 37 CFR 1.17(f). The petition for reconsideration must include the lacking item(s) noted above, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner.

A petition to accept the unintentionally delayed payment of a maintenance fee under 35 U.S.C. § 41(c) and 37 CFR 1.378(c) must be accompanied by: (1) a statement that the delay was unintentional; (2) payment of the appropriate maintenance fee, unless previously submitted; (3) payment of the surcharge set forth in 37 CFR 1.20(i)(2). This petition lacks item (1) above.

As to item (1) the statement of unintentional delay is presently not acceptable since the petition was not properly signed. The signature provided on the petition is not recognized by the U.S. Patent and Trademark Office, as a person of interest in this patent. ON PETITION

This is a decision on the renewed petition under 37 CFR 1.378(c), filed December 27, 2011, to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

The petition is **GRANTED**.

This patent expired on October 6, 2011, for failure to pay the eleven and one-half year maintenance fee. Since this petition was submitted within twenty-four months after the six-month grace period provided in 37 CFR 1.362(e), the petition was timely filed under the provisions of 37 CFR 1.378(c).

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand or direct knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that the delay in paying the maintenance fee under 37 CFR 1.378(c) was intentional, petitioner must notify the Office.

The maintenance fee is hereby accepted and the above-identified patent is reinstated as of the mail date of this decision.

Telephone inquiries concerning this decision should be directed to Kimberly Inabinet at (571) 272-4618.

Issue Date: 04/27/1999 :
Application Number: 08/840,548 : ON PETITION
Filing Date: 04/03/1997 :
Attorney Docket Number: 225557 :
:

This is a decision in response to the petition under 37 CFR 1.378(b),¹ filed on December 27, 2010, to accept the delayed payment of the maintenance fee for the above-identified patent.

The petition is dismissed.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this 2-month time limit can be granted under 37 CFR 1.136(a) or (b). Any such petition for reconsideration must be accompanied by the petition fee of \$400.00 as set forth in 37 CFR 1.17(f). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

¹ A grantable petition to accept a delayed maintenance fee payment under 37 CFR 1.378(b) must include

(1) the required maintenance fee set forth in § 1.20(e) through (g);
(2) the surcharge set forth in § 1.20(I)(1); and
(3) a showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

The patent issued on April 27, 1999. The first maintenance fee was timely paid. The second maintenance fee could have been paid during the period from April 27, 2006 through October 27, 2006, or, with a surcharge, during the period from October 28, 2006 through April 27, 2007. Accordingly, this patent expired at midnight on April 27, 2007, for failure to timely remit the maintenance fee.

Petitioner states that he relied upon his registered patent practitioner, W.D. Swayze, Jr. (hereinafter "Swayze"), to notify him of the due dates for the maintenance fees, but that Swayze failed to notify petitioner that the maintenance fee was due, and therefore the patent became expired for failure to timely pay the maintenance fee.

Petitioner further states that he received no notification from the USPTO that the patent had become expired.

A petition to accept the delayed maintenance fee under 35 U.S.C. § 41(c) and 37 CFR 1.378(b) must be accompanied by (1) an adequate, verified showing that the delay was unavoidable, since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent, (2) payment of the appropriate maintenance fee, unless previously submitted, and (3) payment of the surcharge set forth in 37 CFR 1.20(i)(1). This petition lacks requirement (1).

The Director may accept late payment of the maintenance fee if the delay is shown to the satisfaction of the Director to have been "unavoidable".²

The showing of record is inadequate to establish unavoidable delay within the meaning of 37 CFR 1.378(b)(3).

A late maintenance fee is considered under the same standard as that for reviving an abandoned application under 35 U.S.C. § 133 because 35 U.S.C. § 41(c)(1) uses identical language (i.e. "unavoidable delay").³ Decisions reviving abandoned applications

² 35 U.S.C. § 41(c)(1).

³ Ray v. Lehman, 55 F.3d 606, 608-09, 34 USPQ2d 1786, 1787 (Fed. Cir. 1995) (quoting In re Patent No. 4,409,763, 7 USPQ2d 1798, 1800 (Comm'r Pat. 1989)).

have adopted the reasonably prudent person standard in determining if the delay was unavoidable.⁴ In this regard:

The word 'unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present.⁵

As 35 U.S.C. § 41(c) requires the payment of fees at specified intervals to maintain a patent in force, rather than some response to a specific action by the Office under 35 U.S.C. § 133, a reasonably prudent person in the exercise of due care and diligence would have taken steps to ensure the timely payment of such maintenance fees.⁶ That is, an adequate showing that the delay was "unavoidable" within the meaning of 35 U.S.C. § 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken to ensure the timely payment of the maintenance fees for this patent.⁷

While petitioner alleged chose to rely upon his registered patent practitioner ("Swayze"), such reliance *per se* does not provide petitioner with a showing of unavoidable delay within the meaning

⁴ Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (Comm'r Pat. 1887) (the term "unavoidable" "is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used by prudent and careful men in relation to their most important business").

⁵ In re Mattullath, 38 App. D.C. 497, 514-15 (1912) (quoting Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (1887)); see also Winkler v. Ladd, 221 F. Supp. 550, 552, 138 USPQ 666, 167-68 (D.D.C. 1963), aff'd, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913). In addition, decisions on revival are made on a "case-by-case basis, taking all the facts and circumstances into account." Smith v. Mossinghoff, 671 F.2d 533, 538, 213 USPQ 977, 982 (D.C. Cir. 1982). Finally, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

of 37 CFR 1.378(b) and 35 U.S.C. § 41(c).⁸ Rather, such reliance merely shifts the focus of the inquiry from petitioner to whether the attorney or agent acted reasonably and prudently.⁹ As such, assuming that the attorney or agent had been so engaged, then it is incumbent upon petitioner to demonstrate, via a documented showing, that the attorney or agent had docketed this patent for the second maintenance fee payment in a reliable tracking system.¹⁰ If petitioner cannot establish that the attorney or agent had been so engaged, then petitioner will have to demonstrate what steps were established by petitioner to monitor and pay the maintenance fee.

Therefore, any showing of unavoidable delay must include a statement from petitioner's patent attorney, as well as any other attorney(s) of record during the period that payment of the maintenance fee was delayed, as to why action was not taken to timely submit the required maintenance fee while the patent was under that agent's control. Petitioner should send a letter (accompanied by a copy of this decision) to Swayze by registered or certified mail, return receipt requested, indicating to the agent that the USPTO is requesting his assistance in determining the circumstances surrounding the expiration of this patent, and is specifically requesting Swayze to provide a statement as to: (1) whether, and when, he first became aware that the first maintenance fee for this patent was due, and (2) why the maintenance fee was not timely submitted. Such statements should be accompanied by copies of any documents relevant to payment of the maintenance fee. In the event that Swayze fails to provide a statement within a person (e.g., within one (1) month) specified in such letter, petitioner should submit a copy of such letter and the return receipt indicating its delivery to the patent attorney or agent with any petition for reconsideration under 37 CFR 1.378(e).

The above paragraph notwithstanding, petitioner is reminded that the failure of communication between an applicant and counsel is not unavoidable delay.¹¹ Specifically, delay resulting from a lack of proper communication between a patent holder and a registered representative as to who bore the responsibility for payment of a maintenance fee does not constitute unavoidable delay within the meaning of 35 U.S.C. § 41(c) and 37 CFR

⁸ See California Med. Prod. v. Technol. Med. Prod., 921 F. Supp. 1219, 1259 (D. Del. 1995).

1.378(b).¹² Moreover, the Office is not the proper forum for resolving a dispute as to the effectiveness of communications between parties regarding the responsibility for paying a maintenance fee.¹³

A delay resulting from a lack of knowledge or improper application of the patent statute, rules of practice, or the MPEP does not constitute an "unavoidable" delay.¹⁴ As the showing of record does not rise to the level of unavoidable delay, the petition will be dismissed.

Further, petitioner's contention that he did not receive any notification from the USPTO that the maintenance fee was due is not well taken. A patentee's lack of knowledge of the need to pay the maintenance fee and the failure to receive the Maintenance Fee Reminder do not constitute unavoidable delay.¹⁵ Under the statute and regulations, the Office has no duty to notify patentees of the requirement to pay maintenance fees or to notify patentees when the maintenance fees are due. The Office mailing of Maintenance Fee Reminders is carried out strictly as a courtesy. Accordingly, it is solely the responsibility of the patentee to assure that the maintenance fee is timely paid to prevent expiration of the patent. The lack of knowledge of the requirement to pay a maintenance fee and/or the failure to receive the Maintenance Fee Reminder will not shift the burden of monitoring the time for paying a maintenance fee from the patentee to the Office.¹⁶

Petitioner should note that if this petition is not renewed, or if renewed and not granted, then the maintenance fee and post-expiration surcharge are refundable. The \$400.00 petition fee for seeking reconsideration is not refundable. Any request for refund should be in writing to the address noted below.

OFFICE OF PETITIONS

In re Patent No. 5,820,407	:	
Issue Date: 10/13/1998	:	DECISION
Application Number: 08/844,879	:	DISMISSING PETITION
Filing Date: 04/22/1997	:	
Attorney Docket Number:	:	
11741.01	:	

This is a decision on the paper filed on December 14, 2010, styled as a petition under 37 CFR 1.378(b).

The petition is dismissed.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this 2-month time limit can be granted under 37 CFR 1.136(a) or (b). Any such petition for reconsideration must be accompanied by the petition fee of \$400.00 as set forth in 37 CFR 1.17(f).

The patent issued on October 13, 1998. The first and second maintenance fees were timely paid. The third maintenance fee could have been paid during the period from October 13, 2009 through April 13, 2010, or, with a surcharge, during the period from April 14, through October 13, 2010. The patent expired at midnight on October 13, 2010, for failure to timely pay the third maintenance fee.

At the outset, the petition form is not properly signed. 37 CFR 1.378(d) states that any petition under this section must be signed by an attorney or agent registered to practice before the Patent and Trademark Office, or by the patentee, the assignee, or other party in interest.

The petition has been signed by only one of the two joint inventors, and therefore has not been signed on behalf of the owners of the entire interest. If the petition is being signed on behalf of an assignee, the Statement Under 37 CFR 3.73(b) must be completed and returned, with any renewed petition. A copy of this form is enclosed for petitioners' reference.

Inventor David Morse states in pertinent part:

On Oct. 4, 2010 I gave exclusive license to Medici Portfolio and part of the contract provided that Medici was going to pay the maintenance due on October 13, 2010. Recently I was advised by my patent attorney Richard Litman, that the U.S.P.T.O. sent a notice that the fees had not been paid.

In support, petitioner has provided a copy of a licensing agreement stating, in part, that the "Licensee agrees that it alone shall bear the costs of any legal fees or costs associated with such proceedings, as well as any domestic and/or foreign maintenance fees."

A petition to accept the delayed payment of a maintenance fee under 35 USC 41(c) and 37 CFR 1.378(b) must be accompanied by (1) an adequate, verified showing that the delay was unavoidable, since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent, (2) payment of the appropriate maintenance fee, unless previously submitted, and (3) payment of the surcharge set forth in 37 CFR 1.20(i)(1). The petition lacks the showing required by item (1) above.

The Director may accept late payment of the maintenance fee if the delay is shown to the satisfaction of the Director to have been "unavoidable".¹ A patent owner's failure to pay a maintenance fee may be considered to have been "unavoidable" if the patent owner "exercised the due care of a reasonably prudent person."² This determination is to be made on a "case-by-case basis, taking all the facts and circumstances into account."³ Unavoidable delay under 35 U.S.C. § 41(b) is measured by the same standard as that for reviving an abandoned application under 35

¹ 35 U.S.C. § 41(c)(1).

² Ray v. Lehman, 55 F.3d 606, 608-09 (Fed.Cir.), cert. denied, -- U.S. ---, 116 S.Ct. 304, L.Ed.2d 209 (1995).

³ Smith v. Mossinghoff, 671 F.2d 533, 538, 213 USPQ 977, 982 (D.C. Cir. 1982).

U.S.C. § 133.⁴ Under 35 U.S.C. § 133, the Director may revive an abandoned application if the delay in responding to the relevant outstanding Office requirement is shown to the satisfaction of the Director to have been "unavoidable". Decisions on reviving abandoned applications have adopted the reasonably prudent person standard in determining if the delay was unavoidable.⁵ However, a petition to revive an application as unavoidably abandoned cannot be granted where a petitioner has failed to meet his or her burden of establishing the cause of the unavoidable delay.⁶ In view of In re Patent No. 4,409,763,⁷ this same standard will be applied to determine whether "unavoidable" delay within the meaning of 37 CFR 1.378(b) occurred.

35 U.S.C. § 41(c)(1) does not require an affirmative finding that the delay was avoidable, but only an explanation as to why the petitioner has failed to carry his or her burden to establish that the delay was unavoidable.⁸ 35 U.S.C. § 133 does not require the Director to affirmatively find that the delay was avoidable, but only to explain why the applicant's petition was unavailing). Petitioner is reminded that it is the patentee's burden under the statutes and regulations to make a showing to the satisfaction of the Director that the delay in payment of a maintenance fee is unavoidable.⁹

As 35 USC § 41(b) requires the payment of fees at specified intervals to maintain a patent in force, rather than some response to a specific action by the Office under 35 USC § 133, a reasonably prudent person in the exercise of due care and diligence would have taken steps to ensure the timely payment of such maintenance fees.¹⁰ That is, an adequate showing that the delay in payment of the maintenance fee at issue was

"unavoidable" within the meaning of 35 U.S.C. § 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken by the responsible party to ensure the timely payment of the second maintenance fee for this patent.¹¹

At the outset, reliance upon third party prosecution of a patented file without an express contractual obligation does not constitute unavoidable delay within the meaning of 35 U.S.C. § 133.¹² Assuming, *arguendo*, such a contract does exist, petitioner is further required to show what steps were taken by petitioner to inquire as to the third party's reasonably diligent efforts to timely pay the maintenance fees.¹³ If petitioner cannot provide evidence that a third party was contractually obligated to pay the maintenance fees for the present patent and that petitioner had maintained inquiry with that third party as to the steps taken to timely pay the maintenance fee, then petitioner must indicate what steps were taken by the petitioner to ensure timely payment of the maintenance fee.

As noted above, petitioner has provided a copy of the licensing agreement showing the obligation of the licensee to pay the maintenance fee. However, petitioner is further required to show what steps were taken by petitioner to inquire as to the third party's reasonably diligent efforts to timely pay the maintenance fees. As such, petitioner must attempt to obtain a statement from the license stating what efforts were taken to timely pay the maintenance fee, and why the delay in payment of the maintenance fee is unavoidable. Affidavits or declarations of facts from all persons with first-hand knowledge regarding the failure to timely pay the maintenance fee must be provided with any renewed petition.

Any renewed petition must be accompanied by evidence supporting a conclusion that the failure to timely pay the maintenance fee was unavoidable. As a sufficient showing has not been provided, the petition is dismissed.

Petitioners are cautioned to avoid submitting personal information in a patent application that may contribute to identity theft. If personal information such as social security numbers, bank account numbers, or credit card numbers are included in documents submitted to the USPTO (other than a check or credit card authorization form PTO-2038 submitted for payment

¹³ See *Winkler v. Ladd*, 138 USPQ 666 (Comm'r Pat. 1963).

purposes), petitioners should consider redacting such personal information from the documents before submitting them to the USPTO. This type of personal information is never required by the USPTO to support a petition or an application. Petitioner is advised that any information submitted in an application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, information from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

Petitioners should note that if this petition is not renewed, or if renewed and not granted, then the maintenance fee and post-expiration surcharge are refundable. The \$400.00 petition fee for seeking reconsideration is not refundable. Any request for refund should be in writing to the address noted below.

ALTERNATIVE VENUE

Petitioners may wish, in the alternative, to request reconsideration in the form of a petition under 37 CFR 1.378(c), requesting that the unintentionally delayed payment of a maintenance fee be accepted. A petition to accept the delayed payment of a maintenance fee under 35 U.S.C. 41(c) and 37 CFR 1.378(c) must be filed within twenty four months from the end of the six month grace period (e.g., the expiration date of the patent and be accompanied by (1) a verified statement that the delay was unintentional, (2) payment of the appropriate maintenance fee, unless previously submitted, (3) payment of the \$1,640.00 surcharge (the \$700.00 surcharge already paid may be credited thereto leaving a balance due of \$940.00) set forth in 37 CFR 1.20(i)(2). The statement can be verified by using the attached petition form which includes a declaration according to 37 CFR 1.68.

The filing of a petition under the unintentional standard cannot be intentionally delayed and therefore should be filed promptly. A person seeking revival due to unintentional delay can not make a statement that the delay was unintentional unless the entire delay, including the delay from the date it was discovered that the patent was expired until the filing of the petition to reinstate under 37 CFR 1.378(c), was unintentional. A statement that the delay was unintentional is not appropriate if petitioner

intentionally delayed the filing of a petition for revival under 37 CFR 1.378(c).

37 CFR 1.378(d) states that any petition under this section must be signed by an attorney or agent registered to practice before the U.S. Patent and Trademark Office, or by the patentee, the assignee, or other party in interest.

Petitioner should complete the attached Statement Under 37 CFR 3.73(b) and return it with a properly signed petition under 37 CFR 1.378(c).

The address in the petition is different than the correspondence address. A courtesy copy of this decision will be mailed to the address in the petition. All future correspondence, however, will be mailed solely to the address of record. A change of correspondence address should be filed if the correspondence address needs to be updated.

ON PETITION

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28 filed February 3, 2011.

On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. **See DH Technology v. Synergystex International, Inc. 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).**

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. **1098 Off. Gaz. Pat. Office 502 (January 3, 1989).** Therefore, nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby **ACCEPTED**.

This patent is no longer entitled to small entity status. Accordingly, all future fees paid in this patent must be paid at the large entity rate.

The request is **DISMISSED**.

Applicants request a refund of \$1,330.00 charged to applicant's deposit account with mail date of November 1, 2010.

However, a review of Office records indicates that a request for a fee deficiency under 37 CFR 1.28(c) was submitted on November 1, 2010, to accept the fee deficiency payment for the second maintenance fee (\$1,150.00 maintenance fee paid on November 9, 2006, deficiency payment \$1,330.00 to total the current fee of \$2,480.00). The large entity portion of the third maintenance fee (\$2,055.00) was also applied with mail date of November 1, 2010, to total \$4,110.00 for the third maintenance fee payment.

In view of the above, the request for refund is dismissed.

Any questions concerning this matter may be directed to the undersigned at (571) 272-3208.

State the reasons for denial below.

Comments: The request to insert "or n-C₅H₁₁" into the definition of R1 does not change the scope of claim 2, and thus, is not new matter. The request is for claim 4, which depends from claim 3, and ultimately claim 2. Claim 3 does not state "or n-C₅H₁₁," which would then cause a lack of antecedent basis for claim 4. Furthermore, R1 is currently partially defined as "CH₃CH=C(CH₃)CO" not "CH₃CH=C(CH₃) as noted in the COC.

ON PETITION

This is a decision on the petition under 37 CFR 1.378(c), filed August 19, 2011, to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

The petition is **GRANTED**.

This patent expired on August 11, 2011 for failure to pay the eleven and one-half year maintenance fee. Since this petition was submitted within twenty-four months after the six-month grace period provided in 37 CFR 1.362(e), the petition was timely filed under the provisions of 37 CFR 1.378(c).

The maintenance fee is hereby accepted and the above-identified patent is reinstated as of the mail date of this decision.

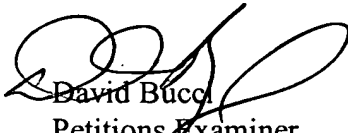

It is not apparent whether the person signing the statement of unintentional delay was in a position to have firsthand knowledge of the facts and circumstances of the delay at issue. Nevertheless, such statement is being treated as having been made as the result of a reasonable inquiry into the facts and circumstances of such delay. See 37 CFR 10.18(b) and Changes to Patent Practice and Procedure; Final rule Notice, 62 Fed. Reg. 53131, 53178 (October 10, 1997), 1203 Off. Gaz. Pat. Office 63, 103 (October 21, 1997). In the event that such an inquiry has not been made, petitioner must make such an inquiry. If such inquiry results in the discovery that it is not correct that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant of 37 CFR 1.137(b) was unintentional, petitioner must notify the Office.

Patent No. 5,934,735

The file does not indicate a change of address has been submitted, although the address given on the petition differs from the address of record. If appropriate, a change of address should be filed in accordance with MPP 601.03. A courtesy copy of this decision is being mailed to the address given on the petition; however, the office will mail all future correspondence solely to the address of record.

Telephone inquiries concerning this decision should be directed to Wilson Lee at (571) 272-1824 or in his absence, the undersigned at (571) 272-7099.

The patent file is being forwarded to Files Repository.

OFFICE OF PETITIONS

ON PETITION

This is a decision on the petition under 37 CFR 1.378(c), filed September 9, 2010, to accept the delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

A petition to accept the unintentionally delayed payment of a maintenance fee under 35 U.S.C. 41(c) and 37 CFR 1.378(c) must be accompanied by: (1) a statement that the delay was unintentional; (2) payment of the appropriate maintenance fee, unless previously submitted; (3) payment of the surcharge set forth in 37 CFR 1.20(i)(2). This petition lacks item (3) above.

With regards to item (3), the total fees required to reinstate this patent on September 9, 2010, is \$2,055 for the 11 ½ year maintenance fee and \$1,640 for the petition surcharge. Therefore, the fees in the amount of \$2865 are deficient by \$830.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this two-month time limit can be granted under 37 CFR 1.136(a) or (b). This is not a final agency action within the meaning of 5 U.S.C. § 704.

Any petition for reconsideration of this decision must be accompanied by the petition fee of \$400 as set forth in 37 CFR 1.17(f). The petition for reconsideration must include the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Director.

If petitioner does not wish to pursue reinstatement of this expired patent, petitioner may request a refund of the \$2865 fee submitted with the petition. The request should be made in writing and addressed to: Mail Stop 16, Director of the U.S. Patent and Trademark Office, P. O. Box 1450, Alexandria, VA 22313-1450. Title: SILO STRUCTURE OF VEHICLE

ON PETITION

This is a decision on the petition under 37 CFR 1.378(c), filed April 4, 2011, to accept the delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

A petition under 37 CFR 1.378(c) must be filed within twenty-four months after the six month grace period specified in 35 USC 41(b). The patent issued on April 10, 2001. The six month grace period for the instant patent expired at midnight on April 10, 2005. Accordingly, an unintentional petition to reinstate the instant patent must have been submitted no later than April 10, 2007. Since the original petition was filed on April 4, 2011, it was not timely filed and the instant patent will not be reinstated under the unintentional provisions of 37 CFR 1.378(c).

Patentee may wish to pursue reinstatement of the patent under the unavoidable provisions of 37 CFR 1.378(b). A petition to accept the delayed payment of a maintenance fee under 35 USC 41(c) and 37 CFR 1.378(b) must be accompanied by (1) an adequate, verified showing that the delay was unavoidable, since reasonable care was taken to insure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent, (2) payment of the appropriate maintenance fee, unless previously submitted, and (3) payment of the surcharge set forth in 37 CFR 1.20(i)(1).

A blank petition under 37 CFR 1.378(b) form is enclosed for petitioner's convenience. As stated above, to show that the delay in paying the missing maintenance fees was unavoidable, the required showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly. Furthermore, an adequate showing requires a statement by all persons with direct knowledge of the cause of the delay, setting forth the facts as they know them. Copies of all documentary evidence referred to in a statement should be furnished as exhibits to the statement.

As stated in item (3) above, a surcharge of \$700.00 is required for a petition under 37 CFR 1.378(b). Petitioner has already submitted \$750.00 with the instant petition. Should petitioner wish to file a petition under 37 CFR 1.378(b), no further surcharge needs to be submitted.

Petitioner should note that if this petition is not renewed, or if renewed and not granted, then the maintenance fees and post expiration surcharge are refundable. Petitioner may request a refund of the fees submitted on April 4, 2011. Please send all requests for refunds to the following address:

OFFICE OF PETITIONS

ON PETITION

This is a decision on the petition filed October 11, 2011, under 37 CFR 1.378(b), to accept the delayed payment of the maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this 2-month time limit can be granted under 37 CFR 1.136(a) or (b). Any such petition for reconsideration must be accompanied by the petition fee of \$400.00 as set forth in 37 CFR 1.17(h). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner.

The patent issued on May 2, 2000. The second maintenance fee due could have been paid during the period from May 2, 2007 to November 2, 2007 or, with a surcharge during the period from November 3, 2007 to May 2, 2008. Accordingly, this patent expired on May 2, 2008, for failure to timely remit the second maintenance fee.

A petition to accept the delayed maintenance fee under 35 U.S.C. § 41(c) and 37 CFR 1.378(b) must be accompanied by (1) an adequate, verified showing that the delay was unavoidable, since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent, (2) payment of the appropriate maintenance fee, unless previously submitted, and (3) payment of the surcharge set forth in 37 CFR 1.20(l)(1).

This petition lacks item (1) above.

The statement of unavoidable delay is provided by Kimberly Dunn and Ryan Schneider,

who affirm that "at all times relevant to this Petition, Kimberly Dunn ("Dunn") was the Patents Administrator of the Patentee. At all times relevant to this Petition, Ryan Schneider was Patentee's agent on numerous patent filings, both in the US and abroad, and is personally aware of Patentee's steps taken to ensure the timely payment of the maintenance fees for all of its patent assets." Both Ms. Dunn and Mr. Schneider argue that despite reasonable care on behalf of the Patentee and/or the Patentee's agents, and reasonable steps to ensure timely payment, the maintenance fee was unavoidably not paid.

By way of background, as it relates to the instant patent, petitioner argues specifically that;

GTRC is the assignee of US Patent No. 6,056,204, that GTRC entered into a license agreement ("License") with Innovative Fluidics, now known as Nuventix, Inc. ("Nuventix") in May, 2005, that pursuant to Section 11 of the License, GTRC agreed to file, prosecute and maintain select applications and issued patents within the patent portfolio licensed to Nuventix. This included the filing, prosecution, and maintenance of US Patent No 6,056,204. The License stipulates that GTRC shall be responsible for the external fees, costs and expenses in prosecuting and maintaining the Licensed Patents. Section 11.2 of the License stipulates Nuventix would reimburse GTRC for all fees, costs and expenses incurred by GTRC in prosecuting and maintaining other Intellectual Property, through Computer Packages Inc. ("CPI").

Although monitoring was handled by Kimberly Dunn ("Dunn"), the Patents Administrator of the Patentee, thru Computer Packages Inc. (CPI), the fee addressee for the Licensed Patents was listed as TKHR, and they continued to receive the Notices from the USPTO regarding maintenance fee payment confirmations and reminders, upon which TKHR forwarded to Dunn for GTRC's records. GTRC uses CPI's electronic system for the payment of maintenance fees, and does not keep paper copies.

In January, 2006, Nuventix requested permission from GTRC that they be able to retain their own patent counsel, Fortkort & Houston, PC ("F&H") to manage the Licensed Patents. A letter of transfer from TKHR to F&H dated 20 January 2006, and a subsequent letter 10 March 2006 confirms the transfer.

After the counsel change of 2006, Dunn continued to monitor the Licensed Patents via CPI, as stipulated in the License.

During the November/December 2007 timeframe a phone call between

Dunn and Ms. Reina Barfield, a paralegal at F&H, was held in which Ms. Barfield instructed that on behalf of Nuventix's request, F&H would from then on manage the maintenance of the Intellectual Property of the License. This request was agreed upon by Dunn, although the License did not grant Nuventix the right to select its own counsel to prosecute and maintain the Intellectual Property of the License.

CPI requests instruction from their clients on a quarterly basis for renewals and maintenance. As a maintenance payment came due for each respective issued patents of the Licensed Patents, including US Patent No. 7,252,140, Dunn indicated "Not This Annuity" on 30 October 2010 under the continued assumption that F&H took over management of the portfolio. F&H made the maintenance fee payment for US Patent No. 7,252,140 in January, 2011, confirming Dunn's understanding that F&H was maintaining the Licensed Patents.

In April, 2011, Dunn received an email from TKHR attaching a Maintenance Fee Reminder indicating US Patent No. 6,588,497 had not been paid within the six month grace period. Dunn phoned Ms. Barfield at F&H on 6 April 2011 inquiring as to whether Nuventix intentionally failed to inform F&H to pay the maintenance fee due for US Patent No. 6,588,497. Ms. Barfield indicated that she did not have a record of US Patent No. 6,588,497 on her docket. After many e-mails, F&H and Dunn recognized that F&H did not have the License Patents in a docket for their client, Nuventix, and, as a result, maintenance of the License Patents was not with GTRC or F&H. When Ms. Barfield indicated to Dunn that F&H would maintain the Licensed Patents, it became evident that their docket consisted of applications and patents exclusive of several licensed patent assets.

Nuventix relied on the terms in the License that GTRC would maintain the Licensed Patents, although Dunn and GTRC reasonably relied upon the amendment to those terms from the November/December 2007 phone call between F&H and GTRC, which Dunn and GTRC further confirmed with the payment of the maintenance fee for US Patent No. 7,252,140 by F&H. While permission to transfer the Licensed Patents from TKHR to Nuventix's choosing F&H was not expressly granted in the License, GTRC was agreeable to Nuventix's request.

The USPTO shows that a Maintenance Fee Reminder for US Patent No. 6,056,204 was mailed 12 November 2007. TKHR does not have record of it being received, or a record of it being mailed to GTRC.

On 25 April 2011 Kevin Wozniak, now interim executive director for Innovation and Translational Research, International Contracts and Technology Transfer, and Industry Relations, (collectively “(IC)³”),¹ received an email from the CEO of Nuventix notifying they were aware of the lapse of US Patent No. 6,056,204. Nuventix had two specific requests in that email. That (i) GTRC immediately make petition to revive US Patent No. 6,247,525, which was within the two year grace period, and (ii) GTRC cede responsibility of future maintenance of the Licensed Patents. Both actions were addressed as immediate as possible, and the resolution positive. Unfortunately, the status of US Patent No. 6,056,204 was not addressed, as neither Nuventix nor GTRC believed it was their responsibility to maintain.

The basis of petitioners argument is that the delay was unavoidable because of a miscommunication between the patentee, the licensee and counsel for the licensee as to who would maintain the instant patent and as a result, the maintenance fee was not paid.

The Commissioner may accept late payment of the maintenance fee if the delay is shown to the satisfaction of the Commissioner to have been “unavoidable”.² A late maintenance fee is considered under the same standard as that for reviving an abandoned application under 35 U.S.C. § 133 because 35 U.S.C. § 41(c)(1) uses identical language (i.e. “unavoidable delay”).³ Decisions reviving abandoned applications have adopted the reasonably prudent person standard in determining if the delay was unavoidable.⁴ In this regard:

³Ray v. Lehman, 55 F.3d 606, 608-09, 34 USPQ2d 1786, 1787 (Fed. Cir. 1995) (quoting In re Patent No. 4,409,763, 7 USPQ2d 1798, 1800 (Comm'r Pat. 1989)).

⁴Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (Comm'r Pat. 1887)(the term “unavoidable” “is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used by prudent and careful men in relation to their most important business”).

The word 'unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities, there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present.⁵

As 35 U.S.C. § 41(c) requires the payment of fees at specified intervals to maintain a patent in force, rather than some response to a specific action by the Office under 35 U.S.C. § 133, a reasonably prudent person in the exercise of due care and diligence would have taken steps to ensure the timely payment of such maintenance fees.⁶ That is, an adequate showing that the delay was "unavoidable" within the meaning of 35 U.S.C. § 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken to ensure the timely payment of the maintenance fees for this patent.⁷

The petition includes a copy of portions of the license agreement (Agreement) between GTRC and Innovative Fluidics, now known as Nuventix, Inc. ("Nuventix"), to show the responsibilities of both the assignee and the licensee as it relates to the payment of maintenance fees. The petition also includes copies of emails between Dunn and Reina Barfield which confirm that the licensee requested that they would be responsible for payment of the maintenance fees and Dunn's reliance therefore on the licensee to ensure timely payment of the maintenance fee.

The showing of record therefore has been considered, but from the evidence presented it appears that while the assignee relied on the licensee to maintain the subject patents that formed the basis of the license agreement, the licensee never docketed the instant patent and thus the payment of the maintenance fee was missed.

Supp. 550, 552, 138 USPQ 666, 167-68 (D.D.C. 1963), aff'd, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913). Finally, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

⁶ Ray, 55 F.3d at 609, 34 USPQ2d at 1788.

⁷ Id.

The record fails to disclose however, that the licensee took reasonable steps to ensure timely payment of the maintenance fee when it was due. In fact, the record indicates that no steps were taken by the party responsible for paying the maintenance fee to ensure timely payment of the maintenance fee when it was due. Rather the record indicates that the party responsible for paying the maintenance fee (Nuventix) when it was due may have never properly communicated with F&H that the instant patent was in their portfolio and the thus the patent lapsed because F&H was not aware that the maintenance fee was due.

There is a distinct difference between an unavoidable delay which, had there been reasonable care exercised, could not have been prevented and one that was inadvertent or the result of a mistake.

It is not clear from the evidence presented how the error occurred on the part of Nuventix and why if Dunn was monitoring the GRTC patents, she was not aware that the maintenance fee had not been paid at the time the fee was due.

Notwithstanding the license agreements, at the time this patent became expired, it was the assignees that this office recognized as holding the rights, title and interest in this patent and only the assignee's conduct is relevant to the question of the payment of maintenance fees and the expiration of the patent.

The Office's position, with respect to this circumstance, is set forth in the MPEP, as follows:

The question under 37 CFR 1.137 is whether the delay on the part of the party having the right or authority to reply to avoid abandonment (or not reply) was unavoidable or unintentional. When the applicant assigns the entire right, title, and interest in an invention to a third party (and thus does not retain any legal or equitable interest in the invention), the applicant's delay is irrelevant in evaluating whether the delay was unavoidable or even unintentional. See *Kim v. Quigg*, 718 F. Supp. 1280, 1284, 12 USPQ2d 1604, 1607-08 (E.D. Va. 1989). When an applicant assigns the application to a third party (e.g., the inventor/applicant's employer), and the third party decides not to file a reply to avoid abandonment, the applicant's actions, inactions or intentions are irrelevant under 37 CFR 1,137, unless the third party has reassigned the application to the applicant prior to the due date for the reply. *Id.*

Likewise, where the applicant permits a third party (whether a partial assignee, licensee, or other party) to control the prosecution of an application, the third party's decision whether or not to file a reply to avoid abandonment is binding on the applicant. See *Winkler*, 221 F. Supp. at 552, 138 USPQ at 667. Where an applicant enters an agreement with a third party for the third party to take control of the prosecution of an application, the applicant will be considered to have given the third party the right and authority to prosecute the application to avoid abandonment (or not prosecute), unless, by the express terms of the contract between applicant and the third party, the third party is conducting the prosecution of the application for the applicant solely in a fiduciary capacity. See *Futures Technology Ltd. v. Quigg*

684 F. Supp. 430, 431, 7 USPQ2d 1588, 1589 (E.D. Va. 1988). Otherwise, the applicant will be considered to have given the third party unbridled discretion to prosecute (or not prosecute) the application to avoid abandonment, and will be bound by the actions or inactions of such third party.

In view thereof, petitioner is reminded that in the absence of an adequate showing of the diligence of any licensee throughout the period in question, the actions or inactions of such third parties will remain imputed to the assignees.⁸

It is incumbent upon the petitioner to demonstrate, via a documented showing, that the entire delay was unavoidable which would include from the time the maintenance fee was due until the time petitioners became aware that the maintenance fee had not been paid, as well as from that point until the filing of the instant petition.

Any showing of unavoidable delay must include a statement from the principals responsible for payment of the maintenance fees as to the steps taken by the licensee to ensure that the payment of the maintenance fee for the instant patent was not docketed and why action was not taken to timely submit the required maintenance fee while the patent was under their control.

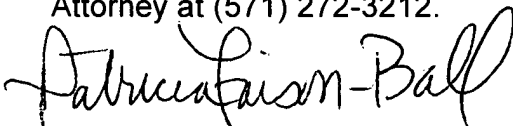

Thus, 37 CFR 1.378(b) precludes acceptance of the delayed payment of the maintenance fee and reinstatement of the patent.

The petition to correct the patent term adjustment is **DISMISSED**.

On June 21, 2011, the above application issued into US Patent No. 7,966,222 with a patent term adjustment of two thousand two hundred eight-eight (2288) days. The Office calculated a patent term adjustment of 2288 days based upon 317 days of "A" delay (under 37 CFR 1.703(a)(4)), plus 0 days of "B" delay, plus 2779 days (1116+781+882) of "C" delay, minus 317 days of overlap between "A" and "C" delay, and minus 491 days of Applicant delay.

Patentees' calculation of patent term adjustment does not take into account the fact that the period consumed by appellate review, whether successful or not, is excluded from the calculation of "B" delay. See 35 U.S.C. 154(b)(1)(B)(ii). An appeal to the Board of Patent Appeals and Interferences commences with filing of a notice of appeal. See 35 U.S.C. 134(a). Generally, an appeal to the Board of Patent Appeals and Interferences ends with either (1) a Board decision, (2) the examiner reopening prosecution and issuing another Office action, or (3) the applicant filing a request to withdraw the appeal and reopen prosecution (e.g. the filing of a request for continued examination).

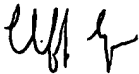

Here the period consumed by appellate review for the first notice of appeal is 1116 days, beginning on July 10, 2001, the date of filing of the notice of appeal, and ending on July 30, 2004, the date the Office mailed a Board decision. The period consumed by appellate review for the second notice of appeal is 781 days, beginning on December 12, 2005, the date of filing of the notice of appeal, and ending on January 31, 2008, the date the Office mailed a Board decision. Finally, the period consumed by appellate review for the third notice of appeal is 882 days, beginning on August 22, 2008, the date of filing of the notice of appeal, and ending on January 20, 2011, the date the Office mailed a Board decision. Thus, "B" delay is 0 (2667 - 1116 - 781 - 882) days.

In view thereof, the correct number of days of patent term adjustment is two thousand two hundred eighty-eight (2288) days (3096 days of PTO delay (317 days of "A" delay, 0 days of "B" delay, and 2779 days of "C" delay), reduced by 317 days of overlap between "A" and "C" delay and 491 (430+61) days of Applicant delay).

It is noted that the Office issued a Notice of proposed rulemaking entitled *Revision of Patent Term Extension and Adjustment Provisions Relating to Appellate Review and Information Disclosure Statements*, 76 FR 18990 (April 6, 2011). To the extent that the final rule on *Revision of Patent Term Extension and Adjustment Provisions Relating to Appellate Review* revises the interpretation of appellate review applied in this decision, Patentees are given **one (1) month or thirty (30) days**, whichever is longer, from the date of the final rule to file a request for reconsideration. No extensions of time will be granted under § 1.136.

Nothing in this decision shall be construed as a waiver of the requirement of 35 U.S.C. 154(b)(4) that any civil action by an applicant dissatisfied with a determination made by the Director under 35 U.S.C. 154(b)(3) be filed in the United States District Court for the District of Columbia within 180 days after the grant of the patent.

ON PETITION

This is a decision on the petition under 37 CFR 1.378(c), filed September 29, 2011, to accept the unintentionally delayed payment of a maintenance fee for the above-identified patent.

The petition is **GRANTED**.

ON PETITION

This is a decision on the petition under 37 CFR 1.378(c), filed on August 15 2011, to accept the delayed payment of a maintenance fee for the above-identified patent.

The petition is **dismissed**.

A petition to accept the unintentionally delayed payment of a maintenance fee under 35 U.S.C. § 41(c) and 37 CFR 1.378(c) must be accompanied by: (1) a statement that the delay was unintentional; (2) payment of the appropriate maintenance fee, unless previously submitted; (3) payment of the surcharge set forth in 37 CFR 1.20(i)(2).

The petition lacks item (1) above. In this regard, the petition must be signed by an attorney or agent registered to practice before the Patent and Trademark Office, or by the patentee, the assignee, or other party in interest.

In this case, the statement of unintentional delay is signed by Jeffrey Vaske, who has not made his presence known in the above-identified patent. Therefore, the present petition is considered not to contain a proper statement of unintentional delay; and thus, cannot be granted at this time.

If the petition filed on August 15, 2011, is filed/signed on behalf the assignee, it fails to comply with the below requirements of 37 CFR 3.73(b).

37 CFR 3.73(b) provides that: (1) when an assignee seeks to take action in a matter before the Office, the assignee must establish its ownership of the property to the satisfaction of the Commissioner; (2) ownership is established by submitting to the Office, in the Office file related to the matter in which action is sought to be taken, documentary evidence of a chain

of title from the original owner to the assignee (e.g., copy of an executed assignment submitted for recording) or by specifying (e.g., reel and frame number) where such evidence is recorded in the Office; (3) the submission establishing ownership must be signed by a party authorized to act on behalf of the assignee; and (4) documents submitted to establish ownership may be required to be recorded as a condition to permitting the assignee to take action in a matter pending before the Office. A blank Statement under 37 CFR 3.73(b) is enclosed for petitioner's convenience.

Further, it is noted that the file does not indicate a change of address has been submitted, although the address given on the petition differs from the address of record. If appropriate, a change of correspondence address should be filed. However, Petitioner should note that a change of correspondence address will not affect the fee address. Therefore, if petitioner desires to receive future correspondence regarding maintenance fees for the above patent, a "Fee Address Indication" and/or "Request for Customer Number" forms must be submitted. See attached USPTO forms PTO/SB/47 and PTO/SB/125.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within **TWO (2) MONTHS** from the mail date of this decision. No extension of this two-month time limit can be granted under 37 CFR 1.136(a) or (b). This is **not** a final agency action within the meaning of 5 U.S.C. § 704.

Any petition for reconsideration of this decision must be accompanied by the petition fee of \$400 as set forth in 37 CFR 1.17(f). The petition for reconsideration must include the lacking item(s) noted above, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner.

Further correspondence with respect to this matter should be addressed as follows:

The petition is **DISMISSED**.

A petition under 37 CFR 1.378(c) must be filed within twenty-four months after the six month grace period specified in 35 USC 41(b). Petitioner has filed a petition to reinstate for the 7 ½ year payment. However, the patent issued on May 4, 1999 and the 7 ½ year payment was due on May 4, 2007. Therefore, the set forth period in 35 USC 41(b) for paying the 7 ½ year maintenance fee expired at midnight on May 4, 2007. Accordingly, an unintentional petition to reinstate the instant patent must have been submitted no later than May 4, 2009. As the instant petition was filed on July 27, 2010, it was not timely filed and the instant patent will not be reinstated under the unintentional provisions of 37 CFR 1.378(c).

35 U.S.C. § 41(c)(1) authorizes the Commissioner to accept a delayed maintenance fee payment within twenty-four (24) months after the expiration of the six-month grace period specified in 35 U.S.C. § 41(b) if the delay is shown to have been unintentional, and authorizes the Commissioner to accept a delayed maintenance fee payment at any time if the delay is shown to have been unavoidable. Thus, 35 U.S.C. § 41(c)(1) does not authorize the Commissioner to accept a delayed maintenance fee payment later than twenty-four (24) months after the expiration of the six-month grace period specified in 35 U.S.C. § 41(b) unless the delay is shown to have been unavoidable. Since the instant petition was not filed within twenty-four (24) months after the expiration of the six-month grace period specified in 35 U.S.C. § 41(b), the Commissioner cannot accept a delayed maintenance fee payment for the above-identified patent under 37 CFR 1.378(c).

Maintenance fees are required to be paid to maintain a patent in force beyond 4, 8 and 12 years after the date of grant.

The periods specified [above] with respect to a reissue application, including a continuing reissue application thereof, are counted from the date of grant of the original non-reissue application on which the reissued patent is based. **See MPEP 2504 and 37 CFR 1.362(h).**

Petitioner may wish to pursue reinstatement of the patent under the unavoidable provisions of 37 CFR 1.378(b). A petition to accept the delayed payment of a maintenance fee under 35 USC 41(c) and 37 CFR 1.378(b) must be accompanied by (1) an adequate, verified showing that the delay was unavoidable, since reasonable care was taken to insure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent, (2) payment of the appropriate maintenance fee, unless previously submitted, and (3) payment of the surcharge set forth in 37 CFR 1.20(i)(1).

OFFICE OF PETITIONS

In re Patent No. 5,901,335	:	
Issue Date: May 4, 1999	:	
Application No. 08/880,109	:	ON PETITION
Filed: June 20, 1997	:	
Attorney Docket No. 1218P	:	

This is a decision on the petition under 37 CFR 1.378(b), filed September 15, 2010, to accept the unavoidably delayed payment of a maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within **TWO (2) MONTHS** from the mail date of this decision. No extension of this 2-month time limit can be granted under 37 CFR 1.136(a) or (b). Any such petition for reconsideration must be accompanied by the petition fee of **\$400** as set forth in 37 CFR 1.17(f). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, the Commissioner will undertake no further reconsideration or review of the matter.

The patent issued May 4, 1999. Accordingly, the 7½ year maintenance fee due could have been paid during the period from May 4, 2006 through November 7, 2006, or with a surcharge during the period from November 7, 2006 through May 4, 2007. This patent expired at midnight May 4, 2007, for failure to timely submit the 7½ year maintenance fee.

A petition to accept the delayed payment of a maintenance fee under 35 USC 41(c) and 37 CFR 1.378(b) must be accompanied by (1) an adequate, verified showing that the delay was unavoidable, since reasonable care was taken to insure that the maintenance fee would be paid timely, (2) payment of the appropriate maintenance fee, unless previously submitted, and (3) payment of the surcharge set forth in 37 CFR 1.20(i)(1). This petition lacks item (1) above.

Petitioner asserts that: (1) the Patentee asked Sawyer Law Group (SLG) to file a power of attorney as well as a statement under 37 CFR 3.73(b) in the Office to take over representation of the patent on or about July 2007 and the Lead Paralegal/ Office Manager, Ms. Nikia McNillion (McNillon) was the responsible party for filing as well as docketing the items for SLG; (2) McNillion's actions affected the present patent in that she intentionally and maliciously altered successful existing procedures without authority or approval, specifically, McNillion stopped docketing items in SLG in February 2007; and (3) McNillion did not enter the due date of the maintenance fee for the above-identified patent into the docketing system, therefore, neither the Patentee nor the attorney realized that the maintenance fee was due and/had not been paid.

The showing of record is inadequate to establish unavoidable delay within the meaning of 37 CFR 1.378(b)(3).

As 35 USC § 41(b) requires the payment of fees at specified intervals to maintain a patent in force, rather than some response to a specific action by the Office under 35 USC § 133, a reasonably prudent person in the exercise of due care and diligence would have taken steps to ensure the timely payment of such maintenance fees. Ray v. Lehman, 55 F.3d 606, 609, 34 USPQ2d 1786, 1788 (Fed. Cir. 1995). That is, an adequate showing that the delay in payment of the maintenance fee at issue was "unavoidable" within the meaning of 35 U.S.C. § 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken by the responsible party to ensure the timely payment of the maintenance fee for this patent. *Id.*

Petitioner should note that the patent expired prior to SLG taking over payment of the maintenance fee. Accordingly, neither SLG nor McNillon were the party responsible for ensuring timely payment of the maintenance fee at the time payment of the maintenance fee was due. As such, petitioner may not rely upon the action or inactions of McNillon to support a showing of unavoidable delay in the payment of the maintenance fee due.

Currently, USPTO records indicate that either the assignee of record, Digital Video Systems, Inc or their representative was the party responsible for payment of the maintenance fee due. Petitioner is required to indicate who was responsible for payment of the maintenance fee and provide a statement from the responsible party showing: (1) the steps that were in place to ensure timely payment of the maintenance fee, (2) a complete explanation of how the system worked, (3) an explanation as to why the system failed in this instance, and (4) a documented showing that this party was in fact obligated to track the fee on behalf of petitioner.

Petitioner is advised, however, that the USPTO is not the forum for resolving a dispute between a patent owner and his representative as to who bore the responsibility for paying a maintenance fee. See Ray, 55 F. 3d at 610, 34 USPQ2d at 1789.

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28. On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. **See DH Technology v. NOTICE

This is in response to the letter concerning acceptance of a fee deficiency submission under 37 CFR 1.28 filed on April 28, 2011.

The letter is not properly signed.

The letter is signed on behalf of the assignee of an undivided interest in the entirety of the patent, as indicated on the Statement Under 37 CFR 3.73(b).

37 CFR 1.27(g)(2) states, in pertinent part, that:

Notification of a loss of entitlement to small entity status must be filed in the application or patent prior to paying, or at the time of paying, the earliest of the issue fee or any maintenance fee due after the date on which status as a small entity as defined in paragraph (a) of this section is no longer appropriate. The notification that small entity status is no longer appropriate must be signed by a party identified in § 1.33(b).

37 CFR 1.33(b) requires that amendments and other papers, except for written assertions pursuant to § 1.27(c)(2)(ii) of this part, filed in the application must be signed by:

- (1) A patent practitioner of record appointed in compliance with § 1.32(b);
- (2) A patent practitioner not of record who acts in a representative capacity under the provisions of § 1.34;
- (3) An assignee as provided for under § 3.71(b) of this chapter; or
- (4) All of the applicants (§ 1.41(b)) for patent, unless there is an assignee of the entire interest and such assignee has taken action in the application in accordance with § 3.71 of this chapter.

Further, a review of Office assignment records suggests that the assignee on whose behalf the submission was filed, Massachusetts Institute of Technology, is not the sole assignee of this patent. Petitioner must clarify whether it is a proper party to sign the subject submission.

Accordingly, it is recommended that patentees submit a properly signed request under 37 CFR 1.28(c).

The Office acknowledges receipt of payment of \$1,240.00.

For: Biodegradable Molding Material	:	

This is a decision on the petition under 37 C.F.R. § 1.378(b) to reinstate the above-identified patent filed February 23, 2011

The petition is **DISMISSED**.

Facts

The application was filed June 30, 1997.

An assignment from the sole inventor to Industrial Technical R & D Laboratory, Inc. ("ITL") was recorded on November 3, 1997.

The application issued as a patent on October 12, 1999.

ITI licensed the patent to Japan Peparon Company, Inc. ("JPC") on September 11, 2002. The license includes the inventor's signature as a Representative Director of ITI.

The license agreement required ITI to pay maintenance fees and other expenses for the patent.

The inventor had a stroke on October 14, 2002. The English translation of a "Medical Certificate" filed with the petition states the hospital "diagnosed [the inventor] as suffering from cerebral infarction and cured conservation treatment." The meaning of the phrase "cured conservation treatment" is unclear.

The medical certificate does not address the inventor's health for the time period from October 15, 2002, to December 12, 2002.

The inventor was taken to Kyoritsu Onsen Hospital on December 12, 2002. The medical certificate implies, but does not clearly state, the inventor was in the hospital the entire time period from December 12, 2002, to April 21, 2003. The translation of the Medical Certificate states the inventor left the Kyoritsu Onsen Hospital on April 21, 2003, and was admitted into a "hospital for senior citizens nursing facility."

The petition includes a translation of a "Registry of Kitamura Patent and Law Office." Portions of the registry are vague and/or ambiguous. The registry *appears* to indicate the Kimura Patent and Law Office ("Kimura") informed ITI of the need to pay the 3.5 year maintenance fee for the patent on or about October 18, 2002, and Kimura received instructions from ITI to pay the 3.5 year maintenance fee either on January 21, 2003, or February 21, 2003. The record fails to identify the individual at ITI who provided Kimura with the instructions to pay the fee.

The 7.5 year fee was payable from October 12, 2006, to April 12, 2007, or with a surcharge from April 13, 2007, to October 12, 2007.

Kimura's registry appears to indicate Kimura informed ITI of the need to pay the 7.5 year maintenance fee for the patent on or about March 27, 2007. The translation of the registry includes the following language in two different locations: "07.4.4. Tel : abandonment by without payment." The registry also states, "APR.-4. 2007 Abandonment RCVD." The preceding language appears to be an indication a representative of ITI informed Kimura not to pay the 7.5 year maintenance fee.

The 7.5 year maintenance fee was not timely paid and the patent expired on October 13, 2007.

The petition asserts, as a result of the inventor's stroke, the inventor "could not make up an adequate decision on the expiration of the patent." The petition asserts JPC was not informed of the inventor's decision not to pay the maintenance fee. The petition states the inventor passed away on April 27, 2008.

Law

A grantable petition under 37 C.F.R. § 1.378(b) must be accompanied by a showing to the satisfaction of the Director that the entire delay in paying the required maintenance fee from the due date for the fee until the filing of a grantable petition pursuant to this paragraph was unavoidable.

In order for a party to show unavoidable delay, the party must show "reasonable care was taken to ensure that the maintenance fee would be promptly paid."¹ The level of "reasonable care" required to be shown is the same as the level of "care or diligence ... generally used and observed

¹ 37 C.F.R. § 1.378(b).

by prudent and careful men in relation to their most important business.”² When determining if a period of delay has been shown to have been unavoidable, the Office will take “all the facts and circumstances into account” and will decide each petition “on a case-by-case basis.”³

35 U.S.C. § 41(c)(1) states, with emphasis added, “The Director may accept the payment of any maintenance fee . . . after the six month grace period if the delay is *shown to the satisfaction of the Director* to have been unavoidable.” Therefore, a petitioner has the burden of proof.

Analysis

The Petition is not Properly Signed.

The petition is signed by Yutaka Oshida as Director and Deputy of JPC.

The petition states JPC is the assignee of the patent. However, JPC’s proof of ownership consists of a “Patent License Agreement.” A license is *not* the same as an assignment.

The statement under 37 CFR 3.73(b) filed with the petition states documentary evidence showing a chain of title to JPC is being concurrently filed for recordation. However, Office records fail to indicate an assignment from ITI to JPC has been recorded. Office records also fail to indicate a copy of the license agreement has been recorded.

37 CFR 1.378(d) states,

Any petition under this section must be signed by an attorney or agent registered to practice before the Patent and Trademark Office, or by the patentee, the assignee, or other party in interest. is not the equivalent of

The record fails to prove Yutaka Oshida is a registered attorney or agent or an inventor. The record also fails to prove JPC is the assignee of the patent or prove JPC falls within the scope of the phrase “other party in interest” as set forth in 37 CFR 1.378(b). Therefore, the petition must be dismissed.

The Petition Fails to Establish the Entire Delay in the Submission of the Fee was Unavoidable.

ITI appears to have intentionally made the choice not to pay the maintenance fee. An intentional failure to pay a fee is not an unavoidable failure to pay a fee.

The petition *assumes* the inventor made the decision and *assumes* the inventor was incapable of making adequate decisions concerning the expiration of the patent. However, the record fails to

establish the inventor was employed by ITI on April 4, 2007, or that the instructions Kimura received on April 4, 2007, were from the inventor. The record also fails to include any evidence pertaining to the inventor's ability to make rationale business decisions on April 4, 2007. Therefore, JPC has failed to prove ITI's instructions were the result of an inability of the inventor to make reasonable decisions regarding the patent.

Even if the petition established the inventor made the decision and established the inventor was incapable of making rational business decisions, the showing of record would be insufficient to establish unavoidable delay. When a party relies on an agent, such as ITI, to take certain steps, a petition must address not only the party's actions *but also* must address the agent's actions or inactions.⁴ In other words, in order to establish unavoidable delay, JPC would need to prove ITI treated its obligations concerning the patent with the same level of care and diligence normally exercised by reasonable and prudent individuals when handling their most important business. JPC assumes ITI was allowing the inventor to make business decisions on its behalf during 2007, while at the same time assuming the inventor was incapable of making rationale business decisions. However, JPC has not shown a reasonable and prudent company would allow an individual incapable of making rationale business decisions to make decisions concerning the company's most important business.

Pursuant to 37 C.F.R. § 1.378(b)(3), a showing of unavoidable delay must identify "the date and the manner in which [the relevant party] became aware of the expiration of the patent, and the steps taken to file the petition promptly." The petition fails to identify the date or manner in which JPC learned the patent expired or identify any steps taken by JPC to file the petition promptly.

In view of the prior discussion, the showing of record is not sufficient to establish that the entire delay was unavoidable within the meaning of 37 C.F.R. § 1.378(b).

The Petition Fails to Identify the Application Number and Patent Number.

The petition fails to identify the application number of patent number for the instant case. All future correspondence filed concerning the instant case should clearly and prominently identify the application number and the patent number.

Fees

A petition under 37 C.F.R. § 1.378(b) must include the applicable maintenance fee and a required surcharge. In this case, the petition needed to be accompanied by \$1,240 for the 7.5 year maintenance fee and \$700 for the required surcharge.

⁴ See *Pioneer Inv. Servs. Co. v. Brunswick Assocs. Ltd. P'ship*, 507 U.S. 380, 396, 397 (1993) ("The [Circuit] court also appeared to focus its analysis on whether respondents did all they reasonably could in policing the conduct of their attorney, rather than on whether their attorney, as respondents' agent, did all he reasonable could to comply with the court-order bar date. In this, the court erred. . . . [I]n determining whether respondents' failure to file their proof of claim prior to the bar date was excusable, the proper focus is upon whether the neglect of respondents and their counsel was excusable." (emphasis in original)).

The sum of \$1,940 (\$1,240 + \$700) appears to have been charged in this case to a credit card on February 18, 2011, and to a credit card on March 24, 2011. As a result, the Office has received a total of \$3,880.

The Office has scheduled a refund of \$1,940 of the \$3,880. The \$1,940 will be credited back to the credit card used to pay the fee.

Address

The file does not indicate a change of address has been submitted, although the address given on the petition differs from the address of record. If appropriate, a request to change the address of record should be filed. A copy of this decision is being mailed to the address given on the petition; however, the Office will mail all future correspondence solely to the current address of record until proper instructions to change the address of record are received.

JPC's Current Options

I. JPC May File a Request for Reconsideration.

A request for reconsideration may be filed in this case. Such a request must be submitted within TWO (2) MONTHS from the mail date of this decision and include a non-refundable petition fee of \$400. Extensions of time under 37 C.F.R. § 1.136(a) are NOT permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.378(b)."

The last date the 11.5 year maintenance fee can be timely paid, with a surcharge, is October 12, 2011. If a request for reconsideration is filed, a decision responding the request may not be mailed until after October 12, 2011. Therefore, any request for reconsideration should include \$1,900 for the 11.5 year maintenance fee.

After a decision on the petition for reconsideration is issued, no further reconsideration or review of the matter will be undertaken by the Director. Therefore, it is extremely important that petitioner supply any and all relevant information and documentation with his request for reconsideration. The Commissioner's decision will be based solely on the administrative record in existence. Petitioner should remember that it is not enough that the delay was unavoidable; petitioner must prove that the delay was unavoidable. A petition will not be granted if petitioner provides insufficient evidence to "show" that the delay was unavoidable. Therefore, if a request for reconsideration is filed, it must establish that the entire delay in the submission of the maintenance fee was unavoidable.

II. JPC May Request a Refund of the Maintenance Fee and Surcharge.

Since the petition is dismissed, petitioner may request of the \$1,940 charged to a credit card on February 18, 2011. The \$1,940 consists of \$1,240 for the 7.5 year maintenance fee and \$700 for the required surcharge. Petitioner is reminded that if a request for reconsideration is later filed along with the \$400 fee, the \$400 will not be refunded. A request for a refund should be sent

to: Mail Stop 16, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450. A copy of this decision should accompany any request for refund.

DECISION ON PETITION

The above-identified application has been forwarded to the undersigned for consideration on a petition for patent term extension entitled "Petition Under 37 CFR 1.181," received on September 23, 2010. The petition is being treated under 37 CFR 1.181 and 37 CFR 1.701, as a petition for patent term extension.

The petition is granted.

Petitioner asserts the application is entitled to patent term extension under 35 U.S.C. 154. Petitioner asserts that the application was filed on July 7, 1997 and allowed on July 15, 2010, but issuance was delayed due to two appeals to the Board of Patent Appeals and Interferences (BPAI). Petitioner states that the USPTO failed to provide patent term extension for both of the appeals in the Notice of Allowance. Petitioner notes that the application was filed on July 7, 1997 and is eligible for patent term extension under 35 U.S.C. 154 and 37 CFR 1.701.

On July 7, 1997, the above identified application was filed.

On October 5, 2000, a Notice of Appeal was filed.

On July 21, 2005, a Decision by the BPAI reversing the decision of the Examiner and remanding the application to the Examiner was mailed by the Office.

On January 26, 2006, a Notice of Appeal was filed.

On September 21, 2007, a Decision by the BPAI reversing the decision of the Examiner was mailed by the Office.

35 U.S.C. § 154(b) provides for patent term extension for appellate review, interference and secrecy order delays in applications filed on or after June 8, 1995 and before May 29, 2000, and, as amended by the "American Inventors Protection Act of 1999," enacted November 29, 1999, as part of Public Law 106-113, for those delays and others in applications filed on or after May 29, 2000.

The above-identified application was filed on July 7, 1997. Accordingly it is entitled to patent term extension based upon the conditions in 35 U.S.C. § 154(b), in effect on June 8, 1995.

A Notice of Appeal was filed in the above-identified application on October 5, 2000. On July 21, 2005, the Board of Patent Appeals and Interferences (BPAI) reversed an adverse determination of patentability by the examiner in the above-identified application. Since the above-identified application was filed after June 7, 1995, there is no terminal disclaimer due to the issue of another patent claiming subject matter that is not patentably distinct from that under appellate review, and issuance of the application as a patent was delayed due to appellate review resulting in reversal of an adverse determination by the Examiner, the patent to issue from the application is entitled to an extension of the patent term. The period of delay in the above-identified application is the period beginning on October 5, 2000, the date that the Notice of Appeal was filed and ending on July 21, 2005, the date of the decision by the BPAI, which is a final decision in favor of the applicant. Three years after the earliest effective filing date of the application is July 7, 2000. Accordingly, the period of extension is not required to be reduced pursuant to 37 CFR 1.701(d)(1) by the amount of time prior to three years after the filing date of the application. As a result, the first period of extension is 1386 days, the period from October 5, 2000 to July 21, 2005, including the beginning and end dates.

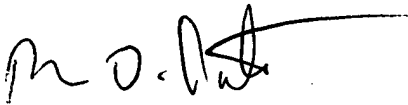

A second Notice of Appeal was filed in the above-identified application on January 26, 2006. On September 21, 2007, the Board of Patent Appeals and Interferences (BPAI) reversed an adverse determination of patentability by the examiner in the above-identified application. Since the above-identified application was filed after June 7, 1995, there is no terminal disclaimer due to the issue of another patent claiming subject matter that is not patentably distinct from that under appellate review, and issuance of the application as a patent was delayed due to appellate review resulting in reversal of an adverse determination by the Examiner, the patent to issue from the application is entitled to an extension of the patent term. The second period of delay in the above-identified application is the period beginning on January 26, 2006, the date that the Notice of Appeal was filed and ending on September 21, 2007, the date of the decision by the BPAI, which is a final decision in favor of the applicant. Three years after the earliest effective filing date of the application is July 7, 2000. Accordingly, the period of extension is not required to be reduced pursuant to 37 CFR 1.701(d)(1) by the amount of time prior to three years after the filing date of the application. As a result, the first period of extension is 604 days, the period from January 26, 2006, to September 21, 2007, including the beginning and end dates.

As a result, the period of extension is 1990 days. In accordance with 37 CFR 1.701(b), the term of a patent under this section may be extended up to a maximum of five years. The patent term extension under 35 U.S.C. 154 and 37 CFR 1.701 is five (5) years or 1,826 days.

The Office's electronic record (Patent Application and Location Monitoring system (PALM)) will be adjusted to show that five (5) years of patent term extension has been accrued to the above-identified application.

Petitioner's deposit account has not been charged a petition fee.

Telephone inquiries with regard to this communication should be directed to Mark O. Polutta at (571) 272-7709.

ON PETITION

This is a decision on the petitions under 37 CFR §§ 1.378(b) and (c), filed on June 3, 2010, to accept the delayed payment of a maintenance fee for the above-identified patent. The delay in responding is sincerely regretted.

The petition under 37 CFR 1.378(b) is **dismissed**.

A petition to accept the unintentionally delayed payment of a maintenance fee under 35 U.S.C. § 41(c) and 37 CFR 1.378(c) must be accompanied by: (1) a statement that the delay was unintentional; (2) payment of the appropriate maintenance fee, unless previously submitted; (3) payment of the surcharge set forth in 37 CFR 1.20(i)(2). This petition lacks item (1) above.

The Director may accept late payment of the maintenance fee if the delay is shown to the satisfaction of the Director to have been "unavoidable". 35 U.S.C. § 41(c)(1).

Petitioner states that the delay in payment of the maintenance fee was unavoidable due to petitioner's physical infirmities and the fact that "my wife handled all my financial matters because I was unable to."

The showing of record is inadequate to establish unavoidable delay within the meaning of 37 CFR 1.378(b)(3).

Decisions on reviving abandoned applications have adopted the "reasonably prudent person" standard in determining if the delay in responding to an Office action was unavoidable. Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (Comm'r Pat. 1887)(the term "unavoidable" "is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business"); In re Mattullath, 38 App. D.C. 497, 514-515 (D.C. Cir. 1912); and Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141. In addition, decisions on revival are made on a "case-by-case basis, taking all the

facts and circumstances into account." Smith v. Mossinghoff, 671 F.2d 533, 538, 213 USPQ 977, 982 (D.C. Cir. 1982). Finally, a petition to revive an application as unavoidably abandoned cannot be granted where a petitioner has failed to meet his or her burden of establishing the cause of the unavoidable delay. Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

In essence, petitioner must show that he was aware of the need to pay the maintenance fee, and to that end was tracking it, or had engaged someone to track it before the expiration, but when the fee came due, was "unavoidably" prevented from making the maintenance fee payment due to his medical condition until the petition was filed.

As to the health problems, petitioner states "I am a 100% Disabled Veteran wounded 2 Purple Hearts Vietnam. Among others is 100% for Post Traumatic Stress Disorder (paper att.)." Petitioner must provide documents from licensed health care providers, demonstrating the nature and extent of petitioner's incapacitation, in such a manner that petitioner was, from the date of expiry until the filing of the petition on June 3, 2010, "unavoidably" prevented from taking any earlier action with respect to this patent. Additionally, petitioner must state how he manages to conduct his daily personal and business affairs, including scheduling and settlement of short and long term debts and business obligations, bills, rent or mortgage payments, income taxes etc., during the time in question. Petitioner must demonstrate that his health problems were such as to cause the payment of the maintenance fee to have been unavoidably delayed.

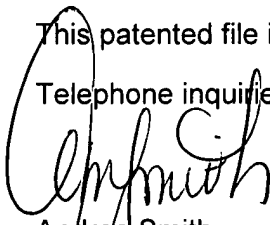

While the undersigned sympathizes with petitioner the record fails to disclose that the patentee took reasonable steps to ensure timely payment of the maintenance fee. In fact, the record indicates that no steps were taken by patentee to ensure timely payment of the maintenance fee. Since no steps were taken by patentee, 37 CFR 1.378(b) precludes acceptance of the delayed payment of the maintenance fee.

On the other hand, since petitioner has demonstrated to the satisfaction of the Commissioner that the delay in timely paying the maintenance fee was unintentional, the petition under 37 CFR 1.378(c), filed on June 3, 2010, is hereby **GRANTED**.

The maintenance fee is hereby accepted and the above-identified patent is reinstated as of the mail date of this decision.

This patented file is being forwarded to Files Repository.

ON PETITION

A petition under 37 CFR 1.378(c) was filed on September 26, 2011, to accept the delayed payment of a maintenance fee for the above-identified patent.

The petition is **dismissed**.

A petition to accept the unintentionally delayed payment of a maintenance fee under 35 U.S.C. 41(c) and 37 CFR 1.378(c) must be accompanied by: (1) a statement that the delay was unintentional; (2) payment of the appropriate maintenance fee, unless previously submitted; (3) payment of the surcharge set forth in 37 CFR 1.20(i)(2). This petition lacks item (1) above.

With regard to item (1) above, a Statement under 37 CFR 3.73(b) was filed on September 26, 2011, which states that the City of Cocoa has the entire, right, title and interest in the above patent. However, a review of the assignment records located in the United States Patent and Trademark Office (USPTO), discloses that inventors CARL RICHARD LARRABEE JR., DAVID ALAN KING, EVERETT JOHN WEGERIF, WILLIAM POWELL NAIRN and HERSHEL WILLIAMSON assigned their rights to City of Cocoa, Florida by virtue of assignment recorded at reel/frame number 009436/0975 on July 24, 1998, and the remaining two inventors, GARY LYNN HELLER and GLYNN ALAN LEFFLER assigned their rights to KLH Environmental Services, LLC by virtue of assignment recorded at reel/frame number 013177/0473 on May 7, 2002. Therefore, since the assignment records of the USPTO discloses that the City of Cocoa, Florida does not own the entire right, title and interest of the above-identified patent, the statement of unintentional delay cannot be accepted at this time.

Additionally, part B of the Statement under 37 CFR 3.73(b) is incomplete. Specifically, the complete chain of title from the original owners to the current patent holders is missing. Thus, part B of the form must be completed and signed by an authorized authority of the assignee of both companies or petitioner must provide evidence that would establish that the City of Cocoa, Florida is the assignee of entire right, title and interest¹.

¹ As required by 37 CFR 3.73(b)(1)(i), the documentary evidence of the chain of title must be submitted for recordation pursuant to 37 CFR 3.11.

It is noted that the correspondence address of record differs from the address given in the present petition. A courtesy copy of this decision is being mailed to the address in the petition. Thereafter, all future communications from the Office will be directed solely to the address of record unless otherwise instructed.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within **TWO (2) MONTHS** from the mail date of this decision. No extension of this two-month time limit can be granted under 37 CFR 1.136(a) or (b). This is **not** a final agency action within the meaning of 35 U.S.C. 704.

Any petition for reconsideration of this decision must be accompanied by the petition fee of \$400 as set forth in 37 CFR 1.17(f). The petition for reconsideration must include the lacking item(s) noted above, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner.

ON PETITION

This is a decision regarding your request for acceptance of a fee deficiency submission and loss of small entity status filed August 30, 2011, which is being treated under 37 CFR 1.28.

On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. See DH Technology v. Synergystex International, Inc., 154 F.3d 1333, 47 USPQ2d 1865 (Fed. Cir. Sept. 1, 1998).

The Office no longer investigates or rejects original or reissue applications under 37 CFR 1.56. 1098 Off. Gaz. Pat. Office 502 (January 3, 1989). Therefore nothing in this Notice is intended to imply that an investigation was done.

Your fee deficiency submission under 37 CFR 1.28 is hereby accepted and the petition is **GRANTED**. Status as a small entity has also been removed.

ON PETITION

This is a decision on the petition filed July 20, 2011, under 37 CFR 1.378(b), to accept the delayed payment of the maintenance fee for the above-identified patent.

The petition is **DISMISSED**.

If reconsideration of this decision is desired, a petition for reconsideration under 37 CFR 1.378(e) must be filed within TWO (2) MONTHS from the mail date of this decision. No extension of this 2-month time limit can be granted under 37 CFR 1.136(a) or (b). Any such petition for reconsideration must be accompanied by the petition fee of \$400.00 as set forth in 37 CFR 1.17(h). The petition for reconsideration should include an exhaustive attempt to provide the lacking item(s) noted below, since, after a decision on the petition for reconsideration, no further reconsideration or review of the matter will be undertaken by the Commissioner.

The patent issued on June 20, 2000. The second maintenance fee due could have been paid during the period from June 20, 2007 to December 20, 2007 or, with a surcharge during the period from December 21, 2007 to June 20, 2008. Accordingly, this patent expired on June 20, 2008 for failure to timely remit the first maintenance fee.

A petition to accept the delayed maintenance fee under 35 U.S.C. § 41(c) and 37 CFR 1.378(b) must be accompanied by (1) an adequate, verified showing that the delay was unavoidable, since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent, (2) payment of the appropriate maintenance fee, unless previously submitted, and (3) payment of the surcharge set forth in 37 CFR 1.20(l)(1).

This petition lacks item (1) above.

Petitioner, a registered attorney and purportedly a party in interest, argues that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fees of all the U.S. patents in the Tao portfolio would be paid timely manner. Specifically, petitioner argues that an error in the docketing system as a result of misinformation provided by the original Tao management, caused a delay in payment despite reasonable care under the circumstances being exercised to ensure timely payment of the maintenance fees thus the maintenance fee was not paid and the patent expired.

A late maintenance fee is considered under the same standard as that for reviving an abandoned application under 35 U.S.C. § 133 because 35 U.S.C. § 41(c)(1) uses identical language (i.e. "unavoidable delay").¹ Decisions reviving abandoned applications have adopted the reasonably prudent person standard in determining if the delay was unavoidable.² In this regard:

The word 'unavoidable' . . . is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used and observed by prudent and careful men in relation to their most important business. It permits them in the exercise of this care to rely upon the ordinary and trustworthy agencies of mail and telegraph, worthy and reliable employees, and such other means and instrumentalities as are usually employed in such important business. If unexpectedly, or through the unforeseen fault or imperfection of these agencies and instrumentalities; there occurs a failure, it may properly be said to be unavoidable, all other conditions of promptness in its rectification being present.³

As 35 U.S.C. § 41(c) requires the payment of fees at specified intervals to maintain a patent in force, rather than some response to a specific action by the Office under 35 U.S.C. § 133, a reasonably prudent person in the exercise of due care and diligence would

²Ex parte Pratt, 1887 Dec. Comm'r Pat. 31, 32-33 (Comm'r Pat. 1887)(the term "unavoidable" "is applicable to ordinary human affairs, and requires no more or greater care or diligence than is generally used by prudent and careful men in relation to their most important business").

Supp. 550, 552, 138 USPQ 666, 167-68 (D.D.C. 1963), aff'd, 143 USPQ 172 (D.C. Cir. 1963); Ex parte Henrich, 1913 Dec. Comm'r Pat. 139, 141 (1913). In addition, decisions on revival are made on a "case-by-case basis, taking all the facts and circumstances into account." Smith v. Mossinghoff, 671 F.2d 533, 538, 213 USPQ 977, 982 (D.C. Cir. 1982). Finally, a petition cannot be granted where a petitioner has failed to meet his or her burden of establishing that the delay was "unavoidable." Haines v. Quigg, 673 F. Supp. 314, 316-17, 5 USPQ2d 1130, 1131-32 (N.D. Ind. 1987).

have taken steps to ensure the timely payment of such maintenance fees.⁴ That is, an adequate showing that the delay was "unavoidable" within the meaning of 35 U.S.C. § 41(c) and 37 CFR 1.378(b)(3) requires a showing of the steps taken to ensure the timely payment of the maintenance fees for this patent.⁵

Petitioner's arguments have been considered but are not persuasive.

Assuming that the failure to submit the maintenance fee payment to the USPTO was a clerical error, as noted in MPEP 711.03(c) §(III)(2), a delay resulting from an error (e.g., a docketing error) on the part of an employee in the performance of a clerical function may provide the basis for a showing of "unavoidable" delay, provided it is shown that:

(A) the error was the cause of the delay at issue;

(B) there was in place a business routine for performing the clerical function that could reasonably be relied upon to avoid errors in its performance; and

(C) the employee was sufficiently trained and experienced with regard to the function and routine for its performance that reliance upon such employee represented the exercise of due care.⁶

An adequate showing as it relates to an error on the part of an employee requires:

(1) Statements by all persons with direct knowledge of the circumstances surrounding the delay, setting forth the facts as they know them;

(2) Petitioner must supply a thorough explanation of the creation of and transfer of the maintenance fee records; and

(3) Petitioner must supply information regarding the training provided to the personnel responsible for the creation and transfer of the maintenance records and must describe the work which was used to assure proper execution of assigned tasks.

Petitioner has not provided evidence that Cross Atlantic Capital Partners, is the assignee that either Tao Group Limited, Cross Atlantic Capital Partners, Computer Patent Annuities or the Nixon Vanderhye firm, all listed as having some interest in this matter, had a

⁶See In re Egbers, 6 USPQ2d 1869, 1872 (Comm'r Pat. 1988), rev'd on other grounds sub nom., Theodor Groz & Sohne & Ernst Bechert Nadelfabrik KG v. Quigg, 10 USPQ2d 1787 (D.D.C. 1988); In re Katrapat, 6 USPQ2d 1863, 1867-68 (Comm'r Pat. 1988).

docketing system. In this instance, petitioners have not demonstrated that any measures or back up measures were in place to ensure that maintenance fees would be paid. As prudent and careful practitioners, adequate steps should have been taken in the docketing of this patent and to prevent the delay in the payment of the maintenance fees.

In view thereof, no evidence has been provided to establish that the delay in payment of the maintenance fee was unavoidable.

For all the reasons listed above, petitioner has not carried the burden of proof to establish to the satisfaction of the Director that the delay was unavoidable. There is a distinct difference between an unavoidable delay which, had there been reasonable care exercised, could not have been prevented and one that was the result of a mistake. Since petitioner has not provided enough information for a determination that reasonable care was in fact exercised to ensure that the maintenance fee would be paid timely and that therein the delay was unavoidable, the argument fails.

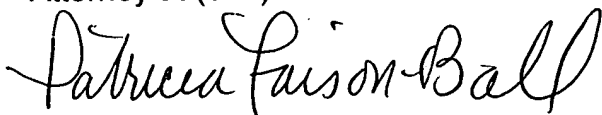

As petitioner has not provided a showing of evidence to satisfy the requirements of a grantable petition under the unavoidable standard, the petition will be dismissed.

This is a notice regarding your request for acceptance of a fee deficiency submission under 37 CFR 1.28. On September 1, 1998, the Court of Appeals for the Federal Circuit held that 37 CFR 1.28(c) is the sole provision governing the time for correction of the erroneous payment of the issue fee as a small entity. **See DH Technology v. In re Patent No. 5,865,005 :
Issued: February 2, 1999 : REQUEST FOR INFORMATION
Application No.: 08/908,146 :
Filing Date: August 6, 1997 :
Attorney Docket No. **CMA 102A-US** :

This is a request for information in response to the petition under 37 CFR 1.378(b), filed July 7, 2011, to reinstate the above-cited patent.

Petitioner is allowed a non-extendable period for reply of **TWO (2) MONTHS** from the mailing date of this communication to provide a response. The response should be titled, "Response to Request for Information." If no response is provided within the period set forth, a decision will be made solely on the merits as set forth in the petition under 37 CFR 1.378(b) filed July 7, 2011. No additional fees are due.

The patent issued February 2, 1999. The 11.5 year maintenance fee could have been paid from February 2, 2010, through August 2, 2010, or with a surcharge, as authorized by 37 CFR 1.20(h), during the period from August 3, 2010, to February 2, 2011. Petitioner did not do so. Accordingly, the patent expired at midnight on February 2, 2011.

Petitioner is required to address the following points:

- A successful petition under 37 CFR 1.378(b) must affirmatively identify the cause of the delay in paying the maintenance fee and provide a statement from every person with first-hand knowledge of the circumstances surrounding the delay in paying the maintenance fee. Petitioner must provide statements from any person who may have been charged with paying the maintenance fee and statements from any person with first-hand knowledge of the circumstances surrounding the failure to pay the maintenance fees.
- 37 CFR 1.378(b)(3) sets forth that a petition submitted under this portion of the Code of Federal Regulations must include a showing which is described as follows:

A showing that the delay was unavoidable since reasonable care was taken to ensure that the maintenance fee would be paid timely and that the petition was filed promptly after the patentee was notified of, or otherwise became aware of, the expiration of the patent. The showing must enumerate the steps taken to ensure timely payment of the maintenance fee, the date and the manner in which patentee became aware of the expiration of the patent, and the steps taken to file the petition promptly.

Petitioner must, therefore, describe the steps that were in place to ensure that the maintenance fee was timely paid. This showing would include an explanation of who was responsible for paying tracking and paying the maintenance fee and the method this person, or entity, used for tracking the maintenance fee

- Petitioner must describe when petitioner became aware that the patent was expired and the steps petitioner took to reinstate the patent.

It is noted that subject patent has been expired less than two years. The petition under 37 CFR 1.378(c) for unintentional delay is, therefore, available to petitioner in order to reinstate the patent. The petition under 37 CFR 1.378(c) is considerably less burdensome and, given the circumstance set forth in the petition for the delay in paying the maintenance fee, the petition under 37 CFR 1.378(c) is more likely to be considered grantable. Petitioner is cautioned that the petition under 37 CFR 1.378(c) must be filed within two years of the date of expiration of the patent, i.e., by February 2, 2013. After that date, petitioner will be statutorily barred from filing the petition under 37 CFR 1.378(c). The form for the petition under 37 CFR 1.378(c) is enclosed for petitioner's convenience. The petition under 37 CFR 1.378(c) must be accompanied by a surcharge of \$1,640.00. The surcharge of \$700.00 that accompanied the petition under 37 CFR 1.378(b) may be applied towards the satisfaction of the surcharge under 37 CFR 1.378(c). Thus, the petition under 37 CFR 1.378(c) need only be accompanied by \$940.00. The aforementioned is only to educate petitioner as to all petitioner's options and is not meant to direct petitioner in either course.
